Corporate Reputation and Social Activism SAGE

This book constitutes the refereed proceedings of the 4th International Conference on Social Computing, Behavioral-Cultural Modeling and Prediction, held in College Park, MD, USA, March 29-31, 2011. The 48 papers and 3 keynotes presented in this volume were carefully reviewed and selected from 88 submissions. The papers cover a wide range of topics including social network analysis; modeling; machine learning and data mining; social behaviors; public health; cultural aspects; and effects and search.

The Handbook of Development Communication and Social Change Routledge

This book constitutes the refereed proceedings of the 13th International Conference on Social Informatics, SocInfo 2022, which took place in Glasgow, UK, during October 19-21, 2022. The 22 full papers, 8 short papers, and 4 late breaking papers included in this book were carefully reviewed and selected from 102 submissions. The deal with topics ranging from information-system design on social concepts to analyzing complex social systems using computational methods or explore socio-technical techniques using social sciences methods.

Advanced Social Work with Children and Families John Wiley & Sons

The papers in this volume were the fruitful scientific results of the Second International Conference on Social Robotics (ICSR), held during November 23-24, 2010 in Singapore, which was jointly organized by the Social Robotics Laboratory (SRL), Interactive Digital Media Institute (IDMI), the National University of Singapore and 2 Human Language Technology Department, the Institute for Infocomm Research (I R), A*STAR, Singapore. These papers address a range of topics in social robotics and its applications. We received paper submissions from America, Asia, and Europe. All the papers were reviewed by at least three referees from the 32-member Program Committee who were assembled from the global community of social robotics researchers. This v- ume contains the 42 papers that were selected to report on the latest developments and studies of social robotics in the areas of human--robot interaction; affective and cognitive sciences for interactive robots; design philosophies and software archit- tures for robots; learning, adaptation and evolution of robotic intelligence; and mec- tronics and intelligent control.

Dryland East Asia: Land Dynamics amid Social and Climate Change Springer Nature

"Addressing several themes in the social protection literature, this book makes an original and important contribution to the rapidly growing body of literature on social protection in sub-Saharan Africa. Some of the themes are relatively neglected or under-researched, while some others are not usually conceptualised as social protection. These themes are organized around the major issues: informal social protection, urban social protection, social protection and physical security, social protection in unstable contexts, climate change, pastoralism, and gender"--Back cover.

THE SOCIAL MEDIA MARKETING MCQ (MULTIPLE CHOICE QUESTIONS) SERVES AS A VALUABLE RESOURCE FOR INDIVIDUALS AIMING TO DEEPEN THEIR UNDERSTANDING OF VARIOUS COMPETITIVE EXAMS, CLASS TESTS, QUIZ COMPETITIONS, AND SIMILAR ASSESSMENTS. WITH ITS EXTENSIVE COLLECTION OF MCQS, THIS BOOK EMPOWERS YOU TO ASSESS YOUR GRASP OF THE SUBJECT MATTER AND YOUR PROFICIENCY LEVEL. BY ENGAGING WITH THESE MULTIPLE-CHOICE QUESTIONS, YOU CAN IMPROVE YOUR KNOWLEDGE OF THE SUBJECT, IDENTIFY AREAS FOR IMPROVEMENT, AND LAY A SOLID FOUNDATION. DIVE INTO THE SOCIAL MEDIA MARKETING MCQ TO EXPAND YOUR SOCIAL MEDIA MARKETING KNOWLEDGE AND EXCEL IN QUIZ COMPETITIONS, ACADEMIC STUDIES, OR PROFESSIONAL ENDEAVORS. THE ANSWERS TO THE QUESTIONS ARE PROVIDED AT THE END OF EACH PAGE, MAKING IT EASY FOR PARTICIPANTS TO VERIFY THEIR ANSWERS AND PREPARE EFFECTIVELY.

The Oxford Textbook of Palliative Social Work Oxford University Press

Prepare your students to appropriately identify, understand, and respond appropriately to the phenomenon of emotional release during massage and bodywork! This new edition continues to provide a crucial basis of knowledge for massage therapy and students regarding the emotional impact of effective massage therapy. With a new, more colorful layout, this new edition has been fully revised to address the latest science around this topic. Furthermore, in-text features aim to help students apply their learning to actual practice as a massage therapist.

