In the Benoit family, there is the father, Pierre, a scientist specializing in infectious diseases; the mother, Dominique, a teacher ; and their two children : Julie and Philippe, both adolescents. It is a French family that is about to

make an important decision... or, better yet, about to cross an entire ocean, to spend two years in the United States where Pierre has been invited by the NIH. It is a small group that is understandably a bit overwhelmed by this experience, readying itself to fly off to Washington where it will establish itself, where it will learn and understand the lifestyle of the Americans, will touch all facets of this country, will make friends, study, and live in its own way, the "American way

of life". From east to west, from north to south, the Benoit family wanders around the United States of America and, beyond, it embraces the New World in its diversity, its particularities, its thinking patterns, its culture, its customs, its myths. More human and sensitive than a tourist guide, more vibrant than a simple reporting on one or another aspect of American life, it is a veritable invitation to us to peruse the described cities and countrysides. This novel of Norman

Gaudrault and Georges Idier offers us a total immersion into a society that is both fascinating and attractive. Turn the pages and embark on an adventure that risks welling up in you many desires !

As words and stories are increasingly disseminated through digital means, the significance of the book as object—whether pristine collectible or battered relic—is growing as well. Unpacking My

Library: Writers and Their Books spotlights the personal libraries of thirteen favorite novelists who share their collections with readers. Stunning photographs provide full views of the libraries and close-ups of individual volumes: first editions, worn textbooks, pristine hardcovers, and childhood companions. In her introduction, Leah Price muses on the history and future of the bookshelf, asking what books can tell us about their owners and what readers can tell us about

their collections. Supplementing the photographs are Price's interviews with each author, which probe the relation of writing to reading, collecting, and arranging books. Each writer provides a list of top ten favorite titles, offering unique personal histories along with suggestions for every bibliophile. *Unpacking My Library: Writers and Their Books* features the personal libraries of Alison Bechdel, Stephen Carter, Junot Díaz, Rebecca Goldstein and Steven

Pinker, Lev Grossman and Sophie Gee, Jonathan Lethem, Claire Messud and James Wood, Philip Pullman, Gary Shteyngart, and Edmund White. *La Peste de Marseille* Société des Écrivains This is Colette's famous love story about the romance between an older woman and a younger man. Léa de Lonval is a magnificent and aging courtesan facing the end of her career. She has devoted the last six years to the amorous education of the exquisitely handsome and

spoilt Chéri - a playboy half her age. When an advantageous marriage is arranged for Chéri, Léa reluctantly decides their relationship must end. But neither lover can foresee how deeply they are connected, or how much they will have to give up. First published in 1920, it was instantly greeted by Marcel Proust and André Gide as a masterpiece. « La Peste » est un roman

d'Albert Camus publié en 1947 qui permet en partie à son auteur de remporter le prix Nobel en 1957. Il appartient au cycle de la révolte qui rassemble trois œuvres de Camus: La Peste, L'Homme révolté et Les Justes L'histoire se déroule dans les années 1940. Elle a pour théâtre Oran durant la période de l'Algérie française. Le roman raconte sous forme de chronique la vie quotidienne des habitants pendant une épidémie de peste qui frappe la ville et la coupe du monde

extérieur. Camus semble s'être documenté sur une petite épidémie de peste bubonique, survenue à Oran en 1945, succédant à une épidémie plus sérieuse qui avait eu lieu à Alger en 1944, mais son projet est antérieur à l'apparition de ces épidémies, puisqu'il y travaille depuis 1942 (comme en témoignent ses « Carnets »).

The unfinished manuscript of *The First Man* was discovered in the wreckage of car accident in which Camus died in 1960. Although it was not published for over thirty years, it was an instant bestseller when it finally appeared in 1994. The

'first man' is Jacques Cormery, whose poverty-stricken childhood in Algiers is made bearable by his love for his silent and illiterate mother, and by the teacher who transforms his view of the world. The most autobiographical of Camus's novels, it gives profound insights into his life and the powerful themes underlying his work.

This fictional story is about a young man who works as a clerk in Algiers. He seems to lack the basic emotions and reactions that are required of him. He observes the facts of life from the outside and when involved in a violent incident the results in a disturbing trial, he considers his own feelings and the actions of others with a calm and almost ironic truthfulness.

This book examines diseases and disasters from the perspective of social and political theory, exploring the ways in which political leaders, social activists, historians, philosophers, and writers have tried to make sense of the catastrophes that have plagued humankind from Thucydides to the present COVID pandemic. By adopting the perspective of political theory, it sheds light on what these individuals and events can teach us about politics, society,

and human nature, as well as the insights and limitations of political theory. Including thinkers such as Thucydides, Sophocles, Augustine, Bacon, Locke, Hume, Rousseau, Publius, Bartolomé de las Casas, Jane Addams, Camus, Saramago, Baudrillard, Weber, Schmitt, Voegelin and Agamben, it considers a diverse range of events including the plagues of Byzantium and 14th century Europe, 9/11, the hurricanes of Fukushima, Boxing Day, and New Orleans, and the

current COVID pandemic. An examination of past, present, and future diseases and disasters, and the ways in which individuals and societies react to them, this volume will appeal to scholars of politics, sociology, anthropology and philosophy with interests in disaster and the social body.

