Use the latest research to bring differentiated instruction to today's inclusive classrooms! With flipped classrooms, response to intervention, and technology discussed as differentiated instructional tools, this book has it all! Teachers need 21st century resources that help them provide high-quality, differentiated instruction for all students. In this new edition of his best-selling resource, William Bender draws on the latest brain research, technology, and educational initiatives to bring a new focus to differentiating instruction in the context of the Common Core State Standards. By weaving together differentiated instruction, Response to Intervention, and educational technology, educators can increase achievement among students with learning disabilities and also foster the development of 21st-century skills.

This updated guide offers Specific strategies for differentiating instruction within an RTI framework and in the context of the Common Core State Standards Strategies for using technology to instruct and assess students with learning disabilities Teaching tips and concrete examples of brain-friendly instruction Guidance on a range of supportive instructional techniques Additional strategies based on the latest research in metacognition Up-to-date techniques such as using Khan Academy, flipped classes, and wikis to enhance learning in general and special education settings This new edition of Differentiating Instruction for Students With Learning Disabilities offers the tools and strategies educators need to maximize achievement for all students. "The ideas in this book are wonderful! They are new, innovative, current, interesting, and very practical. I could easily implement some of these ideas in my classroom tomorrow!"  
—Rachel Aherns, Teacher Westridge Elementary School, West Des Moines, IA  
"Between these pages you will find ample strategies of how to effectively and efficiently individualize instruction for a

classroom of diverse learners, without having to spend countless hours before and after a lesson preparing and assessing." —Jessica Purcell, Teacher Morehead City Middle School, Morehead City, NC

This book, from the Center for Gifted Education at William & Mary, provides gifted and advanced learners challenging activities to master and engage with the Common Core State Standards for English Language Arts through four mini units. Each mini unit is packed with activities that enrich and extend grade-level ELA content for grade 5. Included texts have messages and characters that are developmentally suitable for students. Through higher order reasoning questions, resulting discussions, and student-created products associated with these texts, gifted and advanced students' needs are met while still maintaining messages and

characters to which students can relate. Students will be exposed to themes such as the hero's journey, success from failure, journey as a symbol for change, and conflict. Each theme was chosen with advanced fifth-grade students in mind and their emerging need to learn more about themselves, their world, and how to work through adversity to accomplish their goals. Build solid mathematical understanding and develop meaningful conceptual connections. The inquiry-based approach holistically integrates the MYP key concepts, helping you shift to a concept-based approach and cement comprehension of mathematical principles. Fully comprehensive and matched to the Revised MYP, this resource builds student potential at MYP and lays foundations for cross-curricular understanding. Using a unique question cycle to sequentially build skills and comprehension, units introduce factual questions, followed by concept-based questions and conclude with debatable questions. This firm grounding in inquiry-

based learning equips learners to actively explore mathematical concepts and relate them to the wider 21st Century world, strengthening comprehension. Teaching and learning through Hollywood, or commercial, film productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. Purposeful and effective instruction through film, however, is not problem-free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we have collaboratively developed a collection of practical, classroom-ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film

in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic mindedness. The College, Career, and Civic Life (C3) framework, represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically K-12 teachers of United States history, by offering a collection of classroom-ready tools based on the Hollywood or History? strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures. The book consists of K-5 and 6-12 lesson plans addressing the following historical eras (Adapted from: UCLA, National Center for

History in Schools).
