A NEW YORK TIMES NOTABLE BOOK OF THE YEAR When Peggy Orenstein's now-classic examination of young girls and self-esteem was first published, it set off a groundswell that continues to this day. Inspired by an American Association of University Women survey that showed a steep decline in confidence as girls reach adolescence, Orenstein set out to explore the obstacles girls face--in school, in the home, and in our culture. For this intimate, girls' eye view of the world, Orenstein spent months observing and interviewing eighth-graders from two ethnically disparate communities, seeking to discover what was causing girls to fall into traditional patterns of self-censorship and self-doubt. By taking us into the lives of real young women who are struggling with eating disorders, sexual harassment, and declining academic achievement, Orenstein brings the disturbing statistics to life with the skill and flair of an experienced journalist. Uncovering the adolescent roots of issues that remain important to American women throughout their lives, this groundbreaking book challenges us to change the way we raise and educate girls.

"Nisha Sharma's Dating Dr. Dil is what would happen if you put all my favorite romantic comedy tropes into a blender: a frothy, snarky, hilarious treat with a gooey, heartwarming center. The perfect addition to any rom-com lover's shelf." —Emily Henry, #1 New York Times bestselling author of People We Meet on Vacation  
Nisha Sharma's new romantic comedy features enemies to lovers, a cast of best friends, and a gaggle of aunties determined to make a match. Hi! I'm Kareena Mann. As cheesy as it sounds, I'm looking for my soulmate. In four months. And he must gain the approval of my meddling aunties. Kareena dreams of having a perfect love story like her parents did. That's why on the morning of her thirtieth birthday, she's decided to suit up and enter the dating arena. When her widowed father announces he's retiring and selling their home after her sister's engagement party, Kareena makes a deal with him. If she can find her soulmate by the date of the party, he'll gift her the house, and she'll be able to keep her mother's legacy alive. Hi, I'm Dr. Prem Verma, host of the Dr. Dil Show. Prem means love, Dil means heart, and I'm a cardiologist. Don't let my name fool you. I only fix broken hearts in the literal sense. Prem doesn't have time for romance, which is why it's no surprise when his first meeting with Kareena goes awry. Their second encounter is worse when their on-air debate about love goes viral. Now Prem's largest community center donor is backing out because Prem's reputation as a heart-health expert is at risk. To get back in his donor's good graces, he needs to fix his image fast, and dating Kareena is his only option. Even though they have warring interests, the more time Prem spends with Kareena, the more he thinks she's might actually be the woman he wants to spend the rest of his life with. In this Taming of the Shrew re-imagining, for Prem and Kareena to find their happily ever after, they must admit that hate has turned into fate. "Bursting with character, spicy tension and laughs, Dating Dr. Dil is the enemies to lovers dream book!" —Tessa Bailey, New York Times bestselling author of It Happened One Summer

IN OCTOBER 2019, THE ASSEMBLY elections held in Maharashtra saw a decisive mandate in favour of the pre-poll Mahayuti alliance of the Bharatiya Janata Party and the Shiv Sena, against the Maha Aghadi alliance of the Nationalist Congress Party and the Indian National Congress. But what followed shook the very foundations of democracy. With the Shiv Sena unexpectedly staking claim to the chief minister's post, and the BJP unwilling to give in to their demand, the battle for the coveted top spot began in earnest and President's Rule was imposed in the state. Featuring swiftly shifting alliances, the abandonment of long-held party ideologies, dynastic bombast and overnight reversals, the high-octane drama culminated in Uddhav Thackeray of the Shiv Sena taking oath as chief minister of Maharashtra on 28 November 2019. The BJP – the single-largest party in the legislature, with almost double the seats of the second-in-line Shiv Sena – found itself side-lined and left without power. Recounting in dramatic detail the high-stakes battle for political control of a crucial state, *Trading Power* throws into sharp focus the manipulations and narrow motivations that rule politics in the country today, ultimately leading to a gross betrayal of the people's mandate.

