A SUNDAY TIMES BESTSELLER 'Cussler is hard to beat' Daily Mail The page-turning Dirk Pitt classic from multi-million-copy king of the adventure novel, Clive Cussler. May 1914. Two diplomats hurry home by sea and rail, each carrying a document of world-changing importance. Then the liner Empress of India is sunk in a collision, and the Manhattan-Line express plunges from a bridge - both dragging their VIP passengers to watery oblivion. Tragic coincidence or conspiracy? In the energy-starved, fear-torn 1980s, Dirk Pitt discovers that those long-lost papers could

destroy whole nations, throwing him into his biggest challenge yet. Racing against hired killers, he launches his revolutionary deep-sea search craft and faces the horrors of the sea bed to hunt for the documents. 'Night Probe' has begun . . . The Routledge Handbook of Critical Pedagogies for Social Work traverses new territory by providing a cutting-edge overview of the work of classic and contemporary theorists, in a way that expands their application and utility in social work education and practice; thus, providing a bridge between critical theory, philosophy, and social work. Each chapter showcases the work of a specific critical educational, philosophical, and/or social theorist including: Henry Giroux, Michel

Foucault, Cornelius Castoriadis, Herbert Marcuse, Paulo Freire, bell hooks, Joan Tronto, Iris Marion Young, Karl Marx, Antonio Gramsci, and many others, to elucidate the ways in which their key pedagogic concepts can be applied to specific aspects of social work education and practice. The text exhibits a range of research-based approaches to educating social work practitioners as agents of social change. It provides a robust, and much needed, alternative paradigm to the technique-driven ‘conservative revolution’ currently being fostered by neoliberalism in both social work education and practice. The volume will be instructive for social work educators who aim to teach for social change, by assisting students to develop counter-hegemonic practices of resistance and agency, and reflecting on the pedagogic role of social work practice

more widely. The volume holds relevance for both postgraduate and undergraduate/qualifying social work and human services courses around the world.

'Exquisite, powerful . . . I can think of no better way of commemorating British exploration's culminating triumph.' Simon Winchester? Coronation Everest offers a breathtakingly intimate evocation of the most famous of all mountaineering exploits - and of perhaps the last great old-fashioned Fleet Street scoop. 'It was Morris who broke the news that a British-led expedition had conquered Mount Everest the day before the Queen's coronation in 1953 . . . Allied to physical courage in getting down the mountain and a dogged resourcefulness in getting the news home, Morris scooped the world and was launched on one of the most remarkable literary careers in the second half of the twentieth century.' Guardian Jan Morris's collection of travel writing and reportage spans over five decades and includes such titles as Venice, Coronation Everest, Hong Kong, Spain, Manhattan '45, A Writer's World and the Pax Britannica Trilogy. Hav, her novel, was shortlisted for the Booker Prize and the Arthur C. Clarke Award.

Fresh out of school, young Mariah faces a new chapter of his life, living in the Prince Regent hotel built into the face of a cliff. His job is to assist the magician in the stage shows held for the guests. Above ground, the guests are offered every form of luxury. Below ground, in the green, slime-dripping walls of the basements, is where the magic show equipment is kept - and lurking in an Egyptian sarcophagus amongst scuttling sea-creatures is a secret that draws Mariah into the path of villainy, plots and possible death.

The Routledge Handbook of Critical Pedagogies for Social Work Pearson Longman

A rich survey of the work of more than forty still life artists, which presents the genre in a uniquely contemporary light. Still life painting is a practice that goes back centuries but has recently been

reinvigorated by a new generation of contemporary artists. Still Life explores the diverse practices of more than forty contemporary artists and documents their styles, subjects, visions, and philosophies as they reinterpret this art form for our age. While flowers and food are mainstays of the genre, more anomalous objects—such as books and beer cans, birds and balloons—can be found within these pages, adding an energy and intrigue to both the composition and the story of the work. This book captures the inanimate beauty of the everyday in the twenty-first century, and offers a meditation on human experience as well as the brevity of life. Featuring interviews with each of the artists, this accessibly written book is as appealing to established artists as it is for artists who are just starting out. Quoting John Bokor, author Amber Creswell Bell shares that “A collection of objects—no matter how mundane—tells a story. They are like a little world; you can get lost in them.” As a survey of stunning work or as an inspirational volume for the budding artist, this book presents in full color the art of today's most original artists.