SOCIAL MEDIA MARKETING John Wiley & Sons

The Oxford Textbook of Social Psychiatry serves as a comprehensive reference to the historical, theoretical, and practical aspects of social psychiatry, and its role in the management of psychiatric disorders. Written and edited by leading experts and rising stars in the field of social psychiatry, this textbook provides an authoritative and global look at social psychiatry, covering a wealth of topics and up-to-date research in 79 chapters. Divided into eight sections, this resource covers an overview of the history and development of social psychiatry, as well as the social world of families, culture, and identity, focusing on key issues such as globalisation, pandemics, trauma, spirituality, and

gender. Clinical conditions and special vulnerable groups are also explored, with topics such as the mental health of prisoners, somatisation, and eating disorders. Case studies of specific geographical locations provide a critical overview of global mental health today and the challenges faced in different settings, such as low- and middle-income countries.

Proposed Master Plan Update Development Actions, Seattle-Tacoma (Sea-Tac) International Airport, King County Springer Science & Business Media

"It is so important to advocate for things that may not always seem possible. Getting to work with patients/families at the end of their life is the ultimate honor." - Lauren G Markham, MSW, LCSW, APHSW-C "In this work, one witnesses both depths of human suffering and heights of human transcendence that can inspire both awe and fear. At those times, I have found that surrendering my need to be "an expert" and instead, allow myself to simply be a "human" is the wisest action." - Kerry Irish, LCSW, OSW-C, FAOSW"--

The Monthly Cumulative Book Index CHANGDER OUTLINE

Artwell Cain analyses the factors that have been conducive to the upward mobility of ethnic minorities in The Netherlands. Because this topic has not been studied, Cain's research has great relevance for both policy makers and social scientists. Moreover, the study adopts a distinctive perspective by focussing on the factors that have generated the professional success of ethnic minorities. Cain's study scrutinises the theoretical debate on class and ethnicity and its relevance for processes of upward social mobility. At the same time it is grounded in empirical research, taking class analysis as its theoretical point of departure and investigating what the influence of factors as higher educational level, talent, attitude and hard work in addition to other factors such as social class, ethnicity, gender and racial discrimination were part of the upward mobility processes of ethnic minorities. Cain also looks at the role of diversity policy in the organisations in which the respondents are employed and inquires whether this policy affected their chances for upward mobility. Among the features taken into consideration are the distance travelled between the respondents' social class origins and their present social position; their ethnic identification which colours their social networks and subsequently the effectiveness of these networks and their unique perspective on exclusionary factors in organisations.

Social and Occupational Ergonomics Herbert Utz Verlag

Considerable increases in economic growth and development, population, and urbanization have been experienced in the world as of the industrial revolution, but significant environmental degradation, climate change, resource depletion, inequality in education and income, gender inequality, and poverty have accompanied these developments. In this context, the joint efforts of the United Nations and countries have led to the emergence of the 2030 Agenda for Sustainable Development consisting of 17 sustainable development goals to overcome these problems. One of the sustainable development goals is quality education. Education can influence the achievement of other sustainable development goals through various channels. Considerations on Education for Economic, Social, and Environmental Sustainability explores the impact of education on the main components of sustainable development consisting of economic, environmental, and social sustainability. Covering topics such as business transformation, transitional innovation, and the professional integration of graduates, this premier reference source is an excellent resource for

business leaders, government officials, sociologists, educators of higher and K-12 education, preservice teachers, administrators, policymakers, researchers, and academicians.

SOCIAL JUSTICE SAGE

This valuable resource offers a wealth of practical and conceptual guidance to all those engaged in struggles for social justice around the world. It explains in accessible language and painstaking detail how to deploy and to understand the tools of media and communication in advancing the goals of social, cultural, and political change. A stand-out reference on a vital topic of primary international concern, with a rising profile in communications and media research programs Multinational editorial team and global contributors Covers the history of the field as well as integrating and reconceptualising its diverse perspectives and approaches Provides a fully formed framework of understanding and identifies likely future developments Features a wealth of insights into the critical role of digital media in development communication and social change

SOCIAL ANTHROPOLOGY Policy Press

730 references to proceedings, journal articles, books, and project summaries, published mostly during 1967-1970. Topical arrangement under 5 sections. Rather long annotations. Author, subject indexes.

The Routledge Handbook of Field Work Education in Social Work Eburon Uitgeverij B.V.

Adult Psychopathology presents an overview of the classification and diagnosis; epidemiology; genetic, sociocultural, and biological influences; and research and behavioral considerations of psychopathology in adults. This state-of-the-art volume also includes the latest research on the major disorders and discusses the three most popular treatment approaches.

