The first is to embed figures in the text after each is first mentioned (or "called out"); the second is to place each figure on a separate page after the reference list. An embedded figure may take up an entire page; if the figure is short, however, text may appear on the same page as the figure. Figure Setup - APA Style The Embedded Figures Test (EFT) was designed by Witkin in 1971 to assess his concept of "field dependence - independence" (e.g., Witkin & Goodenough, 1981). Good performance on the EFT was taken as a marker of field independence, the ability to disembed information from context or surrounding gestalt. The test requires the participant to spot a simple form within a more complex figure; the color and form of the latter create a gestalt within which the part is hidden (see Fig. 1). Page Count: 129 Manual - Group Embedded Figures Test Background The Embedded Figures Test (EFT, developed by Witkin and colleagues (1971)) has been used extensively in research on individual differences, particularly in the study of autism spectrum disorder. The EFT was originally conceptualized as a measure of field (in)dependence, but in recent years performance on the EFT has been interpreted as a measure of local versus global perceptual style. Developing the Leuven Embedded Figures Test (L-EFT ... The Group Embedded Figures Test (GEFT) is a timed psychological assessment consisting of 18 items pertaining to field dependence and field independence. The GEFT was constructed by Herman A Witkin, Philip K. Oltman, Evelyn Raskin, and Stephen A. Karp with the goal to provide an adaptation of the Embedded Figures Test (EFT)

for group testing. Group Embedded Figures Test - Wikipedia
 In embedded figures testing, the Embedded Figures Test (EFT) is an individually administered test which was developed to assess field dependence and field independence. Testees are required to find the simple figure (s) embedded or hidden in a relatively complex figure. Field-independent people can get rid of the influence of the background image and find out the hidden figure, while field-dependent people will find it hard to finish the task.
