The humid highlands in sub-Saharan Africa (SSA) are characterized by high population densities and require intensification. The Consortium for Improving Agriculture-based Livelihoods in Central Africa (CIALCA) has set up a research for development platform in various mandate areas in DR Congo, Burundi, and Rwanda, aiming to identify improved production, market, and nutrition options and facilitating the access for development partners to these options. This platform is supported by capacity building, multi-stakeholder dialogue, and monitoring and evaluation efforts. The conference, facilitated by CIALCA, aimed to (i) take stock of the state-of-the-art in agricultural intensification in the highlands of SSA and (ii) chart the way forward for agricultural research for development in the humid highlands of SSA, and more specifically in the recently launched Humidtropics Consortium Research Programme, through keynote, oral and poster presentations, and strategic panel discussions.

constraints', which serve to block the association of antecedent to gap under specific syntactic conditions. Of the restrictions identified by Ross and others, the ones we will discuss here are the Complex NP Constraint, exemplified with a relative clause in (3b) and with a nominal complement in (4a), the Subject and wh Island Conditions (Chomsky, 1973) in (4b, c) respectively, and the Adjunct Island Condition (see Huang, 1982's Condition on Extraction Domain), illustrated in (4d, e). (4) (a) \*John, Mary made the claim that Sally plans to recommend\_ for ajob. John, Mary claimed that Sally plans to recommend\_ for a job. As for John, Mary heard the rumor that Sally intends to marry him. (b) \*John, an article about \_just appeared in the newspaper. As for John, an article about him just appeared in the news paper. (c) \*Bill, I wonder who likes\_. As for Bill, I wonder who likes him. (d) \*The heat, we left early because of \_ . As for the heat, we left early because of it. (e) \*The money, I lied so that I could keep\_ . As for the money, I lied so that I could keep it.

Modern Methods in Analytical Acoustics considers topics fundamental to the understanding of noise, vibration and fluid mechanisms. The series of lectures on which this material is based began by some twenty five years ago and has been developed and expanded ever since. Acknowledged experts in the field have given this course many times in Europe and the USA. Although the scope of the course has widened considerably, the primary aim of teaching analytical techniques of acoustics alongside specific areas of wave motion and unsteady fluid mechanisms remains. The distinguished authors of this volume are drawn from Departments of Acoustics, Engineering of Applied Mathematics in Berlin, Cambridge and London.

Their intention is to reach a wider audience of all those concerned with acoustic analysis than has been able to attend the course.
