HALLIE SHAYLEE

Beyond Black and Red ABC-CLIO

Rulon Tingey Burton was born 3 March 1926 in Salt Lake City, Utah. His parents were Fielding Garr Burton and Mela Stewart Lindsay. He served in the Navy in World War II. He married Josephine Omer. They had three children. He established a law firm.

Columbus's Outpost Among the Tainos Routledge

Written by leading scholars, this collection provides a comprehensive and authoritative overview of modern empires. Spanning the era of modern imperial history from the early sixteenth century to the present, it challenges both the rather insular focuses on specific experiences, and gives due attention to imperial formations outside the West including the Russian, Japanese, Mughal, Ottoman and Chinese. The companion is divided into three broad sections. Part I - Times - surveys the three main eras of modern imperialism. The first was that dominated by the settlement

impulse, with migrants - many voluntarily and many more by force - making new lives in the colonies. This impulse gave way, most especially in the nineteenth century, to a period of busy and rapid expansion which was less likely to promote new settlement, and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade. Lastly, in the twentieth century in particular, empires began to fail and to fall. Part II - Spaces - studies the principal imperial formations of the modern world. Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations. The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations, and reflect critically on the ways in which these topics have been approached in the literature. In Part III - Themes - scholars think critically about some of the key features of imperial expansion and decline. These chapters are brief and many are provocative. They reflect the current state of the field, and suggest new lines of inquiry which may follow from more comparative perspectives on empire. The broad range of themes captures the vitality and diversity of contemporary

scholarship on questions of empire and colonialism, encompassing political, economic and cultural processes central to the formation and maintenance of empires as well as institutions, ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire. In these pages the reader will find the slave and the criminal, the merchant and the maid, the scientist and the artist alongside the structures which sustained their lives and their livelihoods. Overall, the companion emphasises the diversity of imperial experience and process. Comprehensive in its scope, it draws attention to the particularities of individual empires, rather than over-generalising as if all empires, at all times, and in all places, behaved in a similar manner. It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire.

A Historical Archaeology of Early Spanish Colonial Urbanism in Central America BRILL

This groundbreaking volume addresses the enslavement and experiences of Black Africans in Spain and the Spanish Caribbean, particularly La Española (or Hispaniola) and Puerto Rico, two of the earliest colonies. Spanning nearly four hundred years and rooted in extensive archival

research, *Transatlantic Bondage* sheds light on a number of relatively underexamined topics in these locales, including the development and application of slavery laws, disobedience and its consequences, migration, gender, family, lifestyle, and community building among the free Black population and white allies. In bringing together new and recent work by leading scholars, including two essays translated into English here for the first time, the book is also a call for further study of slavery in the Spanish Caribbean and its impact on the region.

Implicit Understandings University of Chicago Press

In the second half of the twentieth century Dominicans became New York City's largest, and poorest, new immigrant group. They toiled in garment factories and small groceries, and as taxi drivers, janitors, hospital workers, and nannies. By 1990, one of every ten Dominicans lived in New York. *A Tale of Two Cities* tells the fascinating story of this emblematic migration from Latin America to the United States. Jesse Hoffnung-Garskof chronicles not only how New York itself was forever transformed by Dominican settlement but also how Dominicans' lives in New York profoundly affected life in the Dominican Republic. *A Tale of Two Cities* is unique in offering a simultaneous, richly detailed social and cultural history of two cities bound intimately by migration. It explores how the history of burgeoning shantytowns in Santo Domingo--the capital of a rural country that had endured a century of intense U.S. intervention and was in the throes of a fitful modernization--evolved in an uneven dialogue with the culture and politics of New York's Dominican ethnic enclaves, and vice versa. In doing so it offers a new window on the lopsided history of U.S.-Latin American relations. What emerges is a unique fusion of Caribbean, Latin American, and U.S. history that very much reflects the complex global world we live in today.

The Medieval Frontiers of Latin Christendom Princeton University Press

First published in 1997, this volume looks at the process of European expansion which brought into contact societies and cultures across the world which had been initially alien to one another. Conflict was one aspect of this interaction, but accommodation, mutual adaptation, and institutional and behavioural synthesis were also present though often biased in favour of European norms. The intent of this book is to avoid treating 'colonization', 'dominance' and 'exploitation' as the only focuses of attention. The second volume focuses on the Americas, and uses the topics of religion, class, gender, and race as its points of entry.

