I wonder.... What is the

reason behind making some people become wildly successful in business and why others fall flat. Some people excellent while others are not?! Some people are successful while others are not?! Also, you can find one who lives their life better, makes their dreams come true, and gets their goals achieved while others are not?! When I started Effortless English, I was making very little money. I started the business with only 200 dollars. Most people thought I would fail. However, I had a secret advantage-- even though I was making very little money at my job, I was spending even less. I had a big positive gap. A J HOGE I admit that my recipe for economic "success" is quite different than the advice you'll get from most people. Bookstores are filled with books about making money and getting rich. But they all come with certain basic philosophical assumptions-- mainly that MORE money is always better and that the key to "success" is to be rich. Even books that I recommend, such as The 4-Hour Workweek or Your

Portable Empire, have an underlying philosophy of "getting rich". All of these writers are firmly centered in mainstream capitalist thinking. A J HOGE The definition of wealth is: 'The number of days you can survive, without physically working (or anyone else in your household working) and still maintain your standard of living.' For example: If your monthly expenses are \$1000 and if you have \$3000 in savings, your wealth is approximately 3 months or 90 days. Wealth is measured in time, not dollars. To become successful quickly, become an expert at solving a certain type of problem. Don't diversify. Become an expert at solving that one type of problem and people will come to you. Then, if you are good and trustworthy, you will reach your financial fast track more quickly." --Robert Kiyosaki "If you're remarkable, it's likely that some people won't like you. That's part of the definition of being remarkable. Nobody gets unanimous praise ever. The best the timid can hope for is to be unnoticed. Criticism comes to

those who stand out." 'I'm trying to lead change and induce risk-taking at my company. Got any ideas? How should I do it'I've probably heard that question a thousand times or more. For years, in response to that question, I waffled. I'd launch a little rant on leadership. Whatever. Not wrong. But not right, either. Lately, I've changed my tune.'There is only one way, ' I boldly proclaim.'Find Heroes. Do Demos. Tell Success Stories' To elaborate: We need heroes: Exemplars of the Exciting New Way of Doing Things.We need demos: Palpable Proof that this Exciting New Way of Doing Things is eminently do-able. We need stories: Riveting Tales that fire the imagination of the rest of our heroes-in-waiting."-- Tom Peters, Business Consultant, [www.tompeters.com](http://www.tompeters.com)Now in the last chapter we talked about the demo phase. How do you get started quickly? Now, there's a great quote. I believe it's from Joe Vitale but I don't remember, honestly, who said it but the quote is this. "Money loves speed." "Money loves speed." That means that in business it's better to be fast than to be

perfect. The number one problem I see with people trying to start a business is they're too slow. I have a lot of friends. I have, actually, family members also, who talk to me about starting a business and they talk and they talk and they plan and they plan and they plan. They think they need to write, you know, a 50-page business plan and they think everything needs to be perfect before they start. So, of course, usually they never start. Even if they do start, guess what? The plan doesn't work.

School is a pervasive element in our lives - but one that goes mostly unquestioned. Most discussions get caught up in details of policy reform and leave the idea of school itself alone. The End of School changes that. Offering a radical, but even-handed, look at the purpose of education and the reality of school, Slayback develops a manifesto for how young people, parents,

educators, and employers can move beyond school and take control of education. Slayback -- an entrepreneur and Ivy League dropout -- talks about his own disenchantment with school. Despite being an excellent student and loving learning, he became convinced that school was not achieving its end of providing the best education possible. Other students, business partners, intellectuals, and parents convinced him along the way. *The End of School* is a look -- both theoretical and practical -- at how to fix that. Slayback addresses the book to students, educators, parents, and employers of all stripes and ages. Whether you're a high school or college student, a recent graduate, a parent of a young person, a teacher, or an entrepreneur, you'll want to pick up *The End of School*. Some of the topics explored include: - The Purpose of Education - The Purpose of School - The Reality of School - Different Types of Schooling - The Effects of Schooling on Your Future - How to Reverse the Negative Effects of Schooling - How to Take Control of Your Education Outside of School - How to

Succeed Without a College Degree - Entrepreneurship vs. School as the Ideal Education And more!
