Things Are What You Make of Them National University of Singapore Press

When *Designing Your Life* was published in 2016, Stanford's Bill Burnett and Dave Evans taught readers how to use design thinking to build meaningful, fulfilling lives ("Life has questions. They have answers." -The New York Times). The book struck a chord, becoming an instant #1 New York Times bestseller. Now, in *DESIGNING YOUR WORK LIFE: How to Thrive and Change and Find Happiness at Work* they apply that transformative thinking to the place we spend more time than anywhere else: work. *DESIGNING YOUR WORK LIFE* teaches readers how to create the job they want—without necessarily leaving the job they already have. "Increasingly, it's up to workers to define their own happiness and success in this ever-moving landscape," they write, and chapter by chapter, they demonstrate how to build positive change, wherever you are in your career. Whether you want to stay in your job and make it a more meaningful

experience, or if you decide it's time to move on, Evans and Burnett show you how to visualize and build a work-life that is productive, engaged, meaningful, and more fun.

A Publishers Weekly Best Book of 2019 Why do we make things by hand? And why do we make them beautiful? Led by the question of why working with our hands remains vital and

valuable in the modern world, author and maker Melanie Falick went on a transformative, inspiring journey. Traveling across continents, she met quilters and potters, weavers and painters, metalsmiths, printmakers, woodworkers, and more, and uncovered truths that have been speaking to us for millennia yet feel urgently relevant today: We make in order to slow down. To connect with others. To express ideas and emotions, feel competent, create something tangible and long-lasting. And to feed the soul. In revealing stories and gorgeous original photographs, *Making a Life* captures all the joy of making and the power it has to give our lives authenticity and meaning.

A job is never just a job. It is always connected to a deep and invisible process of finding meaning in life through work. In Thomas Moore's groundbreaking book *Care of the Soul*, he wrote of "the great malady of the twentieth century...the loss of soul." That bestselling work taught readers ways to cultivate depth, genuineness, and soulfulness in their everyday lives, and became a beloved classic. Now, in *A Life's Work*, Moore turns to an aspect of our lives that looms large in our self-regard, an aspect by which we may even define ourselves—our work. The workplace, Moore knows, is a laboratory where matters of soul are worked out. *A Life's Work* is about finding the right job, yes, and it is also about uncovering and becoming the person you were meant to be. Moore reveals the quest to find a life's work in all its depth and mystery. All jobs, large and small, long-term and temporary, he writes, contribute to your life's work. A particular job may be important because of the emotional rewards it offers or for the money. But beneath the surface, your labors are shaping your destiny for better or worse. If you ignore the deeper issues, you may not know the nature of your calling, and if you don't do work that connects with your deep soul, you may always be dissatisfied, not only in your choice of work but in all other areas of life. Moore explores the often difficult process—the obstacles, blocks, and hardships of our own making—that we go through on our way to discovering our purpose, and reveals the joy that is our reward. He teaches us patience, models the necessary powers of reflection, and gives us the courage to keep going. *A Life's*

Work is a beautiful rumination, realistic and poignant, and a comforting and exhilarating guide to one of life's biggest dilemmas and one of its greatest opportunities.

Making It All Work Bloomsbury Publishing

From the authors of the #1 New York Times bestseller *Designing Your Life* comes a revised, fully up-to-date edition of *Designing Your New Work Life*, a timely, urgently needed book that shows us how to transform our new uncharted work life into a meaningful dream job or company. With practical, useful tools, tips, and design ideas that show us how to navigate disruption (global, regional, or personal) and create new possibilities for our post-COVID work world and beyond. Bill Burnett and Dave Evans successfully taught graduate and undergraduate students at Stanford University and readers of their best-selling book, *Designing Your Life* ("The prototype for a happy life." —Brian Lehrer, NPR), that designers don't analyze, worry, think, complain their way forward; they build their way forward. And now more than ever, we all need creative and adaptable tools to cope with the chaos caused by COVID-19. In *Designing Your New Work Life*,

Burnett and Evans show us how design thinking can transform our present job, and how it can improve our experience of work in times of disruption. All disruption is personal, write Burnett and Evans, as with the life-altering global pandemic we are living through now. *Designing Your New Work Life* makes clear that disruption is the new normal, that it is here to stay and that it is accelerating. And in the book's new chapters, Burnett and Evans show us step by step, how to design our way through disruption and how to stay ahead of it—and thrive. Burnett and Evans's *Disruption Design* offers us a radical new concept that makes use of the designer mindsets: Curiosity, Reframing, Radical collaboration, Awareness, Bias to action, Storytelling, to find our way through these uncharted times. In *Designing Your New Work Life*, Burnett and Evans show us, with tools, tips, and design ideas, how we can make new possibilities available even when our lives have been disrupted (be it globally, regionally, or personally), giving us the tools to enjoy the present moment and allowing us to begin to prototype our possible future.

This book is a companion to *The Unwinding*. It contains within images that tell stories, but it reads like a silent film. Each of the images is an invitation to dream. The tales of this silent edition are not pinned to the page by words. Each dreamer will find their own path, perhaps a new one each time they return. The illustrations are intended to inspire: there is space to draw and write, to paint dreams and stories, thoughts and verse, in new worlds, wherever your pen may guide you.

For most of us, work is a basic daily fact of life. But that simple fact encompasses an incredibly wide range of experiences. *Hard at Work* takes readers into the day-to-day work experiences of more than fifty working people in Singapore who hold jobs that run from the ordinary to the unusual: from ice cream vendors, baristas, police officers and funeral directors to academic ghostwriters, temple flower sellers, and Thai disco girl agents. Through first-person narratives based on detailed interviews, vividly augmented with color photographs, *Hard at Work* reminds us of the everyday labor that continually goes on around us, and

that every job can reveal something interesting if we just look closely enough. It shows us too the ways inequalities of status and income are felt and internalized in this highly globalized society.
