 vol. ii Almanac Foundation

Investments on the order of US\$6 billion are estimated to be needed in the water sector in Nigeria in the next 10 years if the country is to achieve universal water supply coverage. This is the main finding of State Water Agencies in Nigeria: A Performance Assessment, in which the objective is to provide the government of Nigeria with a structured and coherent quantitative snapshot of the state of its urban water sector. The report focuses on water provision services from the States' Water Authorities or Water Boards (SWAs) as they are the major and only regulated agencies that provide water to the urban population. Sanitation provision is not addressed because the majority of SWAs do not provide this service to their customers. This report highlights the issues related to the performance of SWAs, tariffs levels and structures, financing mechanisms, and concerns with governance within the SWA and state governments. For example, due to accelerated

urbanization and migration of the population to the large cities, the average coverage by SWAs is about 40 percent, and the average domestic water consumption was 26 liters per capita per day in 2013, well below the recommended average. The remaining majority of the population relies on alternative service providers. To the extent possible, the report also shows the impact of these institutional weaknesses on customers' costs, fiscal subsidies to the sector, and financing requirements that are needed to scale up the investment and showcase that the related operational and maintenance expenditure of the SWAs can actually be covered from the various financing sources. In fact, the coping costs of the population getting water from alternative water providers is assessed at US\$700 million a year, and this number is growing. In addition, utilities get about US\$100 million in operational subsidies that cover labor, electricity, and other operational costs. State Water Agencies in Nigeria: A Performance Assessment provides the government of Nigeria with a structured and coherent quantitative snapshot of the state of its urban water sector. Ultimately, this report is a first step toward performance benchmarking in Nigeria's water and sanitation sector. The findings summarized in this publication

legal system. The various chapters deal with: introduction and sources of law; jurisprudence and Nigerian perspectives; African customary law; Islamic law; comparative constitutionalism and Nigerian perspectives; citizenship, immigration and administrative law; judicial system and legal profession; criminal law, evidence and civil procedure; statutory marriage and divorce laws; customary marriage and divorce; marriage and divorce under Islamic law; matters of children; gender and law in Nigeria with emphasis on Islamic law. Volume 2 has 25 chapters on private law that includes security of the environment and environmental law, land and property administration, commercial business and trade laws, communication, media and press laws, transportation and carrier laws, law enforcement, armed forces and military laws, investments, and intellectual property.

Criminology in Nigeria: History, Evolution, and Trends explores the threads of the criminal justice system in Nigeria through past, present, and future. Tracing the roots of law and criminology in Nigeria, this book elucidates the dynamic nature and impact of Nigeria's criminal justice system. It sheds light on the various influences of the Nigerian criminal justice system, different types of crimes, and various sentencing practices. By doing so, the book encourages readers to engage in a more critical examination of research and strategies related to security and public safety in Nigeria. This book is an essential resource that caters to students, scholars, researchers, and practitioners seeking a deeper understanding of Nigeria's criminal justice system and the evolving shape of justice in Nigeria.

Register of the Department of State for the Year ... Cambridge University Press

Conflicts in Africa have a great deal in common, and striking parallels can be drawn between them at all levels. Dynamics affecting the most complex war-time conflicts, civil unrest and other macro disputes are in play even in the smallest community conflicts. The converse is also true: lessons learned through community mediation, for example in South Africa, are applicable to the most complex and largest conflicts to be found on the continent. Together, the eleven chapters in this publication, in addition to the prologue and epilogue, suggest that a comprehensive assessment of efforts and investments in conflict resolution and peace studies in Africa since the mid-1990s is due in order to identify lessons and challenges, as well as best practices. Just as conflict dynamics are comparable between African conflicts, whether large or small, local or international, so are alternative dispute resolution processes. Effective approaches to resolving large-scale conflicts and civil wars are effective at the community level, and ineffectual techniques at the community level are just as likely to be counter-productive in mediating international disputes. While there may be some differences in mediating macro- and micro-conflicts (such as the time required, the need for negotiation teams, and the complexities of agenda development or pre-negotiations), as far as the mediation process is concerned, the differences are more like variations on a theme than real substantive dissimilarities. This volume provides case studies of programs and policies, and legislations on alternative dispute resolution and peace building, and examines and proposes some new, promising ideas for conflict prevention, as well as maintenance of peace, justice and security in Africa.

National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One □□□□□□□□

This book represents a compendium of the authors exposition and experience in the emerging and dynamic area of civil litigation which today indispensably constitutes the backbone of

every Practitioners success in civil law practice. Civil Litigation is technical in nature and accounts for the premature termination of most civil cases, without the opportunity to hear the substantive subject. This book has provided for Students, Judges, Teachers and practitioners the requisite guide in modern practice in civil litigation in Nigeria with a view to enhancing their proficiency in practice and presentation.

Labour Law in Nigeria AuthorHouse

This book shows that the security, economic, political, and social problems challenging national security, democracy, and good governance currently in Nigeria would get better or worse, depending on what happens to the seventy-one percent (71%) of Nigerias population still living below poverty line. This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades. It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth, this country will witness the worst civil disobedience, violence, revolts, militancy, breakdown of law and order, more kidnappings, and more of the citizens trying to check out of the country to other parts of the world in future. It concludes, however, that under such intense pressures, the Government of Nigeria, even if it is simply for its self-preservation, will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria. These are the ones who have, for long, captured and hijacked state power and the resources of the country for their exclusive use.

Alternative Dispute Resolution and Peace-building in Africa Springer

Derived from the renowned multi-volume International Encyclopaedia of Laws, this very useful analysis of constitutional law in Nigeria provides essential information on the country's sources of constitutional law, its form of government, and its administrative structure. Lawyers who handle transnational matters will appreciate the clarifications of particular terminology and its application. Throughout the book, the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure. Thorough coverage by a local expert fully describes the political system, the historical background, the role of treaties, legislation, jurisprudence, and administrative regulations. The discussion of the form and structure of government outlines its legal status, the jurisdiction and workings of the central state organs, the subdivisions of the state, its decentralized authorities, and concepts of citizenship. Special issues include the legal position of aliens, foreign relations, taxing and spending powers, emergency laws, the power of the military, and the constitutional relationship between church and state. Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for both practising and academic jurists. Lawyers representing parties with interests in Nigeria will welcome this guide, and academics and researchers will appreciate its value in the study of comparative constitutional law.
