Newly revised and updated, *Mexicanos* tells the rich and vibrant story of Mexicans in the United States. Emerging from the ruins of Aztec civilization and from centuries of Spanish contact with

indigenous people, Mexican culture followed the Spanish colonial frontier northward and put its distinctive mark on what became the southwestern United States. Shaped by their Indian and Spanish ancestors, deeply influenced by Catholicism, and tempered by an often difficult existence, Mexicans continue to play an important role in U.S. society, even as the dominant Anglo culture strives to assimilate them. Thorough and balanced, *Mexicanos* makes a valuable contribution to the understanding of the Mexican population of the United States—a growing minority who are a vital presence in 21st-century America.

From Jeanne Kalogridis, the bestselling author of *The Borgia Bride* and *The Scarlet Contessa*, comes a tale of love, loss and treachery set during the perilous days of the Spanish Inquisition 1481 Seville: The Inquisition makes its first appearance in Spain. Its target: conversos, Christians of Jewish descent—specifically those who practice Judaism secretly in their homes. The penalty for "crypto-Judaism": Burning at the stake. Marisol Garcia, a young conversa, is hurriedly wed to Gabriel, a civil lawyer working for the Inquisition, in hopes that he will protect her. But she still yearns for the childhood love who abandoned her four years earlier, and she's shocked when he reappears suddenly at

her wedding. When her father is arrested and tortured, Marisol finds herself caught between her love for him and her desire to save the lives of her people. After becoming a favorite of the ruthless Queen Isabella, Marisol discovers a dangerous secret about her former lover, Antonio, and finds herself trapped in a life-threatening web of intrigue. As the Inquisition's snares tighten around her, Marisol's love for Antonio and loyalty to her Jewish family is tested as never before... *The Inquisitor's Wife* reveals the real motivation behind the Inquisition, a frank glance at a "saintly" queen, and the struggles of a maligned people against crushing forces.

*Tahiti Nui* is an account of the survival of a Polynesian society in the face of successive settlements of missionaries, traders, and administrators. Beginning with the first explorers and Captain Cook's scientific observations at Point Venus, Dr. Newbury has separated the various strands interwoven in the fabric of Tahitian society, tracing their development and showing how they interacted at successive stages. Missionaries and foreign traders, administrators and Polynesians, planters and immigrant Chinese have all contributed to the distinctive flavor of French Polynesia, with Tahiti and Tahitians becoming increasingly dominant, not just as the focus of the French administration in Pape'ete, but in the social networks and trading patterns that have evolved.

Fisheries are among the most globalized economic sectors in the world. Relying largely on wild resources and employing millions of people and feeding many millions more, fisheries provide a unique vantage point from which to view contemporary globalization, which is co-occurring with a major ecological revolution triggered by resource degradation and associated with the development of intensive aquaculture. Globalization is intensifying the export orientation and use of joint ventures between rich and poor countries in fisheries. International organizations such as the IMF are pressuring many debtor countries to exchange access to their fishery resources for access to foreign exchange, constraining their ability to limit external ownership and the export of resources, and threatening local fishery employment and food self-sufficiency. Changing Tides brings together contributions from researchers and community workers from 13 countries of the world. Juxtaposing academic case studies with accounts from activists and fisheries workers, this book points the ways in which globalization and associated resource degradation, privatization and the concentration of ownership and control in fisheries are jeopardizing the lives and livelihoods of women fish workers and their families.

