## MONROE MONTGOMERY

---

Becoming A Translator Oxford University Press, USA

Learn to Read Latin helps students acquire an ability to read and appreciate the great works of Latin literature as quickly as possible. It not only presents basic Latin morphology and syntax with clear explanations and examples but also offers direct access to unabridged passages drawn from a wide variety of Latin texts. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style. Learn to Read Latin is designed to be comprehensive and requires no supplementary material. Explains English grammar points and provides drills especially for today's students. Offers sections on Latin metrics. Includes numerous unaltered examples of ancient Latin prose and poetry. Incorporates selections by authors such as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, presented chronologically with introductions to each author and work. Offers a comprehensive workbook that provides drills and homework assignments. This enlarged second edition improves upon an already strong foundation by streamlining grammatical explanations, increasing the number of syntax and morphology drills, and offering additional short and longer readings in Latin prose and poetry.

**Thinking Spanish Translation** Oxford University Press

The first reliable annotated English translation, with original texts, of one of the central sources of the Western legal tradition.

*Latin prose composition and translation with grammatical and critical papers for junior university local students* Cambridge University Press

Combining the best features of traditional and modern methods, Athenaze: An Introduction to Ancient Greek 3/e, provides a unique, bestselling course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (423-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' Acharnians. Essays on relevant aspects of ancient Greek culture and history are also woven throughout.

*Mundos en palabras* Cambridge University Press

Translation: Theory and Practice: A Historical Reader responds to the need for a collection of primary texts on translation, in the English tradition, from the earliest times to the present day. Based on an exhaustive survey of the wealth of available materials, the Reader demonstrates throughout the link between theory and practice, with excerpts not only of significant theoretical writings but of actual translations, as well as excerpts on translation from letters, interviews, autobiographies, and fiction.

The collection is intended as a teaching tool, but also as an encyclopaedia for the use of translators and writers on translation. It presents the full panoply of approaches to translation, without necessarily judging between them, but showing clearly what is to be gained or lost in each case. Translations of key texts, such as the Bible and the Homeric epic, are traced through the ages, with the same passages excerpted, making it possible for readers to construct their own map of the evolution of translation and to evaluate, in their historical contexts, the variety of approaches. The passages in question are also accompanied by ad verbum versions, to facilitate comparison. The bibliographies are likewise comprehensive. The editors have drawn on the expertise of leading scholars in the field, including the late James S. Holmes, Louis Kelly, Jonathan Wilcox, Jane Stevenson, David Hopkins, and many others. In addition, significant non-English texts, such as Martin Luther's "Circular Letter on Translation," which may be said to have inaugurated the Reformation, are included, helping to set the English tradition in a wider context. Related items, such as the introductions to their work by Tudor and Jacobean translators or the work of women translators from the sixteenth to eighteenth centuries have been brought together in "collages," marking particularly important moments or developments in the history of translation. This comprehensive reader provides an invaluable and illuminating resource for scholars and students of translation and English literature, as well as poets, cultural historians, and professional translators.

**Reading Latin** Cambridge University Press

This handbook for teachers provides both practical, up-to-date guidance and a theoretical overview on a number of key topics in Latin teaching. Using a wealth of interviews, observations and pupil transcripts, Steven Hunt title utilizes case-study evidence of excellent practice in teaching and learning from a wide variety of institutions: from outreach programmes, community schools and academies in the UK, to New York Charter Schools, KIP schools and schools in Eastern Seaboard states in the USA. Offering practical advice on topics such as essay writing, teaching controversial topics including women, slavery, ethnicity and social hierarchy, making use of primary sources and using ICT to advance language skills, the book also engages with broader questions of approach and theory. These include a survey of the three main approaches to Latin teaching: grammar-translation, communicative and reading approaches; explanation of cognitive and social approaches to learning; and analysis of the differences between intrinsic and extrinsic motivation. Moreover, traditional arguments about the value and purpose of learning Latin at school level are re-examined in the light of current educational thinking and government policy-making. This book is invaluable for trainees, newly qualified teachers and more experienced practitioners looking for practical ideas and strategies to motivate and engage learners of Latin. A companion website [www.startingtoteachlatin.org](http://www.startingtoteachlatin.org) is under construction and will contain a range of resources and information for teachers.

