### **The Shallows: What the Internet Is Doing to Our Brains**

Hal Leonard Corporation  
Recipient of the Jo Anne Stolaroff Cotsen Prize Volume 2 presents the concluding research on Sitagroi, a prehistoric settlement mound in northeastern Greece, excavated between 1968 and 1970. This volume offers a detailed report on the plant remains along with a full treatment of craft and technology: artifacts of adornment; tools of bone and flaked stone; artifacts and tools of bone and ground and polished stone (and petrology); tools of the spinner, weaver and mat maker; pottery technology; metallurgy; and special clay finds such as seals, miniatures, and utensils. This rich presentation offers unparalleled insights into the life of the prehistoric inhabitants of the area. Sitagroi now becomes one of the most comprehensively published sites from prehistoric Europe and will be indispensable for all those concerned with European prehistory.

**Life at the Shallow End** HarperCollins  
New York Times bestselling author and daughter of Judy Garland tells the story of *A Star Is Born* -- at once the crowning achievement and greatest disappointment in her mother's legendary career. This is a vivid account of a film classic's production, loss, and reclamation. *A Star Is Born* -- the classic Hollywood tale about a young talent rising to superstardom, and the downfall

of her mentor/lover along the way -- has never gone out of style. It has seen five film adaptations, but none compares to the 1954 version starring Judy Garland in her greatest role. But while it was the crowning performance of the legendary entertainer's career, the production turned into one of the most talked about in movie history. The story, which depicts the dark side of fame, addiction, loss, and suicide, paralleled Garland's own tumultuous life in many ways. While hitting alarmingly close to home for the fragile star, it ultimately led to a superlative performance -- one that was nominated for an Academy Award, but lost in one of the biggest upsets in Oscar history. Running far too long for the studio's tastes, Warner Bros. notoriously slashed extensive amounts of footage from the finished print, leaving *A Star Is Born* in tatters and breaking the heart of both the film's star and director George Cukor. Today, with a director's cut reconstructed from previously lost scenes and audio, the 1954 *A Star Is Born* has taken its deserved place among the most critically acclaimed movies of all time, and continues to inspire each new generation that discovers it. Now, Lorna Luft, daughter of Judy Garland and the film's producer, Sid Luft, tells the story of the production, and of her mother's fight to save her career, as only she could. Teaming with film historian Jeffrey Vance, *A Star Is Born* is a vivid and refreshingly candid account of the crafting, loss, and restoration of a movie classic, complemented by a trove of images from the family collection taken both on and off the set. The book also includes

essays on the other screen adaptations of *A Star Is Born*, to round out a complete history of a story that has remained a Hollywood favorite for close to a century.

**Sub-Merge** W. W. Norton & Company  
This book, developed by the president of CLASServices, is a light yet powerful affirmation of those lessons learned in difficult places. After all, some of the most laughable things now are those we once cried about.

*Queen - Easy Piano Collection* Hal Leonard Publishing Corporation  
Caleb and Shallow, a heartwarming story for anyone who has ever owned a dog or wanted one, tells of the trusting friendship and unconditional love between a boy and his dog. Shallow prides himself on being the boss, which turns out to be his downfall. Twelve-year-old Caleb, who has persevered through trials of his own, rescues Shallow from near death and nurses him back to health. But Caleb's troubles are just beginning, and they are all because of his new best friend, Shallow.

**Selfish, Shallow, and Self-Absorbed** Hal Leonard Corporation  
SIXTEEN LITERARY LUMINARIES ON THE CONTROVERSIAL SUBJECT OF BEING CHILDLESS BY CHOICE, COLLECTED IN ONE FASCINATING ANTHOLOGY One of the main topics of cultural conversation during the last decade was the supposed "fertility crisis," and whether modern women could figure out a way to have it all—a successful, demanding career and the required 2.3 children—before their biological clock stopped ticking. Now, however, conversation has turned to whether it's necessary to have it all (see Anne-Marie Slaughter) or, perhaps more controversial, whether children are really a requirement for a fulfilling life. The idea that some women and men prefer

not to have children is often met with sharp criticism and incredulity by the public and mainstream media. In this provocative and controversial collection of essays, curated by writer Meghan Daum, sixteen acclaimed writers explain why they have chosen to eschew parenthood. Contributors include Lionel Shriver, Sigrid Nunez, Kate Christensen, Elliott Holt, Geoff Dyer, and Tim Kreider, among others, who will give a unique perspective on the overwhelming cultural pressure of parenthood. *Selfish, Shallow, and Self-Absorbed* makes a thoughtful and passionate case for why parenthood is not the only path in life, taking our parent-centric, kid-fixated, baby-bump-patrolling culture to task in the process. What emerges is a more nuanced, diverse view of what it means to live a full, satisfying life.

