HOWARD MAYA

The Well-Trained Mind: A Guide to Classical Education at Home (Fourth Edition)

Copyright Office, Library of Congress

Juan Zanate used to sit under his favorite tree--with his only friends, the harvest birds--dreaming and planning his life. Juan had big dreams of becoming a farmer like his father and grandfather. But when his father died and the land was divided, there was only enough for his two older brothers. In this charming story from the heart of the Indian tradition in Mexico, Juan learns to determine his own destiny--with help from his loyal friends, the harvest birds.

In today's world, teaching English as a Second Language (E.S.L.) is big business. An expanding global communications network has made English the international language of choice. In Highway to E.S.L., authors Rik Ruiter and Pinky Dang provide an easy-to-understand guide, not only for individuals seeking a new and rewarding career teaching English, but also for experienced E.S.L. instructors who wish to improve their classroom skills. Written in a user-friendly format that includes detailed course planning and an appendix containing a variety of useful evaluation forms, Highway To E.S.L. supplies readers with valuable information on how to teach the different disciplines of English--a vital component to successful education in both domestic and international markets. Other key topics include:

- Necessary teaching methodologies and approaches
- Innovative personal teaching tips
- Proficient classroom management
- Troubleshooting common classroom problems
- Efficient planning that utilizes timetables
- Stimulating activity suggestions
- Effective curriculum and lesson planning for grammar, reading, writing, listening, and speaking
- Incorporating both conventional and non-conventional teaching resources in the classroom

In Highway to E.S.L., Ruiter and Dang answer the common "who, where, when, what, why, and how"

questions of both experienced and inexperienced E.S.L. teachers, providing teachers with the vital information needed to educate eager minds.

Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education--by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school--one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises

three stages: the elementary school “grammar stage,” when the building blocks of information are absorbed through memorization and rules; the middle school “logic stage,” in which the student begins to think more analytically; and the high-school “rhetoric stage,” where the student learns to write and speak with force and originality. Using this theory as your model, you’ll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in *The Well-Trained Mind* to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. *The Well-Trained Mind* will give you the tools you’ll need to teach your child with confidence and success.

Storytown Univ. Press of Mississippi

Although sentence-combining researchers acknowledge the importance of syntax-to-discourse transfer, their treatments have achieved it in varying degrees through unclear procedures. *Improving the Expository Writing Skills of Adolescents* suggests effective strategies for contextualizing learning in the English language arts, focusing on a novel method of syntax instruction called 'discourse-function sentence combining.' The language arts objectives are integrated with ninth grade biology materials.

Moving Into English Children's Book Press

Pepita, a little girl who can converse in Spanish and English, decides not to "speak twice" until unanticipated problems cause her to think twice about her decision.

The popular Flash Kids Workbooks now features STEM enrichment sections and easy-to-tackle projects for wherever learning takes place! This comprehensive line of workbooks was developed through a partnership with Harcourt Family Learning, a leading educational publisher. Based on national teaching standards for Grade 3, this workbook provides complete practice in math, reading, and other key subject areas. New content includes an introduction to STEM concepts and

terms, how STEM impacts everyday life, concept review quiz, and fun, engaging projects that reinforce the subjects. Flash Kids Complete Curriculum Grade 3 also includes a new introduction providing recommendations for educators on how to use this volume to differentiate lessons in the classroom and instructions to integrate the content into hybrid and remote learning.
