Too Many Pumpkins RAND Corporation
Mo Willems, #1 New York Times best-selling creator and three-time Caldecott Honoree, presents the 20th anniversary edition of the book that started it

all: Don't Let the Pigeon Drive the Bus!, now featuring an exclusive board game! Finally, a book you can say "no" to! When the Bus Driver takes a break from his route, a very unlikely volunteer springs up to take his place—a pigeon! But you've never met a pigeon like this one

before. As the Pigeon pleads, wheedles, and begs his way through the book, readers answer back and decide his fate. Mo Willems' hilarious picture book was awarded a 2004 Caldecott Honor and has been inducted into the Picture Book Hall of Fame. Now, twenty years later, readers can

amp up the fun in an all-new board game featuring the Pigeon! Players drive their bus pieces around town. The first player to get to the Bus Depot wins, but remember—don't let the Pigeon drive the bus! Say “No!” to all the Pigeon books! The Pigeon Finds a Hot Dog! Don't Let the Pigeon Stay Up Late! The Pigeon Wants a Puppy! The Duckling Gets a Cookie!? The Pigeon HAS to Go to School! For Mo' amazing books, check out these other great series: Knuffle Bunny Elephant & Piggie

 "The ground we walk on and grow crops in also just happens to be the

most widely used building material on the planet. Civilizations throughout time have used it to create stable warm low-impact structures. The world's first skyscrapers were built of mud brick. Paul Revere Chairman Mao and Ronald Reagan all lived in earth houses at various points in their lives and several of the buildings housing Donald Judd's priceless collection at the Chinati Foundation in Marfa Texas are made of mud brick." "While the vast legacy of traditional and vernacular earthen

construction has been widely discussed, little attention has been paid to the contemporary tradition of earth architecture. Author Ronald Rael founder of Eartharchitecture.org provides a history of building with earth in the modern era focusing particularly on projects constructed in the last few decades that use rammed earth mud brick compressed earth cob and several other interesting techniques. Earth Architecture presents a selection of

more than 40 projects that exemplify new creative uses of the oldest building material on the planet."--BOOK JACKET.

when that was all her family had to eat. When an enormous pumpkin falls off a truck and smashes in her yard, Rebecca Estelle devises a clever way to get rid of the unwanted crop that sprouts.

Escaping the Giant Wave Houghton Mifflin Harcourt

When an earthquake hits on their family vacation, can Kyle and his sister survive the following tsunami? The Worst Vacation Ever! Thirteen-year-old Kyle thought spending a vacation on the Oregon coast with his

family would be great. He'd never flown before, and he's never seen the Pacific Ocean. One evening Kyle is left in charge of his younger sister, BeeBee, while his parents attend an adults-only Salesman of the Year dinner on an elegant yacht. Then the earthquake comes—starting a fire in their hotel! As Kyle and BeeBee fight their way out through smoke and flame, Kyle remembers the sign at the beach that said after an earthquake everyone should go uphill

and inland, as far from the ocean as possible. Giant tsunami waves—three or four stories high—can ride in from the sea and engulf anyone who doesn't escape fast enough. Kyle and BeeBee flee uphill as a tsunami crashes over the beach, the hotel, and the town. The giant wave charges straight up the hillside and through the woods where the children are running for their lives. The perfect vacation has become a nightmare! Somehow Kyle and BeeBee have to outwit nature's fury and save

themselves from tsunami terror.

Award-winning artist Jon J Muth retells the favorite tale of a selfish community who is tricked into creating a delicious soup from stones. Set in China in Muth's hauntingly beautiful watercolors. Three strangers, hungry and tired, pass through a war-torn village. Embittered and suspicious from the war, the people hide their food and close

their windows tight. That is, until the clever strangers suggest making a soup from stones. Intrigued by the idea, everyone brings what they have until-- together, they have made a feast fit for a king! In this inspiring story about the strength people possess when they work together, Muth takes a simple, beloved tale and adds his own fresh twist. From the duo who created the classroom called "a charmed place" comes a patriotic primer for picture-book readers. Today at school we celebrated Presidents' Day by putting on a play. Mrs. Madoff said I could be George Washington

because his birthday is the same as mine. Charlie was Abraham Lincoln because he's the tallest kid in our class. Everyone else had very important parts to play, too. At the end of the day we voted for class president, and you'll never guess who won!

The inspirational story of George Washington Carver and his childhood secret garden is brought to life in this picture book biography by the author-illustrator team behind

Muhammad Ali: A Champion Is Born. When George Washington Carver was just a young child, he had a secret: a garden of his own. Here, he rolled dirt between his fingers to check if plants needed more rain or sun. He protected roots through harsh winters, so plants could be reborn in the spring. He trimmed flowers, spread soil, studied life cycles. And it was in this very place that George's love of nature sprouted into something so much more--his future. Gene Barretta's moving

words and Frank
Morrison's beautiful
paintings tell the inspiring
life and history of George
Washington Carver, from

a baby born into slavery
to celebrated botanist,
scientist, and inventor.
His passion and
determination are the
seeds to this lasting story

about triumph over
hardship--a tale that
begins in a secret garden.
