Winner of the 2021 Boston Globe Horn Book Award for Nonfiction Longlisted for the 2021 National Book Award for Young People's Literature Finalist for the 2022 YALSA Award for Excellence in Young Adult Nonfiction An NPR Best Book of 2021 A Washington Post Best Children's Book of 2021 A Time Young Adult Best Book of 2021 A Kirkus Reviews Best Children's Book of 2021 A Publishers Weekly Best Young Adult Book of 2021 A School Library Journal Best Book of 2021 A Horn Book Best Book of 2021 A compelling account of the killing of Vincent Chin, the verdicts that took the Asian American community to the streets in protest, and the groundbreaking civil rights trial that followed. America in 1982: Japanese car companies are on the rise and believed to be putting U.S. autoworkers out of their jobs. Anti-Asian American sentiment simmers, especially in Detroit. A bar fight turns fatal, leaving a Chinese American man, Vincent Chin, beaten to death at the hands of two white men, autoworker Ronald Ebens and his stepson, Michael Nitz. Paula Yoo has crafted a searing examination of the killing and the trial and verdicts that followed. When Ebens and Nitz pled guilty to manslaughter and received only a \$3,000 fine and three years' probation, the lenient sentence sparked outrage. The protests that followed led to a federal civil rights trial—the first involving a crime against an Asian American—and galvanized what came to be known as the Asian American movement. Extensively researched from court transcripts, contemporary news accounts, and in-person interviews with key participants, *From a Whisper to a Rallying Cry* is a suspenseful, nuanced, and authoritative portrait of a pivotal moment in civil rights history, and a man who became a symbol against hatred and racism.

In April 2018, Armenia experienced a remarkable popular uprising leading to the resignation of Prime Minister Serzh Sargsyan and his replacement by protest leader Nikol Pashinyan. Evoking Czechoslovakia's similarly peaceful overthrow of communism 30 years previously, the uprising came to be known as Armenia's 'Velvet Revolution': a broad-based movement calling for clean government, democracy and economic reform. This volume examines how a popular protest movement, showcasing civil disobedience as a mass strategy for the first time in the post-Soviet space, overcame these unpromising circumstances. Situating the events in Armenia in their national, regional and global contexts, different contributions evaluate the causes driving Armenia's unexpected democratic turn, the reasons for regime vulnerability and the factors mediating a non-violent outcome. Drawing on comparative perspectives with democratic transitions across the world, this book will be essential reading for those interested in the regime dynamics, social movements and contested politics of contemporary Eurasia, as well as policy-makers and practitioners in the fields of democracy assistance and human rights in an increasingly multipolar world.

Armenia's Velvet Revolution Av2 by Weigl

Jim Clark was a genuine sporting hero. He won 25 of his 72 Grands Prix and in the sixties was the yardstick by which every other driver on the starting grid was judged, and by which they judged themselves. Quite simply, Clark was peerless. Stubborn and notoriously indecisive outside the car, he would nervously chew his fingernails, but he was a genius when he got behind the wheel. To many he remains the greatest racing driver of all time,

not just because of his fearsome strike rate and the magnitude and manner of his achievements, but also because he remained humble and unspoiled throughout. Published on the 50th anniversary of Clark's death, this book, 20 years in the making, is a deeply detailed look at a complex and compelling character.

Hayden Paddon was just a boy growing up in Geraldine - in love with racing and dreaming big. Starting with nothing, and wholly determined to beat the odds, he set out on a remarkable 20-year pathway to the World Rally Championship, where he footed it with the best rally drivers on the planet. But it didn't come easy. In *Driven*, Paddon details the many highs and lows along the road to the top. He opens up about his struggles with bullying, depression and loss as a young man, and goes on public record for the first time about the 2017 accident in which a spectator was killed and his controversial dismissing from the Hyundai Motorsport team in 2018. It's the real account from Paddon himself, in his own words, as he sets the record straight about his dramatic life on and off the road. *Driven* is captivating, complex and inspirational - a mile-a-minute biography that celebrates self-belief, hard work, and turning dreams into a reality.

