The annual budgeting process is a trap. Pressured by fixed targets and performance incentives,

managers focus on making the numbers instead of making a difference, meeting set goals instead of maximizing potential. With their compensation at stake, managers often resort to deceitful-even unethical-behavior. In the end, everybody loses-the employee, the company, and ultimately the customer. Now, finance experts Jeremy Hope and Robin Fraser reveal the results of

an intensive study aimed at fixing the broken budgeting process. They argue that companies must abandon traditional budgeting contracts in favor of a radical new model that links performance measurement to evolving competitive benchmarks-and shifts the firm's focus from controlling employee behavior to delivering customer value. The Beyond Budgeting

model is built on the best practices of companies that have successfully revised their centralized planning and budgeting processes. It combines a leadership vision that devolves more authority to operating managers and a finance vision that enables fast decision making through appropriate tools and accessible information. Through vivid examples, Hope and Fraser

illustrate how companies can implement these shared visions-and the long-term benefits that accrue from embracing them. Offering a compelling case for breaking free from the budgeting trap, this book paves the way toward making organizations better places to work for, invest in, and do business with. Constructivism : origins and evolution ABRAMS Publisher description

Dictatorship in the Nineteenth Century

Oxford University Press
Auf der Schwelle zwischen Historismus und Moderne. Eine Kirche als Spiegel gesellschaftlicher, lokaler, architektureller, liturgischer und kunstgeschichtlicher Strömungen der Zeit. *Modern Art in Your Life* Harvard Business Press
Shortly before November 1636, Rubens received the

commission from Philip IV of Spain to supply more than sixty paintings with mythological subjects for his new hunting lodge, the Torre de la Parada. In about one and a half years, the enormous task was completed. The pictures had been painted partly by Rubens himself, partly from his designs by a number of collaborators, among them Cornelis de Vos, Jacob Jordaens, Theodoor van Thulden and

Erasmus Quellinus. Today, forty of these paintings, more than fifty of Rubens's brilliant sketches and a few preparatory drawings survive. Together with three never previously published eighteenth-century inventories of the Torre de La Parada, they have provided the material for the new analysis of the series. Glas - Malerei - Forschung Penn State

University Press The exhibitions pay tribute to an artist who left a telling mark on the German art scene in the 1980s. From 1981 onward Gerdes (1952-2008) developed a highly complex and wide-ranging body of work which, after some twenty years, is being shown once again in a one-man museum presentation? his first retrospective? and re-examined from the

present perspective. With paintings, installations, written pieces and also photographs and interventions in public space, Ludger Gerdes created (thought) models that trigger public dialogues. The accompanying publication gives a representative overview of the artist's output, presents central aspects of his mental edifice and documents and discusses the Ludger Gerdes's oeuvre in all its salient features. Exhibition: Kunstmuseen Krefeld, Germany (25.09.2016-22.01.2017) / Kunsthalle zu Kiel, Germany (10.02-30.04.2017). *Art Aurea* Harvey Miller Bde. 16, 18, 21, and 28 each contain section "Verlagsveränderungen im deutschen Buchhandel." Contemporary Glass Bethany House "This book represents the first comprehensive attempt to reconstruct from archaeological, liturgical, and historical sources the ceremonial use of Early Byzantine architecture"-- Jacket. *New Glass* BoD – Books on Demand Historical research on modern dictatorship has often neglected the relevance of the nineteenth century, instead focusing on twentieth-century dictatorial rules. Dictatorship in

the Nineteenth Century brings together scholars of political thought, the history of ideas and gender studies in order to address this oversight. Political dictatorship is often assumed to be a twentieth-century phenomenon, but the notion gained currency during the French Revolution. The Napoleonic experience underscored this trend,

which was later maintained during the wars of independence in Latin America. Starting from the assumption that dictatorship has its own history within the nineteenth century, separate from the ancient Roman paradigm and twentieth-century totalitarianism, this volume aims at establishing a dialogue between the concepts of dictatorship and the

experiences and transfer of knowledge between Latin America and Europe during this period. This book is essential reading for scholars and students of modern history, as well as those interested in political history and the history of dictatorship.

The church of St Moritz has been through many changes since its foundation nearly a thousand years ago. Devastating fires, changes in liturgical practice, aesthetic evolution and wartime bombing have each left their mark on the fabric of the building. The purpose of this latest intervention has been to re-tune the existing architecture, from

aesthetic, functional and liturgical perspectives, with considerations of sacred atmosphere always at the heart of the project. The work involved the meticulous paring away of selected elements of the church's complex fabric and the relocation of certain artefacts, to achieve a clearer visual field. Drawing on existing forms and elements of vocabulary, an architectural language has evolved that is

recognisable in subtle ways as something new, yet has no jarring foreign elements. Broken Glass Anfang des 20. Jahrhunderts entdeckte die Avantgarde Glas als Material und untersuchte dessen utopisches Potenzial. Berühmt sind Glaskunstwerke wie Bruno Tauts Beitrag zur Werkbundmesse 1914 oder die Gründung der "Gläsernen Kette" 1919. Transparent, flüchtig, sakral