*The Dramatic Works and Poems of William Shakespeare* Hachette UK  
Shallow Hill is where souls suffer slow and miserable deaths. When River McAllister escaped from Shallow Hill, she left her innocence behind—and some of her sanity, too. Now she's rebuilding her life with her dream man and life couldn't be better. Ryan Fitzgerald is everything you'd want in a man. Attractive, rich, an aspiring lawyer, and would do anything to keep River. But that's not the only thing that attracts her. It's his attentiveness, his possessiveness... maybe not so much his temper. When her relationship takes a dark turn, Ryan's estranged brother, Mako, is the only one who sees it. He knows exactly what Ryan is capable of, and it's not the first time he had to be a knight in shining armor. River came from Shallow Hill, though. She's never needed saving before. What Mako doesn't see, is that River is perfectly capable of taking care of herself. The only one who should be

scared is Ryan. *Trigger Warning: Shallow River* is a dark romance that contains domestic violence, rape, violence, and sexual situations.

*Society Of The Spectacle* Penguin UK

A teen girl disappears from her small town deep in the bayou, where magic festers beneath the surface of the swamp like water rot, in this chilling debut supernatural thriller for fans of Natasha Preston, Karen McManus, and Rory Power. La Cachette, Louisiana, is the worst place to be if you have something to hide. This tiny town, where seventeen-year-old Grey spends her summers, is the self-proclaimed Psychic Capital of the World—and the place where Elora Pellerin, Grey's best friend, disappeared six months earlier. Grey can't believe that Elora vanished into thin air any more than she can believe that nobody in a town full of psychics knows what happened. But as she digs into the night that Elora went missing, she begins to realize that everybody in town is hiding something—her grandmother Honey; her childhood crush Hart; and even her late mother, whose secrets continue to call to Grey from beyond the grave. When a mysterious stranger emerges from the bayou—a stormy-eyed boy with links to Elora and the town's bloody history—Grey realizes that La Cachette's past is far more present and dangerous than she'd ever understood. Suddenly, she doesn't know who she can trust. In a town where secrets lurk just below the surface, and where a murderer is on the loose, nobody can be presumed innocent—and La Cachette's dark and shallow lies may just rip the town apart.

**Famous People** Xlibris Corporation (Educational Piano Library). Eight beautiful arrangements of Adele's songs for the intermediate-level pianist. Titles:

Hello \* Make You Feel My Love \* Million Years Ago \* Rolling in the Deep \* Someone Like You \* Take It All \* Turning Tables \* When We Were Young.

*A Star Is Born* Kregel Publications

Why so few African American and Latino/a students study computer science: updated edition of a book that reveals the dynamics of inequality in American schools. The number of African Americans and Latino/as receiving undergraduate and advanced degrees in computer science is disproportionately low. And relatively few African American and Latino/a high school students receive the kind of institutional encouragement, educational opportunities, and preparation needed for them to choose computer science as a field of study and profession. In *Stuck in the Shallow End*, Jane Margolis and coauthors look at the daily experiences of students and teachers in three Los Angeles public high schools: an overcrowded urban high school, a math and science magnet school, and a well-funded school in an affluent neighborhood. They find an insidious “virtual segregation” that maintains inequality. The race gap in computer science, Margolis discovers, is one example of the way students of color are denied a wide range of occupational and educational futures. *Stuck in the Shallow End* is a story of how inequality is reproduced in America—and how students and teachers, given the necessary tools, can change the system. Since the 2008 publication of *Stuck in the Shallow End*, the book has found an eager audience among teachers, school administrators, and academics. This updated edition offers a new preface detailing the progress in making computer science accessible to all, a new postscript, and discussion questions

(coauthored by Jane Margolis and Joanna Goode).

**Turn Around Bright Eyes** Hal Leonard Corporation

The oceans and the marine environment, covering about 70% of the earth, are critically important to humans. Marine biology provides an understanding of the various organisms that inhabit this essential ecosystem. Recently, biologists encompassing a broad interdisciplinary community of researchers and industrialists have gained enormous interest in understanding the enigmas of survival, the food web, primary production, natural products, interactions and competition, communication, reproduction, evolution, diversity, fouling and many other aspects pertaining to the marine ecosystem. This book encompasses original and internationally significant contributions from all fields of marine biology that promote understanding of the current marine environment and its life forms. It offers insights from a range of scientific sub-disciplines, and will prove beneficial for students, researchers, scientists and industrialists. It addresses topics such as

bioremediation, authentication, biodiversity, as well as commercial utility.

Economic Geology of Gilpin County and Adjacent Parts of Clear Creek and Boulder Counties, Colorado A&C Black

This encyclopedia-style dictionary explores early modern social life, legal thought, and the interactions within Shakespearean drama.

*But Lord, I Was Happy Shallow* Hal Leonard

In this "captivating" (Harper's Bazaar) and lyrical debut novel—perfect for fans of *The Water Dancer* and the *Legacy of Orisha* series—the Yoruba deity of the sea, Yemaya, is brought to vivid life as she discovers the power of Black resilience, love, and feminine strength in antebellum America. *Shallow Waters* imagines Yemaya, an Orisha—a deity in the religion of Africa's Yoruba people—cast into mid-1800s America. We meet Yemaya as a young woman, still in the care of her mother and not yet fully aware of the spectacular power she possesses to protect herself and those she holds dear. The journey laid out in *Shallow Waters* sees Yemaya confront the greatest evils of this era; transcend time and place in search of Obatala, a man who sacrifices his own freedom for the chance at hers; and grow into the powerful woman she was destined to become. We travel alongside Yemaya from her native Africa and on to the "New World," with vivid pictures of life for those left on the outskirts of power in the nascent Americas. Yemaya realizes the fighter within, travels the Underground Railroad in search of the mysterious stranger Obatala, and crosses paths with icons of our history on the road to freedom. *Shallow Waters* is a "riveting and heartbreaking" (Publishers Weekly) work of ritual

storytelling from promising debut author Anita Kopacz.