The deeply moving account of the extraordinary teenage survivors of the Parkland shooting. Emma Gonzalez called BS. David Hogg called out Adult America. Cameron Kasky recruited a colorful band of teenagers. Four days after escaping Marjory Stoneman Douglas High School, they announced the audacious March for Our Lives. A month later, it was the fourth largest protest in American history. Dave Cullen takes us on the students'

odyssey. With unrivaled access to their friends and families, meetings, homes and tour bus through gun country, he reveals the quirky, playful organizers that have taken the United States by storm. We see the students cope with shattered friendships and PTSD, along with the normal struggles of exams and college acceptances. We see victims refusing victimhood. This spell-binding book is a testament to change and an examination of a pivotal moment in American culture, a generational struggle to save every kid of every color from the ravages of gun violence. Parkland is a story of staggering empowerment and hope, told through the wildly creative and wickedly funny voices of a group of remarkable campaigners.

In *Rally on Two*, Hank Bennett was happily married with a young child until he loses everything in a devastating accident. While trying to cope with the realities of his new life, Hank is also trying to manage an ongoing law practice. While struggling to make it day to day, he is assigned a pro bono criminal case where a young boy is fighting to prove his innocence, and he takes on a whistle-blower case that may finally provide the answers to explain a family's untimely death. Hank's chance at recovery is strengthened when he is asked to coach a local little league team. In many ways, his time working with his young baseball players becomes a metaphor for Hank's life. Hank begins to understand that just like in baseball, there are wins and losses in everyone's life. At the end of the day, when Hank is facing two outs in his own life, he has the chance to give up or fight for his own redemption. He has the chance to rally on two. The question is - can he do it?

Abortion remains one of the most politicized issues globally and whilst some countries such as the USA continue to experience restrictions to access to abortion, Northern Ireland stands out as having enacted historical positive change in abortion law, from an almost complete ban throughout the Twentieth Century to decriminalization achieved in 2019. This book documents and analyzes how this historical change was achieved. This, the second of two volumes, places emphasis on allies and support for abortion provision, illustrating how the movement has relied upon an intersectional network of social movement actors, NGOs and fundraisers to maintain momentum and inclusivity. It also focuses

on the reality of abortion provision. Each chapter is written by those directly involved in the long-fought battle to change abortion law - including those with personal experience of seeking abortions, activists, academics, legal experts, political actors, NGOs, and volunteers. This interdisciplinary text will be of relevance to academics and students in the disciplines of law, policy, political science, and sociology, but also to organizers and policy makers in other global contexts and across other social justice campaigns.

RAC Rally Action! truly represents an enthusiast's view of the RAC Rally: allowing you to relive the events if you were there, or offering the next best thing if you weren't. Tony Gardiner always took a week of his annual leave to watch "The RAC." and reckons he covered more than 28,000 miles chasing rally stages around the country. Luckily for us, he always took his trusty Zenit camera and recorded hundreds of moments of RAC Rally action, each now frozen in time for posterity. These images, which have not previously been published, have an energy which brings the rally back to life and reminds us how far removed modern rallying is from the much simpler pre-WRC era. For all who love the 'Rally of the Forests' period of top level rallying, here is an incredibly involving evocation of three decades of great motorsport. All aspects of the event are covered including rare photos from manufacturers' archives, rally documents (regulations, programmes, road books, crew notes), and a full-color cutaway illustration of a famous winning car. This publication has full approval of the Royal Automobile Club and the Motor Sports Association.

"A powerful YA novel about identity and prejudice."