An Independent Study Guide to Reading Latin Cambridge University Press

This book is a graded Latin reader of four Greek myths (Perseus, Heracles, Jason and the Argonauts, and Ulysses) originally composed by Francis Ritchie. Facing each page of the Latin text is a single

page of corresponding vocabulary and grammatical commentary. Once readers have memorized the core vocabulary list, they will be able to read the Latin text and consult all relevant vocabulary and grammatical notes without turning a page.

*Foliorum silvula, selections for translation into Latin and Greek verse, by H.A. Holden* Routledge

The leading Latin course worldwide Book I begins in the city of Pompeii shortly before the eruption of Vesuvius. The Worksheet Masters for Book I features exercises to consolidate Latin vocabulary, accidence and syntax; develop language awareness with work on Latin derivations; test aural comprehension and extend knowledge of the Roman world.

*de Romanis Book 1* A&C Black

"This text is an essential coursebook for all Arab learners studying translation. Featuring a bottom-up approach to translation issues, it is informative, interesting and self-explanatory. The examples used in the book cover a wide range of topics, and are tuned to suit the level of beginner translation students. The unique combination of discussion and practical exercises following each topic makes this book ideal for Arab undergraduate students."

*Cambridge Latin Course Book I Worksheet Masters* John Benjamins Publishing

This innovative book integrates translation theory and the practical skills required by the working translator.

**Less Translated Languages** Bloomsbury Publishing

This OCR-endorsed Latin course for students aged 11+ is breathing new life into Latin teaching. An introduction to both the Latin language and the cultural world of the Romans, it also develops English literacy skills through derivation tasks and two-way translation exercises, which promote the understanding of English as well as Latin. Cultural topics, supported by background notes, and primary sources, included for study and analysis, enable students to engage with authentic Roman history and acquire a broad understanding on which to build in future study. - Language learning is split between Core and Additional to ensure effective differentiation and flexible timetabling. - Fun and varied exercises include word identification, word manipulation, vocab acquisition / consolidation, and translation from English into Latin. - 30 words of new vocabulary in each chapter build towards a total of 360. - Vocabulary is consistently and constantly consolidated to give an unshakeable grounding for GCSE. - Clear and systematic explanations of grammar encourage steady progress. - Early use of Latin stories rather than isolated sentences build student confidence from the start. In this first volume students meet the gods and heroes of the Roman world, introduced through stories from Chapter 1 onwards, so that students can immediately read passages of Latin. From myths about the gods to stories about religious customs and festivals, this is the perfect way to learn about the religious framework of Roman daily life. The final chapter on prophecy, ending with stories of historical figures such as Caesar interpreting messages from the gods, prepares for the transition in the second volume to the world of men - and women - of ancient Rome.

*Athenaze* Routledge

A classic anthology for GCSE. The eight thematic sections of poetry include works by Catullus, Horace, Lucretius, Martial, Ovid, Petronius, Seneca and Virgil. The eight sections of adapted prose include sections from Apuleius, Caesar, Cicero, Pliny, Sallust, Tacitus, and the Acts of the Apostles in the Vulgate. Glosses and other explanations are provided opposite each of the texts, and the writing

is illustrated throughout by paintings and photographs of artifacts in the Roman world. For the student, there is a complete vocabulary at the end of the book. For the teacher, there is an accompanying handbook giving additional suggestions for discussions in the classroom.

**Foliorum Silvula, Selections for Translation Into Latin and Greek Verse Chiefly from the University and College Examination Papers** Cambridge University Press

The North American Cambridge Latin Course is a well-established four-part Latin program whose approach combines a stimulating, continuous storyline with grammatical development, work on derivatives, and cultural information. There is also a complete Language Information section, plus numerous color photographs illustrating life in the Roman world. The Course has now been fully revised and updated in the light of feedback from user schools, and includes the very best in new research. The Fourth Edition continues to offer teachers and students alike a stimulating, reading-based approach to the study of Latin.

**The Codex of Justinian** Yale University Press

A guide for students using the Reading Latin course on their own.

*Twenty Thousand Leagues Under the Sea* Cambridge University Press

The world's bestselling introductory Latin course. Developed by the University of Cambridge School Classics Project, this bestselling Latin program provides an enjoyable and carefully paced introduction to the Latin language, complemented by background information on Roman culture and civilization. Starting in Roman Britain and moving on to imperial Rome itself, Unit 3 focuses on the murderous schemes and machinations of Gaius Salvius Liberalis, as he plots his ruthless and apparently unstoppable rise to power.

