Does history matter? This book argues not that history matters, but that Islamic history does. This Very Short Introduction introduces the story of Islamic history; the controversies surrounding its study; and the significance that it holds - for Muslims and for non-Muslims alike. Opening with a lucid overview of the rise and spread of Islam, from the seventh to twenty first century, the book charts the evolution of what was originally a small, localised community of believers into an international religion with over a billion adherents. Chapters are also dedicated to the peoples - Arabs, Persians, and Turks - who shaped Islamic history, and to three representative institutions - the mosque, jihad, and the caliphate - that highlight Islam's diversity over time. Finally, the roles that Islamic history has played in both religious and political contexts are analysed, while stressing the unique status that history enjoys amongst Muslims, especially compared to its lowly place in Western societies where history is often seen as little more than something that is not to be repeated. Some of the questions that will be answered are: · How did Islam arise from the obscurity of seventh century Arabia to the headlines of twenty first century media? · How do we know what we claim to know about Islam's rise and development? ·

Why does any of this matter, either to Muslims or to non-Muslims?

This selection of poetry and prose by Ghalib provides an accessible and wide-ranging introduction to the preeminent Urdu poet of the nineteenth century. Ghalib's poems, especially his ghazals, remain beloved throughout South Asia for their arresting intelligence and lively wit. His letters—informal, humorous, and deeply personal—reveal the vigor of his prose style and the warmth of his friendships. These careful translations allow readers with little or no knowledge of Urdu to appreciate the wide range of Ghalib's poetry, from his gift for extreme simplicity to his taste for unresolvable complexities of structure. Beginning with a critical introduction for nonspecialists and specialists alike, Frances Pritchett and Owen Cornwall present a selection of Ghalib's works, carefully annotating details of poetic form. Their translation maintains line-for-line accuracy and thereby preserves complex poetic devices that play upon the tension between the two lines of each verse. The book includes whole ghazals, selected individual verses from other ghazals, poems in other genres, and letters. The book also includes a glossary, the Urdu text of the original poetry, and an appendix containing Ghalib's comments on his own verses.

This gripping memoir by a former American intelligence operative is a vivid portrait of a spy at every stage of his life and career. Raised in various countries around the world as the son of an American spymaster, Larry Kolb tells how his father taught him to think, look and listen like a spy, and how a friend and colleague of his father attempted to recruit him to the CIA. several professional athletes, including Muhammad Ali - brought him into contact with many of the world's wealthiest and most powerful men, making him irresistible to master spy and CIA co-founder, Miles Copeland. Washuta's voice sears itself onto the skin." —The New York Times Book Review Bracingly honest and powerfully affecting,

White Magic establishes Elissa Washuta as one of our best living essayists. Throughout her life, Elissa Washuta has been surrounded by cheap facsimiles of Native spiritual tools and occult trends, "starter witch kits" of sage, rose quartz, and tarot cards packaged together in paper and plastic. Following a decade of abuse, addiction, PTSD, and heavy-duty drug treatment for a misdiagnosis of bipolar disorder, she felt drawn to the real spirits and powers her dispossessed and discarded ancestors knew, while she undertook necessary work to find love and meaning. In this collection of intertwined essays, she writes about land, heartbreak, and colonization, about life without the escape hatch of intoxication, and about how she became a powerful witch. She interlaces stories from her forebears with cultural artifacts from her own life—Twin Peaks, the Oregon Trail II video game, a Claymation Satan, a YouTube video of Stevie Nicks and Lindsey Buckingham—to explore questions of cultural inheritance and the particular danger, as a Native woman, of relaxing into romantic love under colonial rule.