Global Goods and the Spanish Empire, 1492-1824 Springer

Across a five-hundred-year sweep of history, Willis Knapp Jones surveys the native drama and the Spanish influence upon it in nineteen South American countries, and traces the development of their national theatres to the 1960s. This volume, filled with a fascinating array of information, sparkles with wit while giving the reader a fact-filled course in the history of Spanish American drama that he can get nowhere else. This is the first book in English ever to consider the theatre of all the Spanish American countries. Even in Spanish, the pioneer study that covers the whole field was also written by Jones. Jones sees the history of a nation in the history of its drama. Pre-Columbian Indians, conquistadores, missionary priests, viceroys, dictators, and national heroes form a background of true drama for the main characters here—those who wrote and produced and acted in the make-believe drama of the times. The theatre mirrors the whole life of the community, Jones believes, and thus he offers information about geography, military events, and economics, and follows the politics of state and church through dramatists' offerings. Examining the plays of a people down the centuries, he shows how the many cultural elements of both Old and New Worlds have been blended into the distinct national characteristics of each of the Spanish American countries. He does full justice to the subject he loves. A lively storyteller, he adds tidbits of spice and laughter, long-buried vignettes of history, tales of politics and drama, stories of high and low life, plots of plays, bits of verse, accounts of dalliance and of hard work, and sad and happy endings of rulers and peons, dramatists, actors, and clowns. A valuable appendix is a selected reading guide, listing the outstanding works of important Spanish American dramatists. A generous bibliography is a useful addition for scholars.

Humanities Tabernacle Books, Inc

A pioneering examination of the role smuggling played in the transformation of Spanish Caribbean society and culture in the seventeenth century.

The History of Linguistics in Spain UNM Press

World-wide in scope, this volume brings together the work of twenty historians, anthropologists, and literary scholars who have tried to examine the nature of the encounter between Europeans and the other peoples of the world from roughly 1450 to 1800, the Early Modern era. *Hesitancy and Experimentation in Enlightenment Spain and Spanish America* Routledge

Published in memory of Ivy L. McClelland, a pioneer-scholar of Spain's eighteenth century, this volume of original essays contains, besides an Introduction to her career and internationally influential writings, three previously unpublished essays by McClelland and nine studies by other scholars, all of which are focused on elucidating the Enlightenment and its characteristic manifestations in the Hispanic world. Among the Enlightenment writers and artists, works and genres, themes and issues discussed, are: Nicolás Moratín and epic poetry, Lillo's *The London Merchant* and English and French influences on eighteenth-century Spanish drama, José Marchena and literary historiography, oppositions and misunderstandings within Spanish society as reflected in *El sí de las niñas*, Goya and the visual arts, Quintana's Pelayo and historical tragedy, Enlightenment discourse, the Periodical Press, theatre as propaganda, the ideology and politics of Empire, the roots of revolt in late viceregal Quito, women's experience of Enlightenment in Spain, social and cultural difference in colonial Peru, ideological debate and uncertainty during the Age of Reason, eighteenth-century Spain on the nineteenth-century stage, and public opinion in Spain on the eve of the French, and European, Revolution. First published as a Special Issue of the *Bulletin of Spanish Studies* (LXXXVI [November–December 2009], Nos 7–8), this book will be of value and stimulus to all scholars concerned to investigate and interpret the culture, theatre, ideology, society and politics of the Enlightenment in Spain, Europe and Spanish America.

The Indian in Spanish America University Press of Florida

Volume 2 of the *General History of the Caribbean* covers the evolution of Caribbean societies between 1492 and 1650 through the intrusion of Europeans and Africans. This volume examines the early mining and planting in Espaniola, privateers and contraband traders, plantation societies, extinction of indigenous populations, and the beginning of the slave trade.

First Forts Lulu.com

In this milestone work, William Fowler uses archaeology, history, and social theory to show that the establishment of cities was essential to Spanish colonialism. Fowler draws upon decades of archaeological research on the landscape, built environment, and architecture of Ciudad Vieja, a sixteenth-century site located in present-day El Salvador and the best-preserved Spanish colonial city in Latin America. Fowler compares Ciudad Vieja to other urban sites in the region and to the tradition of urbanism in early modern Spain to determine how the Spanish grid-plan layout was modified and implemented in the Americas. Using extensive archival material, Fowler describes how this layout reflected and perpetuated power structures that benefited the Spanish although the city's Indigenous population was greater in number. Fowler analyzes recorded interactions between colonists, Indigenous peoples, and enslaved Africans to demonstrate the ways the cityscape affected the relationships among individuals and cultural groups. Offering an unparalleled view into a critical moment in Latin American history, this book offers new ways of looking at urbanism and colonialism as intertwined forces in the emergence of the early modern world.

Spain in America / España en América UNM Press

The *Garland Handbook of Latin American Music* is comprised of essays from *The Garland Encyclopedia of World Music: Volume 2, South America, Mexico, Central America, and the Caribbean*, (1998). Revised and updated, the essays offer detailed, regional studies of the different musical cultures of Latin America and examine the ways in which music helps to define the identity of this particular area. Part One provides an in-depth introduction to the area of Latin America and describes the history, geography, demography, and cultural settings of the regions that comprise Latin America. It also explores the many ways to research Latin American music, including archaeology, iconography, mythology, history, ethnography, and practice. Part Two focuses on issues and processes, such as history, politics, geography, and immigration, which are responsible for the similarities and the differences of each region's uniqueness and individuality. Part Three focuses on the different regions, countries, and cultures of Caribbean Latin America, Middle Latin America, and South America with selected regional case studies. The second edition has been expanded to cover Haiti, Panama, several more Amerindian musical cultures, and Afro-Peru. Questions for Critical Thinking at the end of each major section guide focus attention on what musical and cultural issues arise when one studies the music of Latin America -- issues that might not occur in the study of other musics of the world. Two audio compact discs offer musical examples of some of the music of Latin America.

