This book talks of different business

situations and the process of engineering Management Information System (MIS) framework for these business situations. This text is not aimed to cover the theoretical concepts related to MIS but consciously makes an effort towards application of these concepts to various business domains. There are thousands of ways of developing MIS solutions for a business situation. But the perfect fit is rare. This text explains simple techniques of developing perfect fit MIS solutions for specific business situations. The text is specifically written to successfully bridge

the gap between MIS concepts and their applications. The text is most suitable for students pursuing various management and computer courses at graduation and post graduation levels.