As a young man in the mid-1970s, Paul Bensemann was told an archetypal 'lost gold' story by his neighbour, a tobacco farmer in the Motueka Valley on the edge of what is now Kahurangi National Park. The story concerned an old prospector who had found a huge exposed gold reef, shining in the sun, deep in the mountain wilderness of Northwest Nelson. Just before he died, the prospector drew a map, and to Paul's amazement his neighbour then produced the old, tatty, hand-drawn map, which had been handed down to him from his father. Since that meeting Paul has spent over 30 years trying to unravel this untold story, linking many different characters and their often obsessive and always secretive efforts to find this very New Zealand treasure. The search for the reef was originally triggered by Government geologists who reported finding a huge reef in the 1880s. It has since been pursued by many different prospectors, from bushmen on the West Coast to F.G. Gibbs, a prominent early Nelson identity. *Lost Gold* follows the many twists and turns of this 105-year-old story, and tries to explain why the reef has never been rediscovered. But in the end, whether or not the reef exists is only part of the story, and perhaps the bigger treasure here is the real tale of men in pursuit of their own El Dorado.

A one-of-a-kind book that shows you how to cash in on the latest investing trend--short selling "The Art of Short Selling is the best description of this difficult technique."--John Train, Train, Thomas, Smith Investment Counsel, and author of *The New Money Masters* "Kathryn Staley has done a masterful job explaining the highly specialized art of short selling. Her

approach to telling the true stories of famous investment 'scams' will keep the readers spellbound, while teaching the investor many crucial lessons."--David W. Tice, Portfolio Manager, Prudent Bear Fund "Selling short is still a misunderstood discipline, but even the most raging bull needs to know this valuable technique to master the ever-changing markets."--Jim Rogers, author, *Investment Biker* On the investment playing field, there is perhaps no game more exciting than short selling. With the right moves, it can yield high returns; one misstep, however, can have disastrous consequences. Despite the risk, a growing number of players are anteing up, sparked in part by success stories such as that of George Soros and the billions he netted by short selling the British pound. In *The Art of Short Selling*, Kathryn Staley, an expert in the field, examines the essentials of this important investment vehicle, providing a comprehensive game plan with which you can effectively play--and win--the short selling game. Whether used as a means of hedging bets, decreasing the volatility of total returns, or improving returns, short selling must be handled with care--and with the right know-how. As Staley points out, "Short selling is not for the faint of heart. If a stock moves against the position holder, the effect on a portfolio and net worth can be devastating. Investors need to understand the impact on their accounts as well as the consequences of getting bought in before they indulge in short selling." *The Art of Short Selling* guides you--clearly and concisely--through the ins and outs of this high-risk, high-stakes game. The first--and most important--move in selling short is to identify flaws in a business before its share prices drop. To help you tackle this key step, Staley shows you how to evaluate company financial statements and balance sheets, make sense of return ratios, detect inconsistencies in inventory, and analyze the statement of cash flows. Through real-world examples that illustrate the shorting of bubble, high multiple growth, and theme stocks, you'll proceed step by step through the complete process and learn to carry out all the essentials for a successful short sell, including quantifying the risk factor and orchestrating correct timing, as well as implementing advanced valuation techniques to execute the

sell/buy. Packed with landmark, cutting-edge examples, up-to-the-minute guidelines, and pertinent regulations, *The Art of Short Selling* is a timely and comprehensive reference that arms you with the necessary tools to make a prepared and confident entrance onto the short selling playing field.

Savage violence and cruel morality reign in the backwater deserts of Cormac McCarthy's *No Country for Old Men*, a tale of one man's dark opportunity -- and the darker consequences that spiral forth. Adapted for the screen by the Coen Brothers (*Fargo*, *True Grit*), winner of four Academy Awards (including Best Picture). 'A fast, powerful read, steeped with a deep sorrow about the moral degradation of the legendary American West' -- Financial Times 1980. Llewelyn Moss, a Vietnam veteran, is hunting antelope near the Rio Grande when he stumbles upon a transaction gone horribly wrong. Finding bullet-ridden bodies, several kilos of heroin, and a case load of cash, he faces a choice -- leave the scene as he found it, or cut the money and run. Choosing the latter, he knows, will change everything. And so begins a terrifying chain of events, in which each participant seems determined to answer the question that one asks another: how does a man decide in what order to abandon his life? 'It's hard to think of a contemporary writer more worth reading' -- Independent Part of the Picador Collection, a series showcasing the best of modern literature. Praise for Cormac McCarthy: 'McCarthy worked close to some religious impulse, his books were terrifying and absolute' -- Anne Enright, author of *The Green Road* and *The Wren*, *The Wren* 'His prose takes on an almost biblical quality, hallucinatory in its effect and evangelical in its power' -- Stephen King, author of *The Shining* and the Dark Tower series '[I]n presenting the darker human impulses in his rich prose, [McCarthy] showed readers the necessity of facing up to existence' -- Annie Proulx, author of *Brokeback Mountain*