Handbook of Latin American Studies NYU Press

The volume contributes to disrupt the old grand narrative of cultural contact and colonialism in Spanish and Portuguese America in a wide and complete sense. This edited volume aims at

exploring contact archaeology in the modern era. Archaeology has been exploring the interaction of peoples and cultures from early times, but only in the last few decades have cultural contact and material world been recognized as crucial elements to understanding colonialism and the emergence of modernity. Modern colonialism studies pose questions in need of broader answers. This volume explores these answers in Spanish and Portuguese America, comprising present-day Latin America and formerly Spanish territories now part of the United States. The volume addresses studies of the particular features of Spanish-Portuguese colonialism, as well as the specificities of Iberian colonization, including hybridism, religious novelties, medieval and modern social features, all mixed in a variety of ways unique and so different from other areas, particularly the Anglo-Saxon colonial thrust. Cultural contact studies offer a particularly in-depth picture of the uniqueness of Latin America in terms of its cultural mixture. This volume particularly highlights local histories, revealing novelty, diversity, and creativity in the conformation of the new colonial realities, as well as presenting Latin America as a multicultural arena, with astonishing heterogeneity in thoughts, experiences, practices, and, material worlds.

Iberia and the Americas [3 volumes] John Benjamins Publishing

The first study of the complex relationships among the races in Latin America after Spanish colonization.

Behind Spanish American Footlights Springer

In this timely study of all the reasons for extreme declines in native populations in the New World after colonization by Europeans, the author questions prevalent theories that exposure to Old World diseases was the sole cause of the devastation.

The Histories of Hispanic America Cambridge University Press

This is the first study of the development of economic thought in Latin America. It traces the development of economic ideas during five centuries and across the whole continent. It addresses a wide range of approaches to economic issues including: * the scholastic tradition in Latin American economies * the quantity theory of money * cameralism * human capital theory.

Islanders and Empire Cambridge University Press

Originally published as a collection in 2006, this volume covers the Atlantic slave trade from its origins to 1600, the selection of essays here look at the reasons for the causes of slavery and serfdom; slavery in Africa; the development of the slave trade; the demographic situation in Latin America; and European attitudes to slavery as an institution. The volume also has an introduction by the editor commenting on the contribution each essay makes.

Black in Latin America Yale University Press

This volume studies the initial linkage with America, the establishment of primary centres and plantations, the beginnings of colonial settlement and the forced African population component. Attention is also given to the historical course of autochthonous societies, houses, cities, fortresses and civil works, and to the intellectual, artistic and ideological culture. The volume includes maps and an extensive list of sources.

A New Spanish Reader Routledge

This comprehensive encyclopedia covers the reciprocal effects that the politics, foreign policy, and culture of Spain, Portugal, and the American nations have had on one another since the time of Columbus. From the discovery of Newfoundland and Labrador by Portuguese explorer Gaspar Corte Real in 1501 to the phenomenal Hollywood careers of Spanish movie stars such as Antonio Banderas and Penelope Cruz, *Iberia and the Americas* traces 500 years of Iberian influence on the Americas and vice versa. Featuring six introductory essays and a chronology of key events, this three-volume encyclopedia examines more than five centuries of transatlantic encounters. Students of a wide range of disciplines, as well as the lay reader, will appreciate this exhaustive survey, which traces Spanish and Portuguese influence throughout the Americas and highlights how Iberian cultures have in turn been enriched by the diverse cultures of the Americas.

Studies in the History of Latin American Economic Thought University of Texas Press

12.5 million Africans were shipped to the New World during the Middle Passage. While just over 11.0 million survived the arduous journey, only about 450,000 of them arrived in the United States. The rest-over ten and a half million-were taken to the Caribbean and Latin America. This astonishing fact changes our entire picture of the history of slavery in the Western hemisphere, and of its lasting cultural impact. These millions of Africans created new and vibrant cultures, magnificently compelling syntheses of various African, English, French, Portuguese, and Spanish influences. Despite their great numbers, the cultural and social worlds that they created remain largely unknown to most Americans, except for certain popular, cross-over musical forms. So

Henry Louis Gates, Jr. set out on a quest to discover how Latin Americans of African descent live now, and how the countries of their acknowledge-or deny-their African past; how the fact of race and African ancestry play themselves out in the multicultural worlds of the Caribbean and Latin

America. Starting with the slave experience and extending to the present, Gates unveils the history of the African presence in six Latin American countries-Brazil, Cuba, the Dominican

Republic, Haiti, Mexico, and Peru-through art, music, cuisine, dance, politics, and religion, but also the very palpable presence of anti-black racism that has sometimes sought to keep the black cultural presence from view.