*Multilingualism in the Graeco-Roman Worlds* Cambridge University Press

Mundos en palabras offers advanced students of Spanish a challenging yet practical course in translation from English into Spanish. The course provides students with a well-structured, step-by-step guide to Spanish translation which will enhance and refine their language skills while introducing them to some of the key concepts and debates in translation theory and practice. Each chapter presents a rich variety of practical tasks, supported by concise, focused discussion of key points relating to a particular translation issue or text type. Shorter targeted activities are combined with lengthier translation practice. Throughout the book, learners will find a wealth of material from a range of genres and text types, including literary, expository, persuasive and audiovisual texts. An answer key to activities, as well as supplementary material and Teachers' Notes are provided in the companion website. The book covers common areas of difficulty including: frequent grammatical errors calques and loan words denotation and connotation idioms linguistic varieties cultural references style and register Suitable both for classroom use and self-study, Mundos en palabras is ideal for advanced undergraduate students of Spanish, and for any advanced learners wishing to acquire translation competence while enhancing their linguistic skills.

*Wheelock's Latin* Cambridge University Press

Over the last 30 years there has been a substantial increase in the study of the history of translation. Both well-known and lesser-known specialists in translation studies have worked tirelessly to give the history of translation its rightful place. Clearly, progress has been made, and the history of translation has become a viable independent research area. This book aims at

claiming such autonomy for the field with a renewed vigour. It seeks to explore issues related to methodology as well as a variety of discourses on history with a view to laying the groundwork for new avenues, new models, new methods. It aspires to challenge existing theoretical and ideological frameworks. It looks toward the future of history. It is an attempt to address shortcomings that have prevented translation history from reaching its full disciplinary potential. From microhistory, archaeology, periodization, to issues of subjectivity and postmodernism, methodological lacunae are being filled. Contributors to this volume go far beyond the text to uncover the role translation has played in many different times and settings such as Europe, Africa, Latin America, the Middle-east and Asia from the 6th century to the 20th. These contributions, which deal variously with the discourses on methodology and history, recast the discipline of translation history in a new light and pave the way to the future of research and teaching in the field.

**Translation** Cambridge University Press

This is the first collection of articles devoted entirely to less translated languages, a term that brings together well-known, widely used languages such as Arabic or Chinese, and long-neglected minority languages — with power as the key word at play. It starts with some views on English, the dominant language in Translation as elsewhere, considers the role of translation for minority languages — both a source of inequality and a means to overcome it —, takes a look at translation from less translated major languages and cultures, and ends up with a closer look at translation into Catalan, a paradigmatic case of less translated language, in a final section that includes a vindication of six prominent Catalan translators. Combining sound theoretical insight and accurate analysis of relevant case studies, the contributors to this collection make a convincing case for a more thorough examination of less translated languages within the field of Translation Studies.

*Cambridge Latin Course Unit 3 Student Text North American edition* Cambridge University Press  
Through words and images employed both by individuals and by a range of communities across the Graeco-Roman worlds, this book explores the complexity of multilingual representations of identity. Starting with the advent of literacy in the Mediterranean, it encompasses not just the Greek and Roman empires but also the transformation of the Graeco-Roman world under Islam and within the medieval mind. By treating a range of materials, contexts, languages, and temporal and political boundaries, the contributors consider points of cross-cultural similarity and difference and the changing linguistic landscape of East and West from antiquity into the medieval period. Insights from contemporary multilingualism theory and interdisciplinary perspectives are employed throughout to exploit the material fully.

*Charting the Future of Translation History* Bloomsbury Publishing

Thinking Spanish Translation is a comprehensive and revolutionary 20-week course in translation method with a challenging and entertaining approach to the acquisition of translation skills.

*Minimus Pupil's Book* Bloomsbury Publishing

Virgil became a school author in his own lifetime and the centre of the Western canon for the next 1800 years, exerting a major influence on European literature, art, and politics. This Companion is designed as an indispensable guide for anyone seeking a fuller understanding of an author critical to so many disciplines. It consists of essays by seventeen scholars from Britain, the USA, Ireland and Italy which offer a range of different perspectives both traditional and innovative on Virgil's works, and a renewed sense of why Virgil matters today. The Companion is divided into four main sections, focussing on reception, genre, context, and form. This ground-breaking book not only provides a wealth of material for an informed reading but also offers sophisticated insights which point to the shape of Virgilian scholarship and criticism to come.