Globalisation, Global Justice and Social Work CHANGDER OUTLINE

Since the first edition (published in 2009), there have been several important treaty developments, including the entry into force of the Optional Protocol to the International Covenant on Economic, Social and Cultural Rights (ICESCR) on individual communications, and significant developments in the case law on economic, social and cultural (ESC) rights. The second edition addresses these developments and explores ESC rights from foundational issues to substantive rights and systems of protection. It has been fully updated to include new material and up-to-date coverage of the case law of human rights bodies and national courts on ESC rights. In addition to the rights to health, education and work covered in the first edition, the second edition analyses new developments,

such as the rights to adequate food, water and sanitation, adequate housing, social security and cultural rights. It also considers several contemporary issues including the extraterritorial human rights obligations of states in the area of economic, social and cultural rights; non-state actors; relationship of the ICESCR to other areas of international law; the Optional Protocol to the ICESCR; regional protection of ESC rights; more examples of the domestic protection of ESC rights; the protection of ESC rights of vulnerable groups; contemporary challenges to ESC rights, including poverty, corruption, armed conflicts and terrorism. It concludes by exploring the possible establishment of a World Court of Human Rights.

Economic, Social and Cultural Rights in International Law Psychology Press

With a foreword by First Minister of Wales, Mark Drakeford, this book is the first to offer an in-depth look into what makes the Welsh Social Work context unique. It includes the move towards joint children, families and adult provision and the emphasis on early intervention, future generations and partnership considerations. Covering the subject knowledge required by the Welsh regulator, Social Care Wales, it provides essential reading for students and practising social workers in Wales, and rich contextual analysis for other international social work practitioners and writers. Each chapter includes: • dialogue on the distinctive 'Welsh way' that underpins the nation's social work approach; • focus on application: responses and implications for professional practice; • the 'giving of voice' section: demonstrating the key emphasis in Welsh practice of ensuring that multiple stakeholder perspectives are actively heard; • key resources for further independent exploration of the topics.

The Psychology of the Body Bloomsbury Publishing

Understanding the link between individual behaviour and population organization and functioning has long been central to ecology and evolutionary biology. Behaviour is a response to intrinsic and extrinsic factors including individual state, ecological factors or social interactions. Within a group, each individual can be seen as part of a network of social interactions varying in strength, type and dynamic. The structure of this network can deeply impact the ecology and evolution of individuals, populations and species. Within a group social interactions can take many forms and may significantly affect an individual's fitness. These interactions may result in complex systems at the group-level, such as in the case of collective decisions (to migrate, to build nest or to forage). Among them, social transmission of information has been studied mostly in vertebrates: fish, birds and mammals including humans. In insects, social learning has been unambiguously demonstrated in social Hymenoptera but this probably reflects limited research effort and recent evidence show

that even non-eusocial insects such as *Drosophila*, cockroaches and crickets can copy the behaviour of others. Compared to individual learning, which requires a trial and error period every generation, social learning can potentially result in the stable transmission of behaviours across generations, leading to cultural traditions in some species. The study of the processes which may facilitate or prevent this transmission and the analyses of the relationship between social network structure and efficiency of social transmission became these recent years an emerging and promising field of research. The goal of this research topic is to present the genetic and socio-environmental factors affecting social interaction and information or pathogen transmission with the integration of experimental approaches, social network analyses and modelling. Importantly, we aim to understand whether a relationship between social network structures and dynamics can reflect the efficiency of social transmission, i.e. can we use social network analysis to predict the social transmission of information or of pathogen, collective decision-making and ultimately the evolutionary trajectory of a group?

Homelessness, Social Exclusion and Health Liverpool University Press

The International Society for Justice Research (ISJR) aims to provide a platform for interdisciplinary justice scholars who are encouraged to present and exchange their ideas. This exchange has yielded a fruitful advance of theoretical and empirically-oriented justice research. This volume substantiates this academic legacy and the research prospects of the ISJR in the field of justice theory and research. Included are themes and topics such as the theory of the justice motive, the mapping of the multifaceted forms of justice (distributive, procedural) and justice in context-bound spheres (e.g. non-humans). It presents a comprehensive "state of the art" overview in the field of justice research theory and it puts forth an agenda for future interdisciplinary and international justice research. It is worth noting that authors in this proposed volume represent ISJR's leading scholarship. Thus, the compilation of their research within a single framework exposes potential readers to high quality academic work that embodies the past, current and future trends of justice research.

Interprofessional Collaboration in Social Work Practice Springer Science & Business Media

The bulk of the contributions in this publication originated in a research project initiated by the Stellenbosch Institute for Advanced Study (STIAS) in 2002. The book is based on the idea that the attainment of greater social and economic justice, specifically in the South African context, is strongly influenced by the implications and the coherence of various theories of social and economic justice.
