KADENCE MCMAHON

A Short History of Progress Dearborn Trade Publishing

Textile has been used as a medium of communication since the prehistoric period. Up until the 19th century, civilizations throughout the world manipulated thread and fabric to communicate in a way that would astound many of us now. Unlike text and images, textile is haptic and three-dimensional. Its meaning is unfixed, constantly shifting as it circulates between different owners and creators. In *How Textile Communicates*, Ganaele Langlois dissects textile's unique capacity for communication through a range of global case studies, before examining the profound impact of colonialism on textile practice and the appropriation of this medium by capitalist systems. A thought-provoking contribution to the fields of both fashion and communication studies, Langlois' writing challenges readers' preconceptions and shines new light on the profound impact of textiles on human communication.

The mass of available data about World War II has never been as large as it is now, yet it has become increasingly complicated to interpret it in a meaningful way. Packed with cleverly designed graphics, charts and diagrams, *World War II: Infographics* offers a new approach by

telling the story of the conflict visually. Encompassing the conflict from its roots to its aftermath, more than 50 themes are treated in great detail, ranging from the rise of the Far Right in pre-war Europe and mass mobilization, to evolving military tactics and technology and the financial and human cost of the conflict. Throughout, the shifting balance of power between the Axis and the Allies and the global nature of the war and its devastation are made strikingly clear.

In Spanish Books in the Europe of the Enlightenment (Paris and London) Nicolás Bas examines the image of Spain in eighteenth-century Europe, and in Paris and London in particular. His material has been scoured from an exhaustive interrogation of the records of the book trade. He refers to booksellers' catalogues, private collections, auctions, and other sources of information in order to reconstruct the country's cultural image. Rarely have these sources been searched for Spanish books, and never have they been as exhaustively exploited as they are in Bas' book. Both England and France were conversant with some very negative ideas about Spain. The Black Legend, dating back to the sixteenth century, condemned Spain as repressive and priest-ridden. Bas shows however, that an alternative, more sympathetic, vision ran parallel with these negative views. His bibliographical approach brings to light the Spanish books that were bought, sold and ultimately read. The impression thus obtained is likely to help us understand not only Spain's past, but also something of its present.

Written by Europe's first professional woman writer, The Treasure of the City of Ladies offers advice and guidance to women of all ages and from all levels of medieval society, from royal courtiers to prostitutes. It paints an intricate picture of daily life in the courts and streets of fifteenth-century France and gives a fascinating glimpse into the practical considerations of running a household, dressing appropriately and maintaining a reputation in all circumstances. Christine de Pizan's book provides a valuable counterbalance to male accounts of life in the middle ages and demonstrates, often with dry humour, how a woman's position in society could be made less precarious by following the correct etiquette.

Les Nuits de Paris; Or, The Nocturnal Spectator BRILL

Each time history repeats itself, so it's said, the price goes up. The twentieth century was a time of runaway growth in human population, consumption, and technology, placing a colossal load on all natural systems, especially earth, air, and water — the very elements of life. The most urgent questions of the twenty-first century are: where will this growth lead? can it be consolidated or sustained? and what kind of world is our present bequeathing to our future? In his #1 bestseller *A Short History of Progress* Ronald Wright argues that our modern predicament is as old as civilization, a 10,000-year experiment we have participated in but seldom controlled. Only by understanding the patterns of triumph and disaster that humanity has repeated around the world

since the Stone Age can we recognize the experiment's inherent dangers, and, with luck and wisdom, shape its outcome.

In any event, if there is any division between a Muslim and a Christian on the grounds of dogma, belief, ethics or morality, then the cause of such conflict could be traced to an utterance of Paul found in his books of Corinthians, Phillipians, Galatians, Thessalonians, etc., in the Bible. As against the teaching of the Master (Jesus) that salvation only comes through keeping of the commandments (Mathew 19:16-17), Paul nails the law and the commandments to the cross (Colossians 2:14) and claims that salvation can only be obtained through the death and resurrection of Jesus Christ: "If Christ be not risen from the dead, then our preaching is vain, and your faith is also vain." (1 Corinthians 15:14)

Earth From Above Persea Books

This exquisite novel tells the story of one of the most compelling heroines in modern literature-- Emma Bovary. "Madame Bovary has a perfection that not only stamps it, but that makes it stand almost alone; it holds itself with such a supreme unapproachable assurance as both excites and defies judgement." - Henry James Unhappily married to a devoted, clumsy provincial doctor, Emma revolts against the ordinariness of her life by pursuing voluptuous dreams of ecstasy and love. But her sensuous and sentimental desires lead her only to suffering corruption and downfall. A brilliant psychological portrait, Madame Bovary searingly depicts the human mind in search of transcendence. Who is Madame Bovary? Flaubert's answer to this question was superb: "Madame Bovary, c'est moi." Acclaimed as a masterpiece upon its publication in 1857, the work catapulted Flaubert to the ranks of the world's greatest novelists. This volume, with its fine translation by Lowell Bair, a perceptive introduction by Leo Bersani, and a complete supplement of essays and critical comments, is the indispensable Madame Bovary.

The textile works of Annemieke Mein display a rare standard of artistry. She has explored beyond the bounds of craft and developed new techniques in her use of textiles and fabric paints. The illustrations in this book show how textiles can be used as an exciting sculptural medium. The artist's three-dimensional creations are works of extraordinary skill, born out of a passionate commitment to the environment that she observes with a loving eye. These fabrics are then meticulously painted and stitched to faithfully reproduce her chosen subjects and to enhance the tactile quality unique to textiles. Numerous techniques are used in limitless combinations: hand and machine embroidery, dyeing, applique, trapunto, quilting, pleating, felting, beading, weaving and plying.
