"Why a handful of Biblical scholars conspired to suppress the revolutionary contents of the Dead Sea Scrolls"--Jacket subtitle.

[HALF-PAST SEVEN STORIES - 17 illustrated stories from yesteryear](#) BoD - Books on Demand

Renowned author Joseph Bruchac tells a powerful story of a girl who learns more about her Penacook heritage while sheltering in place with her grandparents during the coronavirus pandemic. Malian loves spending time with her grandparents at their home on a Wabanaki reservation—she's there for a visit when, suddenly, all travel shuts down. There's a new virus making people sick, and Malian will have to stay with her grandparents for the duration. Everyone is worried about the pandemic, but Malian knows how to keep her family safe: She protects her grandparents, and they protect her. She doesn't go out to play with friends, she helps her grandparents use video chat, and she listens to and learns from their stories. And when Malsum, one of the dogs living on the rez, shows up at their door, Malian's family knows that he'll protect them too. Told in verse inspired by oral storytelling, this novel about the COVID-19 pandemic highlights the ways in which Indigenous nations and communities cared for one another through plagues of the past, and how they keep caring for one another today. **Four starred reviews!** Boston Globe-Horn Book Fiction & Poetry Honor NPR Books We Love Kirkus Reviews Best Books School Library Journal Best Books Chicago Public Library Best Fiction for Younger Readers Jane Addams Children's Book Award Finalist Nerdy Book Club Award—Best Poetry and Novels in Verse

Panda Quartile - Empress of a strange other-dimensional Earth - becomes stuck in our own world after a cosmic accident during a shopping trip. Unable to return for 6 months, she poses as a university student to pass the time, and makes friends with neighbour Jo Dribble. Panda's naivete(c) and enthusiasm to experience Earth lead them to a series of daft adventures together..."

[Sleaze Castle](#) Pearson

The chapters cover what instructors want students to know about MIS. Extended Learning Modules (XLM) show students what they can do with MIS. The instructor controls the mix by picking the chapters and XLMs to cover. A contemporary writing style and a wealth of examples engage students like no other MIS text.

[The Book of Delight; And other papers](#) Pearson Higher Ed

Olson's Introduction to Project Management, 2/e is a project management text that focuses on "systems" issues. The primary focus is to examine the many issues facing MIS project managers. The revision also now incorporates the Project Management Institute's Body of Knowledge (PMBOK), better preparing users for the PMI certification exam. Olson focuses on traditional project management topics such as project adoption, planning, scheduling, and implementation while encouraging students to view the projects holistically and analytically. Utilizing the most current software and project management tools, he provides students with the most effective strategies for today's IT project managers.

[Modern Electronics](#) Simon and Schuster

An effective and cost efficient protection of electronic system against ESD stress pulses specified by IEC 61000-4-2 is paramount for any system design. This pioneering book presents the collective knowledge of system designers and system testing experts and state-of-the-art techniques for achieving efficient system-level ESD protection, with minimum impact on the system performance. All categories of system failures ranging from 'hard' to 'soft' types are considered to review simulation and tool applications that can be used. The principal focus of System Level ESD Co-Design is defining and establishing the importance of co-design efforts from both IC supplier and

system builder perspectives. ESD designers often face challenges in meeting customers' system-level ESD requirements and, therefore, a clear understanding of the techniques presented here will facilitate effective simulation approaches leading to better solutions without compromising system performance. With contributions from Robert Ashton, Jeffrey Dunnihoo, Micheal Hopkins, Pratik Maheshwari, David Pomerence, Wolfgang Reinprecht, and Matti Usumaki, readers benefit from hands-on experience and in-depth knowledge in topics ranging from ESD design and the physics of system ESD phenomena to tools and techniques to address soft failures and strategies to design ESD-robust systems that include mobile and automotive applications. The first dedicated resource to system-level ESD co-design, this is an essential reference for industry ESD designers, system builders, IC suppliers and customers and also Original Equipment Manufacturers (OEMs). Key features: Clarifies the concept of system level ESD protection. Introduces a co-design approach for ESD robust systems. Details soft and hard ESD fail mechanisms. Detailed protection strategies for both mobile and automotive applications. Explains simulation tools and methodology for system level ESD co-design and overviews available test methods and standards. Highlights economic benefits of system ESD co-design.

[Anthony's Pride](#) IndyPublish.com

This volume contains the papers selected for the poster session of the 7th International Conference on Information Technology (CIT 2004) held at Hyderabad in December 2004. CIT has grown to emerge as one of the major international conferences in India and is a premier forum for presenting the latest research and development findings in the field of IT.