"A fictionalized biography of Doña Gracia Nasi, a powerful woman of sixteenth-century Europe, who used her wealth to provide new

lives for Jews who had been expelled from Spain and conversos escaping from that country. She became the head of a commercial empire and the greatest philanthropist of the sixteenth century"--

Combining traditional documentary research with new analytical strategies, Robert J. Ferry creates a rich, three-dimensional picture of early Caracas. His reconstitution and interpretation of important genealogical histories provide a model for historical studies of Latin American and other societies. Ferry's work partially eclipses previously accepted ideas about colonial Caracas. He shows how the society was dominated by a commercial-agricultural elite and demonstrates that women were responsible for arranging marriages and maintaining family lineages, that marriages among first cousins were very common, and that elite residence was matrifocal. The Colonial Elite of Early Caracas focuses on the salient features of the society and economy: agriculture, commerce, and labor. The first section treats the seventeenth-century transition from Indian encomienda labor to African slave labor. The society created by slavery and the cacao trade in the eighteenth century is the main subject of the second section of the book. Throughout, Ferry leads the reader to a deeper understanding of the elite planters of Caracas, who were wheat farmers in the seventeenth century and cacao hacienda owners in the eighteenth. Ferry also explores how some families succeeded in retaining wealth and local authority from one generation to the next. That success is momentarily halted in the 1730s and 1740s, and the revolt of Juan Francisco de León in 1749 is viewed as a crisis of both the

colony's elite and the smallholder, immigrant class to which León himself belonged. The response to León's rebellion represents a major effort on the part of the Spanish crown to restructure royal authority in the colony, arguably the first of the Bourbon reforms in the American colonies. "The book contains innovative studies on a wide range of subjects, including chronology, the origins of the Septuagint, the antiquity of the Hebrew language, and the nature of biblical poetry. De' Rossi lends unprecedented attention to the evidence of Josephus while his critique of Philo of Alexandria was the first attempt to assess the Jewish status of this Hellenistic philosopher.

"In the nineteenth century a new type of mystic emerged in Catholic Europe. While cases of stigmatisation had been reported since the thirteenth century, this era witnessed the development of the 'stigmatic': young women who attracted widespread interest thanks to the appearance of physical stigmata. To understand the popularity of these stigmatics we need to regard them as the 'saints' and religious 'celebrities' of their time. With their 'miraculous' bodies, they fit contemporary popular ideas (if not necessarily those of the Church) of what sanctity was. As

knowledge about them spread via modern media and their fame became marketable, they developed into religious 'celebrities'"--

The lack of recognition of Romani gender politics in the wider Romani movement and the women's movements is accompanied by a scarcity of academic literature on Romani women's mobilization in wider social justice struggles and debates. The Romani Women's Movement highlights the role that Romani women's politics plays in shaping equality related discourses, policies, and movements in Central, Eastern and South-Eastern Europe. Presenting the diverse experiences and voices of Romani women activists, this volume reveals how they translate experiences of structural inequalities into political struggles by defining their own spaces of action; participating in formalized or less formal activist practices, and challenging the agendas and mechanisms of the established Romani and women's movements. Moving discourses on and of Romani women from the periphery of scholarly exchanges to the mainstream, the volume invites scholars and activists from different disciplines and movements to critically reflect on their engagements with particular social justice agendas. It will appeal to students, researchers and practitioners interested in fields such as social movements, gender equality, and social and ethnic justice.

Questa è la storia di una donna capace di costruire un impero finanziario e di diventare una delle più ricche d'Europa. Una donna spregiudicata e generosa, dalla vita avventurosa che la portò, tra fughe e inganni, da Lisbona ad Anversa, da Venezia a Ferrara, fino a Istanbul. Questa è la storia di Gracia Nasi, alias Beatriz de Luna, alias la señora. Nell'Europa del Cinquecento è esistita una donna che ha attraversato tutto il continente, perennemente in fuga. Una donna che ovunque sia stata, da