Jordan Peterson has attracted a high level of attention.

Controversies may bring people into contact with Peterson's work, but ideas are arguably what keep them there. Focusing on those ideas, this book explores Peterson's answers to perennial questions. What is common to all humans, regardless of their background? Is complete knowledge ever possible? What would constitute a meaningful life? Why have humans evolved the capacity for intelligence? Should one treat others as individuals or as members of a group? Is a single person powerless in the face of evil? What is the relation between speech, thought, and action? Why have religious myths and narratives figured so prominently in human history? Are the hierarchies we find in society good or bad? After devoting a chapter to each of these questions, Champagne unites the different strands of Peterson's thinking in a handy summary. Champagne then spends the remaining third of the book articulating his main critical concerns. He argues that while building on tradition is inevitable and indeed desirable, Peterson's individualist project is hindered by the non-revisable character and self-sacrificial content of religious belief. This engaging multidisciplinary study is ideal for those who know little about Peterson's views, or for those who are familiar but want to see more clearly how Peterson's views hang together. The debates spearheaded by Peterson are in full swing, so Myth, Meaning, and Antifragile Individualism should become a reference point for any serious engagement with Peterson's ideas.

The Quran, literally meaning "the recitation," also romanised (Koran) is the central religious text of Islam, which Muslims believe to be a revelation from God (Arabic: Allah). It is widely regarded as the finest piece of literature in the Arabic language. Muslims consider the Quran to be the only book that has been protected by God from distortion or corruption. Quranic chapters are called suras and verses are called ayahs. Muslims believe that

the Quran was verbally revealed from God to Muhammad through the angel Gabriel (Jibril), gradually over a period of approximately 23 years, beginning on 22 December 609 CE, when Muhammad (Peace be upon Him) was 40, and concluding in 632 CE, the year of his death. Shortly after Muhammad's death, the Quran was collected by his companions using written Quranic materials and everything that had been memorized of the Quran. Muslims regard the Quran as the most important miracle of Muhammad, the proof of his prophet hood and the culmination of a series of divine messages that started with the messages revealed to Adam and ended with Muhammad. The Quran assumes familiarity with major narratives recounted in the Jewish and Christian scriptures. It summarizes some, dwells at length on others and, in some cases, presents alternative accounts and interpretations of events. The Quran describes itself as a book of guidance. It sometimes offers detailed accounts of specific historical events, and it often emphasizes the moral significance of an event over its narrative sequence. The Quran is used along with the hadith to interpret sharia law. During prayers, the Quran is recited only in Arabic. Someone who has memorized the entire Quran is called a hafiz. Some Muslims read Quranic ayahs (verses) with elocution, which is often called tajweed. During the month of Ramadan, Muslims typically complete the recitation of the whole Quran during tarawih prayers. Inimitability of the Quran (or "I'jaz") is the belief that no human speech can match the Quran in its content and form. The Quran is considered an inimitable miracle by Muslims, effective until the Day of Resurrection-and, thereby, the central proof granted to Muhammad in authentication of his prophetic status. The concept of inimitability originates in the Quran where in five different verses challenges opponents to produce something like the Quran: "If men and sprites banded together to produce the like of this Quran they would never produce its like not though they backed one another" (17:88). So the suggestion is that if there are doubts concerning the divine

authorship of the Quran come forward and create something like it. From the ninth century, numerous works appeared which studied the Quran and examined its style and content. Medieval Muslim scholars including al-Jurjani (d. 1078CE) and al-Baqillani (d. 1013CE) have written treatises on the subject, discussed its various aspects, and used linguistic approaches to study the Quran. Others argue that the Quran contains noble ideas, has inner meanings, maintained its freshness through the ages and has caused great transformations in individual level and in the history. Some scholars state that the Quran contains scientific information that agrees with modern science. The doctrine of miraculousness of the Quran is further emphasized by Muhammad's illiteracy since the unlettered prophet could not have been suspected of composing the Quran.