[Lead Finishing in Semiconductor Devices](#) Prentice Hall

This book provides the knowledge and good design practice for the design or test engineer to take the necessary measures to improve EMC performance and therefore the chance of achieving compliance, early on in the design process. There are many advantages for both the component supplier and consumer, of looking at EMC at component and PCB level. For the suppliers, not only will their products have the competitive edge because they have known EMC performance, but they will be prepared should EMC compliance become mandatory in the future. For consumers it is a distinct advantage to know how a component will behave within a system with regard to EMC. Shows how to achieve EMC compliance early on in the design process Provides the knowledge to trace system EMC performance problems Follows best design practices

[Electronic Circuits](#) World Scientific

This text provides optional computer analysis exercises in selected examples, troubleshooting sections, & applications assignments. It uses frank explanations & limits maths to only what's needed for understanding electric circuits fundamentals.

[Management Information Systems for the Information Age with CD and Olc](#) Universities Press

An introductory text for undergraduates.

[The Jericho Road](#) McGraw-Hill/Irwin

Personal Productivity with Information Technology was developed to fit the specifications for course IS97.2 of the Information Systems Curriculum Model developed as a joint effort by the ACM and AITP (formerly DPMA). The text is designed to help students learn to work more effectively using computers and information technology. It is geared towards use in a variety of college or university courses and should be useful to students majoring in diverse subjects. The text combines a discussion of concepts and methods with practical exercises.

[Rez Dogs](#) McGraw-Hill/Irwin

This book heralds a new era in Dead Sea Scolls publication and research. The volume represents a remarkable achievement by Eisenman and Wise in presenting fifty new texts from one hundred and fifty manuscript photographs, which have been publicly accessible for less than a year.

[Experimental Electronics for Students](#) Lindhardt og Ringhof

When Galanos goes missing and Princess Thessallya is affected by a mysterious illness, Anthony and the Royal Free Guardians take her down to visit Kyros to rest and recover. While staying at the retired warrior's ranch they discover that many people and livestock have gone missing. As Thessallya is plagued with unexplainable bouts of excruciating pain she must rely on the Guardians to investigate. When their search leads them to uncovering a magnificent beast and a vicious plot to overthrow her father's kingdom they are all forced into action. Walk with Anthony as he fights to protect his best friend. Will his love and determination be enough to save her? Will she heal in time to lead the Royal Free Guardians against the threat to their kingdom? Will they be strong enough to save the people without Galanos? Once again marvel at the unique power of the heartstones that binds the warrior princess to her dragon as your favorite warriors battle to save the Free Lands. Journey with the Guardian Preator and her eclectic squad of heroes as they face some of the most difficult challenges yet.

Personal Productivity with Information Technology Independently Published

Research Paper from the year 2014 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, course: Management, language: English, abstract: This study gives an insight into the mobile market industry in Sri Lanka. Mobile phone manufactures and marketers are facing hyper competition in Sri Lanka as well as in the world mobile market. Mobile phone marketers should have a clear idea about the factors which are affecting the choice of mobile phones. In order to get more market share and win whole hard of the potential consumers and stakeholders they have to design, produce, communicate and promote the mobile phone in the best possible manner. This study aims to find out the factors which are affecting the choice of a particular mobile brand when a purchase decision is made with reference to Sri Lankan university students. The primary data was collected through an online-based questionnaire sent to randomly selected students who are following any program of study in universities island-wide. Descriptive statistics; mean and standard deviation are used to identify the factors which are affecting the mobile brand preference. Price, stylish appearances and perceived quality are found as very important factors on purchase decision when selecting a mobile phone brand.

Opera Stories from Wagner Elsevier

Herein are 17 illustrated stories by Robert Gordon Anderson with 16 full-page colour illustrations by Dorothy Hope Smith. This volume is the sequel to *The Seven O'Clock Stories* also written by Robert Gordon Anderson and with the same three happy children and are short stories of everyday happenings on a farm. The story of the Big Bobsled, even contains instructions on how to make your own. The volume is introduced with "The Top Of The Morning" which is the saying the Toymaker uses as a greeting, no matter the weather which sets the tone of the book. The stories are: "The Top Of The Morning" I The Little Lost Fox II The Big Bobsled III The Jolly Roger IV The Blue Croaker, The Bright Agate, And The Little Gray Mig V The Old Woman Who Lived On The Canal VI Two O' Cat VII The Fairy Lamp VIII The Animals' Birthday Party IX Dr. Philemon Pipp, The Patient Medicine Man X When Jehosophat Forgot His Piece XI Ole Man Pumpkin XII The Norway Spruce XIII When The Door Opened XIV The Hole That Ran To China XV The Peppermint Pagoda XVI He That Took The City These stories are simply and naturally told and are for children aged five to nine years old. As with all children's stories, they have originated in a place where good wishes come true: where the poor and the lonely are rich and live in castles and have friends: and where sorrowful folk are happy. Here you will hear the birds singing and children laughing, all day long. The trees are full of blossoms and fruit. The sky is always blue, the grass green and soft. Under the trees dwell the fairies, and against the blue sky you will sometimes see the sheen of angels' wings as the flit by. We invite you to curl up with this unique sliver of Fairy culture not seen in print for over a century; and immerse yourself in the tales and fables of yesteryear. 10% of the net sale will be donated to charities by the publisher. ----- KEYWORDS/TAGS: fairy tales, folklore, myths, legends, children's stories, children's stories, bygone era, fairydom, fairy land, classic stories, children's bedtime stories, happy place, happiness, top of the morning, little lost fox, big bobsled, jolly roger, pirate, blue croaker, bright agate, little gray mig, old woman, lives on the canal, two o' cat, fairy lamp, animals, birthday party, dr. philemon pipp, patient, medicine man, jehosophat, forgot, piece, ole man, pumpkin, Norway spruce, door, open, hole, ran, runs, to china, peppermint pagoda, took, take, city, jehosophat, Marmaduke, and Hepzebiah, Green, old, uncles, aunts, White House, Green Blinds, Side of the Road, fishing, pond, swim, Toyman, Methusaleh, playmates, friends, feathers, fur, Monday morning, Thursday noon, Saturday night, lessons, lights, fireflies, twinkle, Father, Mother

