In the Shadow of Slavery State University of New York Press

The SS grew out of Adolf Hitler's and Heinrich Himmler's obsession to prevent the treachery they believed to have caused the German defeat in the First World War. It was to be an elite corps of politically aware soldiers whose primary aim was to prevent the undermining of the Nazi Party by rendering its potential enemies "harmless." This disturbing story reveals not only the inner workings of the SS, but also its paramount role in the mass murder of Europe's Jews, homosexuals, and gypsies; its organization of the death squads throughout occupied Europe; and

the military campaigns undertaken by the Waffen SS.

With the birth of a serial press in the seventeenth century, the introduction of paid advertising was the most crucial step in pointing the newspaper industry towards a sustainable future. Here, as in so much else, the laboratory of invention was the seventeenth-century Dutch Republic. In this study, based on an exhaustive examination of the first six thousand advertisements placed in Dutch newspapers between 1620 and 1675, Arthur der Weduwen and Andrew Pettegree chart the growth of advertising from an adjunct to the book industry, advertising newly published titles, to a broad reflection of a burgeoning consumer society. Businesses and private citizens

used the newspapers to offer a wide range of goods and services, publicise new inventions, or appeal for help in recovering lost and stolen goods, pets or children. In these evocative, colourful and sometimes deeply moving notices, we see the beginnings of marketing strategies that would characterise the advertising world over the following centuries, and into the modern era.

Years before he wrote *The Wind in the Willows*, Kenneth Grahame published a very different sort of book: *Pagan Papers*, a wry, witty, wide-ranging collection of eighteen irresistible essays. Strolling, loafing, smoking, collecting books and pondering, the author muses on the human condition. What to do about relatives who are in the way? What is the proper punishment for a bookbinder who takes too long at his job? Are free libraries an unmixed blessing? More seriously: Can nothing make it worth our while not to quarrel with our fellows? Which is more desirable: memory or forgetfulness? Are we irrevocably cut off from the natural world, or might there still be a way back to it?

A new edition of a classic work revealing the little-known history of African Americans in New York City before Emancipation. The popular understanding of the history of slavery in America almost entirely ignores the institution's extensive reach in the North. But the cities of the North were built by—and became the home of—tens of thousands of enslaved African Americans, many of whom would continue to live there as free people after Emancipation. In the *Shadow of Slavery* reveals the history of African Americans in the nation's largest metropolis, New York City. Leslie M. Harris draws on travel accounts, autobiographies, newspapers, literature, and organizational records to extend prior studies of racial discrimination. She traces the undeniable impact of African Americans on class distinctions, politics, and community formation by offering vivid portraits of the lives and aspirations of countless black New Yorkers. This new edition includes an afterword by the author addressing subsequent research and the ongoing arguments over how slavery and its legacy should be taught, memorialized, and acknowledged by governments.