—Entertainment Weekly Bijan Majidi is: Shy around girls Really into comics Decent at basketball Bijan Majidi is not: A terrorist What happens when a kid who's flown under the radar for most of high school gets pulled off the bench to make the winning basket in a varsity playoff game? If his name is Bijan Majidi, life is suddenly high fives in the hallways and invitations to exclusive parties—along with an anonymous photo sent by a school cyberbully that makes Bijan look like a terrorist. The administration says they'll find and punish the culprit. Bijan wants to pretend it never happened. He's not ashamed of his Middle

Eastern heritage; he just doesn't want to be a poster child for Islamophobia. Lots of classmates rally around Bijan. Others make it clear they don't want him or anybody who looks like him at their school. But it's not always easy to tell your enemies from your friends. *Here to Stay* is a painfully honest, funny, authentic story about growing up, speaking out, and fighting prejudice.

We thought it couldn't get any better, but it did. The 2019 World Rally Championship will go down as a highly memorable season with a nail-biting battle for ultimate honours. The sport's top three drivers fought intensely for the Drivers' title over 14 diverse and challenging rounds across the globe. Chile joined the calendar for the first time and, like many of the existing rallies, it drew huge crowds on the stages. New talent shone too. 18-year-old Kalle Rovanpera took his opportunity in the new WRC2 Pro category, landing a full time WRC drive in 2020 as a reward. McKlein Publishing launched the Moving Moments Rallying yearbook concept in 2017. The book was very well received leading to a bigger and better version for 2018. Simultaneously McKlein released backdated Rallying yearbooks starting with the 1967 season and latterly the magnificent 512-page documentation of 1977. The bigger and better trend continues for 2019 with McKlein's best images used lavishly over many double page spreads. Anthony Peacock's texts, in the form of short rally-by-rally summaries, complement the photography perfectly, while a series of insightful vignettes, often emotional, sometimes nostalgic, provide the Moving Moments. Rallying 2019 is a permanent and colorful record of an epic WRC season and a must-have in this collectable series.

Rally on Two Mohr Siebeck

The ascendancy of Donald J. Trump to the office of president was not a fluke. Changes in the media environment and changes in the political landscape converged and provided fertile ground for a demagogic populist to exploit existing structures for his personal and political gains. A right-wing ecosystem had developed that included cable television, talk radio, social media, and imageboards. The political rise of Trump occurred alongside a mainstreaming of far-right politics and a skepticism towards long-established institutions. Trump was able to exploit the shifts in

politics and the media environment for his political gain. He deployed a post-truth strategy that challenged established media and political institutions and their claims to be arbiters of truth and protectors of democracy. This book explores the shifts in the media environment that made the political career of Donald Trump possible. The author shows the ways that Trump was able to inhabit the new media and political landscape and take advantage of journalistic norms and practices that were susceptible to exploitation by a demagogue with no allegiance to the truth and no reverence towards the foundations of liberal democracy. Understanding the ways in which Trump was able to emerge as a powerful political force is essential to those invested in challenging the momentum of the alt-right and forwarding the project of democracy.

The most dangerous race in the galaxy is the race against time. And the second most dangerous race? The Galactic Great Council believes it's the Humans. However, as the captain and officers of the Earth ship Marco Polo are about to find out, Humanity has plenty of competition for that title. While visiting Kula'as, Captain Takamura and his crew are recruited by aliens for a covert mission. The Thryggians may be close to breaking out of their pocket universe using a psi-powered heavy ship left over from an ancient war. If they succeed in activating the ship, they'll be unstoppable. Can a bickering bunch of Humans and aliens work together to find and steal the vessel before it is too late?

Long before it took the home video game console market by storm, Sega was already an arcade powerhouse. Parlaying its dominance in coin-operated machines into the home video game boom of the 1980s, the Japan-based company soon expanded with branches in Europe and the U.S., and continues to lead the gaming industry in design and quality. Drawing on interviews with former developers and hundreds of documents, this history follows the rise of Sega, from its electromechanical machines of the mid-1960s to the acquisition of Gremlin Industries to its 2003 merger with Sammy Corporation. Sixty-two of Sega's most popular and groundbreaking games are explored.