Lisbona ad Anversa, da Venezia a Ferrara, passando per Lione, ha costruito relazioni, ha lasciato il segno per le sue incredibili capacità commerciali e finanziarie. Una donna che è appartenuta a una delle minoranze più perseguitate della storia, quella degli ebrei spagnoli convertiti forzatamente al cattolicesimo - i marrani - e ha saputo fare di questa identità marginalizzata una forza. Gracia Nasi, questo era il suo nome, si è trovata a 26 anni, vedova e con una figlia ancora piccola, a gestire i capitali della propria famiglia e a diventare in breve una delle donne più ricche del suo tempo. In ognuna delle città dove ha abitato si è svolta una storia avvincente: rapimenti, prestiti di portata colossale, fughe improvvise, intrecci di dispacci per guadagnare accoglienza, mediazioni, doni generosi, straordinarie iniziative editoriali, roghi e boicottaggi di reazione. Ogni tappa è per noi il modo di aprire una finestra sul suo tempo. Scorre sotto i nostri occhi un campionario di comportamenti spesso cangianti, contraddittori e generatori di insicurezza dove il denaro aveva una parte importante: serviva a patteggiare la salvezza ma anche a condizionare le politiche dei diversi potentati. Denaro che Gracia, spregiudicata e generosa, aveva in abbondanza e sapeva maneggiare ma che fu anche occasione di lunghi e profondi dissidi interni alla famiglia. Insomma sacrifici, rischi e viaggi lunghi, pericolosi, estenuanti, fino alla meta finale, Istanbul. Là finiscono le avventure e la vita di Gracia, in un paese che fu capace di capire la convenienza dell'accoglienza.

From the New York Times bestselling author of *Little Brother*, Cory Doctorow, comes *Pirate Cinema*, a new tale of a brilliant hacker runaway who finds himself standing up to tyranny. Trent

McCauley is sixteen, brilliant, and obsessed with one thing: making movies on his computer by reassembling footage from popular films he downloads from the net. In the dystopian near-future Britain where Trent is growing up, this is more illegal than ever; the punishment for being caught three times is that your entire household's access to the internet is cut off for a year, with no appeal. Trent's too clever for that too happen. Except it does, and it nearly destroys his family. Shamed and shattered, Trent runs away to London, where he slowly learns the ways of staying alive on the streets. This brings him in touch with a demimonde of artists and activists who are trying to fight a new bill that will criminalize even more harmless internet creativity, making felons of millions of British citizens at a stroke. Things look bad. Parliament is in power of a few wealthy media conglomerates. But the powers-that-be haven't entirely reckoned with the power of a gripping movie to change people's minds.... #### Empire of Eloquence Numen Book

'We are all Zapatistas.' Subcomandante Marcos This book began in 1994, when Zapatista Subcomandante Marcos replied to a 10-year-old girl from Mexico City who had sent him a drawing. The ensuing collection of related tales about the warrior-beetle, narrated by his pipe-smoking, black-ski-masked human squire is an extraordinary account for the general reader of current global political struggle. Marcos created a humorous fictitious character, Don Durito, a beetle with Quixotic fantasies which regards Marcos

as his Sancho Panza. In this book, Marcos creates a new political genre, so-called "postdata": ironical commentaries which he affixes to his formal communiqués or declarations. In one of them he even offers to perform a striptease for government negotiators. 'We are the product of 500 years of struggle...They [Mexican government] don't care that we have nothing, absolutely nothing, not even a roof over our heads; no land, no work, no health care, no food, no education... nor is there peace nor justice for ourselves and our children. But today, we say ENOUGH IS ENOUGH!' First EZLN declaration of war, December 31st 1993 The Zapatistas are not Marxist, Rightists, or Anarchists. They seek not to replace one infrastructure of power with another, thus rejecting the normal goal of an armed struggle. They are armed but do not use violence as a tool to expand their aims. Although a localized rebellion, the Zapatistas are unified in a worldwide struggle that transcends the mainstream media's limited perspective through eloquent dictations distributed globally via the Internet. With a fresh perspective and tactics that have never been seen in relation to an armed insurrection, the EZLN (Zapatista National Liberation Army) has changed the definition of what revolution means. From the marginalized confines of the poorest region in Mexico, a new concept of revolutionary change with a new solution to societies woes is currently being proposed.