**Adulting 101 Book 2** Alfred Music (Easy Piano). This sheet features an easy piano arrangement of "Shallow" from the critically acclaimed remake of *A Star Is Born*.

**Shallow** Hachette UK

Finalist for the 2011 Pulitzer Prize in General Nonfiction: "Nicholas Carr has written a *Silent Spring* for the literary mind."—Michael Agger, *Slate* "Is Google making us stupid?" When Nicholas Carr posed that question, in a celebrated *Atlantic Monthly* cover story, he tapped into a well of anxiety about how the Internet is changing us. He also crystallized one of the most important debates of our time: As we enjoy the Net's bounties, are we sacrificing our ability to read and think deeply? Now, Carr expands his argument into the most compelling exploration of the Internet's intellectual and cultural consequences yet published. As he describes how human thought has been shaped through the centuries by "tools of the mind"—from the alphabet to maps, to the printing press, the clock, and the computer—Carr interweaves a fascinating account of recent discoveries in neuroscience by such pioneers as Michael Merzenich and Eric Kandel. Our brains, the historical and scientific evidence reveals, change in response to our experiences. The technologies we use to find, store, and share information can literally reroute our neural pathways. Building on the insights of thinkers from Plato to McLuhan, Carr makes a convincing case that every information technology carries an intellectual ethic—a set of assumptions

about the nature of knowledge and intelligence. He explains how the printed book served to focus our attention, promoting deep and creative thought. In stark contrast, the Internet encourages the rapid, distracted sampling of small bits of information from many sources. Its ethic is that of the industrialist, an ethic of speed and efficiency, of optimized production and consumption—and now the Net is remaking us in its own image. We are becoming ever more adept at scanning and skimming, but what we are losing is our capacity for concentration, contemplation, and reflection. Part intellectual history, part popular science, and part cultural criticism, *The Shallows* sparkles with memorable vignettes—Friedrich Nietzsche wrestling with a typewriter, Sigmund Freud dissecting the brains of sea creatures, Nathaniel Hawthorne contemplating the thunderous approach of a steam locomotive—even as it plumbs profound questions about the state of our modern psyche. This is a book that will forever alter the way we think about media and our minds.

*The Works - Shallow Waters* Gospel Light Publications

A nameless man with nothing left to lose travels across America in a violent downward spiral in a novel that "coils and tightens like a spring" (Brian Evenson, author of *Last Days*). Alone except for his beloved bulldog, a former crime writer who's failed at his career, his marriage, and his own simple hopes makes his way across America, contemplating his own bitter past along the way. Heading home to his distant brother, he witnesses tragedies and crimes—things bad enough to bring out the killer in him. Slowly but surely, he finds himself transforming into the kind

of man he used to only write about. Full of realism and grit, Every Shallow Cut burrows deep into the darkness of America to give voice to the fears most of us never speak aloud: the terror of loss, the overwhelming dread of failure, the desperate push towards crime, the horror of missed-out, mediocre dreams. And the all-too-average explosive rage. *Nuclear Science Abstracts* North Star Editions, Inc.

It's time to change the face of poverty, to live our faith authentically and to get involved with the people who need help. It's time to sub-merge ourselves, to go deep— beneath the surface of shallow living—and make a difference in our world! Follow author John Hayes as he lives out his faith on some of the toughest streets and poorest ghettos in the world. Learn what real compassion looks like in the trenches. Discover why people of faith cannot ignore the poor and how the St. Francis model of compassion can help alleviate suffering today. You'll also be energized to action through an inside look at the workings of InnerCHANGE, a mission organization that seeks to work among the poor, rather than just offering aid and handouts. Readers will come away with practical ways they can work for justice and find significance in the process.

*Shallow (from a Star Is Born)*

AuthorHouse

Growing old is mandatory. Growing up is optional. Welcome to your twenties: the land of in-between. It's a decade of transition and change that carries an

expectation of figuring it all out by thirty. Many of us launch into this season of life feeling woefully unprepared and anxious, wondering how we can already feel so lost. *Adulting 101 Book 2:*

Be the best you and live your best life.

In a Shallow Grave Picador

"Til It Happens to You" is a piano ballad featured prominently in the documentary film *The Hunting Ground*, which addresses the sensitive and timely topic of sexual assault on college campuses. Performed by Lady Gaga and penned by songwriting legend Diane Warren, the tune hangs on an emotive arrangement appropriate to the song's heavy subject matter. This Original Sheet Music Edition captures the depth of that recording in piano/vocal/guitar format, complete with single art and lyrics.
