RICHARD LILIA

Casebook of Management for Nonprofit Organizations Learning Matters
Working conditions impact our health, the amount of time we can spend with family, our options during momentous life events, and whether we keep or lose a job when the unexpected occurs. The global community has accepted the argument that any country that guarantees decent working conditions will suffer higher unemployment and be

less competitive. This book shatters this view by presenting the first ever global analysis of the relationship between labor conditions, national competitiveness, and unemployment rates in 90 countries.

Social workers are increasingly faced with the demands of evaluating their own programs and practice to maintain accountability to funding agencies, secure funding, and remedy a number of social problems facing our society. One of the nine basic competencies required by the social work accreditation agency is to be able to conduct evaluations. Evaluation is a critical area of practice for demonstrating accountability to clients, communities, numerous other stakeholders, and funding and regulatory agencies. *Social Work Evaluation, Third Edition*, offers a straightforward guide to a broad range of social work evaluations at both the program and practice levels. Author

James R. Dudley's seven-step approach to evaluation makes use of qualitative, quantitative, and mixed research methods to provide oversight and address important issues at the planning, implementation, and outcome stages of a program or practice intervention. His unique focus on involving clients in the evaluation process ensures that social workers consistently improve their capacity to impact their clients' well-being and remain accountable to them and others they serve. Case examples from the extensive evaluation experience of the author and others illustrate a wide range of logic-based methods discussed throughout the text for real-world application. This comprehensive text effectively aims to enhance student and

practitioner skill sets to meet these demands of a changing field.

This timely textbook, reflecting the trends and developments in the nonprofit sector over the past decade, encompasses the core competencies required to lead nonprofit organizations through social innovation and impact during the 21st century. It fills a knowledge gap for leaders, managers, practitioners, students, faculty members, and providers in this rapidly growing field by providing a comprehensive framework for how to run and manage nonprofits. This includes all of the tools needed to affect social change through ethical business practices, management and leadership business strategies,

social marketing, and policy analysis across government, nonprofits, and philanthropy. The growth of this field is evidenced by recent national efforts including the establishment of a White House Office of Social Innovation and Civic Participation, a National Alliance for Social Investments, and the Stanford Social Innovation Review. The book addresses solutions to key problem for professionals in the nonprofit sector: creating a return on investment defined by concrete outcomes and ability to demonstrate their organization's impact. Organizational case studies are presented by practitioners who have used innovative principles to organize, create, and manage ventures to influence social change locally, regionally, and beyond. Key Features:

Provides a comprehensive framework for how to run and manage nonprofits in the 21st century Describes the core competencies and tools needed to affect social innovation and impact Addresses a key problem for nonprofit professionals: the need to provide donors with a social return on investment Discusses how nonprofit leaders can demonstrate their organization's impact Written and edited by highly respected professionals in the nonprofit field

Anchored in accounts of young people's personal experiences of loneliness, this book addresses important questions about tackling today's epidemic of

loneliness among young people. It explores experiences of loneliness in early life, how it is navigated when first encountered and considers how social conditions of poverty, precarity, inequality and competitive pressures to succeed can dramatically influence these feelings. Presenting diverse and nuanced social accounts of loneliness, the authors explore ways to harness the creative and positive potential of loneliness and provide evidence-based recommendations for policy makers, practitioners and young people to help tackle the crisis.

Casebook of Management for Nonprofit

Organizations highlights the importance of good management to human service organizations. Author Dennis Young uses case studies that stress entrepreneurship and are addressed to particular aspects of human services management--the processes of new program development and the management of organization change. Written in nontechnical, readable language, the cases deal with a wide array of types of organizational change, ranging from development of new programs to the birth of new organizations, the merger of organizations, and the expansion and diversification of the service offerings of various agencies. Moreover, the cases touch on many other intrinsic aspects of organizational administration including

management of professionals and other staff, working with trustees, financing programs through government and private sources, coping with governmental regulatory processes, and managing relationships with organizational clients and constituent groups.

Ethiopia has long prioritized creating more and better jobs as core to its sustainable and inclusive development. However, steady growth in the gross domestic product and gains in agricultural productivity in recent decades have not translated into better opportunities nor increased earnings for much of the population. The 2021 Labor Force Survey data reveal labor trends since 1999 and underscore these realities. Moreover, COVID-19 and other

shocks have reinforced the disconnect between positive macroeconomic trends at a national level and stagnant incomes at the household level. Working Today for a Better Tomorrow in Ethiopia: Jobs for Poor and Vulnerable Households outlines how Ethiopia can leverage its social safety net programs to help poor and vulnerable workers earn more in today's labor market. The government's latest development planning policies focus on private sector growth and structural transformation to create more and better jobs. While these long-term reforms take hold, the jobs agenda also must include near-term measures to improve worker productivity in and connect people to jobs that already exist. Complementing cash transfers with capital, training, and other services

can help workers earn more in their current work, diversify into new types of employment, or connect to available wage jobs. These investments can have an immediate impact for poor people in Ethiopia while also contributing to sustainable and inclusive development.