Little Ida's Flowers Univ of Wisconsin Press

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Information Systems Today shows readers how information technology and systems are continuing to expand within all aspects of today's organizations and society. The fifth edition focuses on how information systems are fueling globalization—making the world smaller and more competitive—in virtually every industry and at an ever-increasing pace.

Electronic Circuit Analysis Simon & Schuster Books For Young Readers

ÉMy life is a lovely story, happy and full of incident. If, when I was a boy, and went forth into the world poor and friendless, a good fairy had met me and said, "Choose now thy own course through life, and the object for which thou wilt strive, and then, according to the development of thy mind, and as reason requires, I will guide and defend thee to its attainment," my fate could not, even then, have been directed more happily, more prudently, or better. The history of my life will say to the world what it says to me—There is a loving God, who directs all things for the best. My native land, Denmark, is a poetical land, full of popular traditions, old songs, and an eventful history, which has become bound up with that of Sweden and Norway. The Danish islands are possessed of beautiful beech woods, and corn and clover fields: they resemble gardens on a great scale. Upon one of these green islands, Funen, stands Odense, the place of my birth. Odense is called after the pagan god Odin, who, as tradition states, lived here: this place is the capital of the province, and lies twenty-two Danish miles from Copenhagen. In the year 1805 there lived here, in a small mean room, a young married couple, who were extremely attached to each other; he was a shoemaker, scarcely twenty-two years old, a man of a richly gifted and truly poetical mind. His wife, a few years older than himself, was ignorant of life and of the world, but possessed a heart full of love. The young man had himself made his shoemaking bench, and the bedstead with which he began housekeeping; this bedstead he had made out of the wooden frame which had borne only a short time before the coffin of the deceased Count Trampe, as he lay in state, and the remnants of the black cloth on the wood work kept the fact still in remembrance. Instead of a noble corpse, surrounded by crape and wax-lights, here lay, on the second of April, 1805, a living and weeping child, that was myself, Hans Christian Andersen. During the first day of my existence my father is said to have sate by the bed and read aloud in Holberg, but I cried all the time. "Wilt thou go to sleep, or listen quietly?" it is reported that my father asked in joke; but I still cried on; and even in the church, when I was taken to be baptized, I cried so loudly that the preacher, who was a passionate man, said, "The young one screams like a cat!" which words my mother never forgot. A poor emigrant, Gomar, who stood as godfather, consoled her in the mean time by saying that the louder I cried as a child, all the more beautifully should I sing when I grew older.

Electronic Circuits World Scientific

Introduces the student to the basic unit of electricity, the electron, and uses this building block to formulate theoretical concepts and basic electrical laws, including Ohm's and Kirchoff's laws. The text also includes over 30 experiments.

Factors Affecting Mobile Phone Brand Preference. Empirical Study on Sri Lankan University Students Markosia Enterprises

Electronics explained in one volume, using both theoretical and practical applications. Mike Tooley provides all the information required to get to grips with the fundamentals of electronics, detailing the underpinning knowledge necessary to appreciate the operation of a wide range of electronic circuits, including amplifiers, logic circuits, power supplies and oscillators. The 5th edition includes an additional chapter showing how a wide range of useful electronic applications can be developed in conjunction with the increasingly popular Arduino microcontroller, as well as a new section on batteries for use in electronic equipment and some additional/updated student assignments. The book's content is matched to the latest pre-degree level courses (from Level 2 up to, and including, Foundation Degree and HND), making this an invaluable reference text for all study levels, and its broad coverage is combined with practical case studies based in real-world engineering contexts. In addition, each chapter includes a practical investigation designed to reinforce learning and provide a basis for further practical work. A companion website at <http://www.key2electronics.com> offers the reader a set of spreadsheet design tools that can be used to simplify circuit calculations, as well as circuit models and templates that will enable virtual simulation of circuits in the book. These are accompanied by online self-test multiple choice questions for each chapter with automatic marking, to enable students to continually monitor their own progress and understanding. A bank of online questions for lecturers to set as assignments is also available.
