Finally Out BlueHeart Press

Dr. Loren A. Olson has frequently been asked two questions: How could you not know that you were gay until the age of forty? Wasn't your marriage just a sham to protect yourself at your wife's expense? In *Finally Out*, Dr. Olson answers these questions by telling the inspiring story of his evolving sexuality, into which he intelligently weaves psychological concepts and gay history. This book is a powerful exploration of human sexuality, particularly the sexuality of mature men who, like Dr. Olson, lived a large part of their lives as straight men--sometimes long after becoming aware of their same-sex attractions. Readers will come to understand: - That there is no universal model for coming out - Why many older LGBTQ men came out late, do not come out at all, or come out to varying degrees in different environments - How stigma has created mental health problems for isolated and closeted men who have sex with men, particularly in geographical areas and

cultures where there is little or no acceptance of homosexuality - How sexual function changes but perhaps even improves for older men - That aging creates opportunities that one has never had and may never have again, e.g., freedom from the tyranny of ambition - That some people consistently prefer an older sexual partner and this can lead to stable, intergenerational relationships - How same-sex sexual activity was considered prior to the Stonewall uprising in 1969 contrasted with the way it is perceived after Stonewall - How age, culture, geographical location, heterosexual marriage, and children impact a person's decision to come out - Why "conversion therapy" does not work and may be harmful - The difference between homophobia and homonaïveté - The archetypes of self-identified straight men who seek occasional or regular sex with other men - How to overcome the shame and guilt experienced by men who are sexually attracted to other men  
The Old Man Young Again, Or, Age-rejuvenescence in the Power of Concupiscence Independently Published  
 Resigned to living a sexless, loveless life, Doctor Nathan Tierney knows something is missing. In a

rash decision, he leaves his life-consuming job at Mass General Hospital, Boston, to be the small-town doctor in Belfast, Maine. With the job comes a house, and with the house comes a handyman-painter. Trent Jamieson, a nomadic artist, and his dog Bentley, are offered free accommodation for the few weeks he fixes up the hospital-owned house. Nathan is transfixed by this free-spirited, undeniably gorgeous man. Confused but amazed to feel any kind of attraction - much less to a man - Nathan convinces himself to put aside any preconceived ideas, and allows himself to just feel. As their attraction for each other grows, one man learns to live, the other learns to love. But just who is teaching who? \*\* Second Edition. First Edition released in 2012. No additional content has been added. This book has not been professionally edited\*\*

 This story depicts the adventures of a young man who was born in a humble beginning, and was reared by his mother as a single child upon his father's demise when he was only three-years old. He was raised in the proximity of the Connecticut Shoreline which was convenient, and allowed

him to learn the nature of Tides, Ocean currents, and boats which he enjoyed and studied in great detail. This young man eventually escaped his humble surroundings by volunteering to join the Army during the Korean War, and was quickly promoted to the rank of Sergeant because of his agility and natural abilities. These qualities in conjunction with additional specialized training, eventually allowed him to be inducted into a Special Forces unit of the United States, and earned him the Right to wear a Green Beret as a emblem of distinction. The saga of his Orient adventures eventually led him to marry a young Korean girl for political reasons, and a termed agreement with her father, which enabled him to purchase a sailboat in Hong-Kong upon his discharge from the Army, so to travel across the Pacific Ocean to the United States with his inexperienced Korean wife. Their adventurous journey included defending-themselves from Chinese Pirates along the way as they carried Six-Tons of Gold Bullion hidden in the Keel of their sailboat, and was used as Ballast. The young man eventually built an empire, and allowed him to amass a fortune which he shared liberally with his loyal friends and various associates who aided him in his quest. Loyalty and honesty became the backbone of his carefully structured organization. His vast fortune augmented over a period of time consisting of valuable land ownership, and high yielding stocks and bonds, and his agreement with his bride's father allowed him to keep half of the Gold he had smuggled into the United States from the Far East. The finality of this young man's efforts became a striking distinction between his humble beginnings, and the financial empire he eventually built over a period of time.

In this study the author analyses similarities, differences and contradictions in the cultural norms about gender expressed in proverbs she has found in oral and written sources from over 150 countries. Grouping the proverbs into categories as the female body, love, sex, childbirth and the female power, the author examines shared patterns in ideas about women and how men see them.

**Standards of Reasonableness in Local Freight Discriminations** Mitchell Beazley

Based on extensive fieldwork that spanned more than 50 years, this comprehensive dictionary is a monumental achievement and will help to preserve this American Indian language that is nearing extinction.

*Cobbett's Parliamentary Debates* New York : Columbia university, Longmans, Green & Company, agents

Moe Pearlman--once the twenty-something protagonist of *Hard--*is now over forty, overweight, and going gray. For someone used to being the adorable younger guy chasing after older men, that's not particularly easy. But Moe's whole conception of himself is challenged when he spends Bear Week in Provincetown, an event that brings thousands of mature gay and bi men to the tip of Cape Cod the week after Independence Day to revel and relax. Still singular in his focus and sexual appetites, Moe hopes he'll find a hot older guy and have an intense summer fling. Joining him on vacation is Moe's ex-lover Gene and Gene's new boyfriend Carlos, so Moe has no reason to feel lonely, but when the older objects of Moe's affection start looking right past him in favor of younger rivals, Moe is shaken to the core.

*The Cornhill Magazine* University of Utah Press

#1 NEW YORK TIMES BESTSELLER • A special 25th anniversary edition of the beloved book that has changed millions of lives with the story of an unforgettable friendship, the timeless wisdom of older generations, and healing lessons on loss and grief—featuring a new afterword by the author “A wonderful book, a story of the heart told by a writer with soul.”—Los Angeles Times “The most important thing in life is to learn how to give out love, and to let it come in.” Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was his

college professor Morrie Schwartz. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final “class”: lessons in how to live. “The truth is, Mitch,” he said, “once you learn how to die, you learn how to live.” Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.
