 Lydia,

Christopher and Natalie are used to domestic turmoil. Their parents' divorce has not made family life any easier in either home. The children bounce to and fro between their volatile mother, Miranda, and Daniel, their out-of-work actor father. Then Miranda advertises for a cleaning lady who will supervise the children after school - and Daniel gets the job, disguised as Madame Doubtfire. This

is a bittersweet, touching and extremely funny book.

 * A TIMES BEST SCIENCE BOOK OF THE YEAR * From the prize-winning author of Adventures in the Anthropocene, the astonishing story of how culture enabled us to become the most successful species on Earth 'A wondrous,

visionary work' Tim Flannery, author of *The Weather Makers*. Humans are a planet-altering force. Gaia Vince argues that our unique ability - compared with other species - to determine the course of our own destiny rests on a special relationship between our genes, environment and culture going back into deep time. It is our collective culture, rather than our individual

intelligence, that makes humans unique. Vince shows how four evolutionary drivers - Fire, Language, Beauty and Time - are further transforming our species into a transcendent superorganism: a hyper-cooperative mass of humanity that she calls *Homo omnis*. Drawing on leading-edge advances in population genetics, archaeology, palaeontology and neuroscience,

Transcendence compels us to reimagine ourselves, showing us to be on the brink of something grander - and potentially more destructive. 'Richly informed by the latest research, Gaia Vince's colourful survey fizzles like a zip-wire as it tours our species' story from the Big Bang to the coming age of hypercooperation' Richard Wrangham, author of *The Goodness Paradox*. <p>sistematizate de lucrări analitice pe tema crizei actuale, această carte vine la un moment cât se poate de oportun și este de înaltă valoare. Deși autorii cărții sunt cu toții profesioniști cu foarte multă experiență, fiecare în domeniul său, cred că este o dovadă de curaj să scrii atât de cuprinzător pe o temă care este încă, în mare măsură, o „știntă mișcătoare”. De aceea, inițiativa este</p>	<p>cu atât mai valoroasă cu cât oferă decidenților diferite unghiuri de abordare, avertizări timpurii și recomandări de acțiune politică. (...) autorii acestei admirabile cărți, care își pun întrebări, elaborează strategii, caută soluții, formulează ipoteze și au, rareori, certitudini. (...) Dar, fiind de acord că lumea de după pandemie nu va mai fi – cel puțin pentru o vreme – aceeași cu cea dinainte, cred că avem, ca intelectuali, o mare responsabilitate: să nu permitem ca schimbările să altereze lumea, s-o împingă spre criză perpetuă

și suferință, ci să lucrăm cu toții ca să fie o lume mai bună.” – Ioan Aurel Pop

 Jevick, the pepper merchant's son, has been raised on stories of Olondria, a distant land where books are as common as they are rare in his home.

When his father dies and Jevick takes his place on the yearly selling trip to Olondria, Jevick's life is as close to perfect as he can imagine. But just as he revels in Olondria's Rabelaisian Feast of Birds, he is pulled drastically off course and becomes haunted by the ghost of an illiterate young girl. In desperation, Jevick seeks the aid of Olondrian priests and quickly becomes a

pawn in the struggle between the empire's two most powerful cults. Yet even as the country shimmers on the cusp of war, he must face his ghost and learn her story before he has any chance of becoming free by setting her free: an ordeal that challenges his understanding of art and life, home and exile, and the limits of that seductive necromancy, reading. A Stranger in Olondria is a skillful and immersive

middle-school life, with its shifting allegiances, squeals, moans and misgivings.”—Washington Post “As with this story’s predecessor, the well-observed middle-school dynamics (and Angleberger’s sharp sense of humor) are greatly amplified by the book’s design, which includes faux wrinkled pages, abundant doodles, and other scrawled marginalia. It’s a natural step up from the Wimpy Kid

Some kids sculpt sandcastles.

Some make mud pies. Some construct great block towers. But none are better at building than Iggy Peck, who once erected a life-size replica of the Great Sphinx on his front lawn! It’s too bad that few people appreciate Iggy’s talent—certainly not his second-grade teacher, Miss Lila Greer. It looks as if Iggy will have to trade in his T-square for a box of crayons . . . until a fateful field

trip proves just how useful a master builder can be. A story told in verse, this is a book that shows the power of education and science. Iggy Peck is a child who once “built a great tower—in only an hour—with nothing but diapers and glue.” The structured rhymes and lively illustrations fit the architectural theme, and the text uses absorbing details of Iggy’s world to bring the tale

to life. Each of Iggy's classmates has their own unique quality, implying the variety of personalities and potentials to be appreciated in any group of children. Young readers will love their time spent with Iggy Peck. They'll love the story, colorful illustrations, and also learn about the passion and practicality of science (STEM). One morning in June 1941, a quiet village in Central Lithuania is shaken out of its slumber by the sudden arrival of the Soviet Army. Eight-year-old Algiukas awakes to the sound of Russian soldiers

pounding on the door. His family are given ten minutes to pack up their things. They are not told where they're going or for how long. An airless freight train carries them from the fertile lands of rural Lithuania to the snowy plains of the Siberian taiga. There, in the distant, dismal North, they begin a life marked by endless hunger and unrelenting cold. And yet the darkness of exile is lightened, for Algiukas, by

flights of imagination. This curious, brave and adaptable child transforms hardship into adventure. Drawing on her father's exile in Siberia, writer Jurga Vile brings to light a neglected, even suppressed, episode from the history of the Soviet Union. Beautifully drawn by Lina Itagaki, Siberian Haikuuses the child's perspective to tell an unforgettable story of

courage and human endurance.