Modern Languages Study Guides: L'Étranger

By 1520, Niccolò Machiavelli's life in Florence was steadily improving: he had

achieved a degree of literary fame, and, following his removal from the Florentine Chancery by the Medici family, he had managed to gain their respect and patronage. But there is one figure whose substantial contributions to Machiavelli's restoration has been hitherto neglected – Lorenzo di Filippo Strozzi (1482-1549), a younger and fabulously wealthy Florentine nobleman. As manuscript evidence suggests, Strozzi brought Machiavelli into his

patronage network and aided many of his post-1520 achievements. This book is the first English biography of Strozzi, as well as the first examination of the patron-client relationship that developed between the two men. William J. Landon reveals Strozzi's influence on Machiavelli through wide-ranging textual investigations, and especially through Strozzi's *Pistola fatta per la peste* – a work that survives as a Machiavelli autograph, and for which Landon has provided the

first ever complete English translation and critical edition.

This book offers an analysis of the French clitic object pronouns *lui* and *le* in the radically functional Columbia school framework, contrasting this framework with sentence-based treatments of case selection. It suggests that features of the sentence such as subject and object

relations, normally taken as pretheoretical categories of observation about language, are in fact part of a theory of language which does not withstand empirical testing. It shows that the correct categories are neither those of structural case nor those of lexical case, but rather, semantic ones. Traditionally, anomalies in the selection of dative and accusative case in French, such as case government, use of the dative for possession and disadvantaging, its use in the faire-causative

construction, and other puzzling distributional irregularities have been used to support the idea of an autonomous, non-functional central core of syntactic phenomena in language. The present analysis proposes semantic constants for *lui* and *le* which render all their occurrences explicable in a straightforward way. The same functional perspective informs issues of cliticity and pronominalization as well. The solution offered here emerges from an

innovative instrumental view of linguistic meaning, an acknowledgment that communicative output is determined only partially and indirectly by purely linguistic input, with extralinguistic knowledge and human inference bridging the gap. This approach entails identification of the pragmatic factors influencing case selection and a reevaluation of thematic-role theory, and reveals the crucial impact of discourse on the structure as well as the

functioning of grammar. One remarkable feature of the study is its extensive and varied data base. The hypothesis is buttressed by hundreds of fully contextualized examples and large-scale counts drawn from modern French texts.

One of Russia's most renowned literary figures and a Man Booker International Prize nominee, Ludmila Ulitskaya presents what may be her final novel. *Jacob's Ladder* is a family

saga spanning a century of recent Russian history—and represents the summation of the author's career, devoted to sharing the absurd and tragic tales of twentieth-century life in her nation. Jumping between the diaries and letters of Jacob Ossetsky in Kiev in the early 1900s and the experiences of his granddaughter Nora in the theatrical world of Moscow in the 1970s and beyond, *Jacob's Ladder* guides the reader through some of the most turbulent times in the

history of Russia and Ukraine, and draws suggestive parallels between historical events of the early twentieth century and those of more recent memory. Spanning the seeming promise of the prerevolutionary years, to the dark Stalinist era, to the corruption and confusion of the present day, Jacob's Ladder is a pageant of romance, betrayal, and memory. With a scale worthy of Tolstoy, it asks how much control any of us have over our lives—and how much is in fact

determined by history, by chance, or indeed by the genes passed down by the generations that have preceded us into the world.

Architectural Drawings as Investigating Devices
Penguin Classics
Architectural Drawings as Investigating Devices explores how the changing modes of representation in architecture and urbanism relate to the transformation of how the addressees of architecture and urbanism are conceived. The book

diagnoses the dominant epistemological debates in architecture and urbanism during the 20th and 21st centuries. It traces their transformations, paying special attention to Le Corbusier and Ludwig Mies van der Rohe's preference for perspective representation, to the diagrams of Team 10 architects, to the critiques of functionalism, and the upgrade of the artefactual value of architectural drawings in Aldo Rossi, John Hejduk, Peter Eisenman, and Oswald

Mathias Ungers, and, finally, to the reinvention of architectural programme through the event in Bernard Tschumi and the Office for Metropolitan Architecture (OMA). Particular emphasis is placed on the spirit of truth and clarity in modernist architecture, the relationship between the individual and the community in post-war era architecture, the decodification of design process as syntactic analogy and the paradigm of autonomy in the 1970s and 1980s architecture,

the concern about the dynamic character of urban conditions and the potentialities hidden in architectural programme in the post-autonomy era. This book is based on extensive archival research in Canada, the USA and Europe, and will be of interest to architects, artists, researchers and students in architecture, architectural history, theory, cultural theory, philosophy and aesthetics.

'A Self-Conscious Art' deals with the formal complexities of Modiano's work, by reading 'against the grain' of his self-professed ingenuousness.

A detailed examination of his narratives shows the deeply postmodern nature of his writing. Parodying precursors such as Proust or the nouveau romanciers, his narratives are built around a profound lack of faith in the ability of writing to retrieve the past through memory, and this failure is acknowledged in the discreet playfulness that characterises his novels.
