"Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, Topi Shukla is a story of two friends - one Hindu and the other Muslim." "Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is

about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons."

"Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow."--BOOK JACKET.

This volume provides a versatile introduction to the study of drainage basin evolution, morphology, drainage basin hydrology and sedimentology, human interference, natural and anthropogenic hazards and various management techniques. This book offers the responsible factors of sediment yield and their absolute and specific growth and rate of delivery through tributaries to the main streams. Rivers are important geomorphic agents which reflect an amazing variety of form and behaviour, showing the wide range of natural environment in which they are originated. The drainage system

evolution and spatial network development within the dynamic nature are being discussed and how they are adjusted in the geomorphic time scale over the millions of years. This book shows how drainage systems function and react to change and why this thoughtful is required for flourishing integrated basin management. In tropical and sub-tropical countries population pressures as well as different developmental projects are being executed on the drainage basin without proper planning. Today scientists consider drainage basin as an administrative unit during implementation of regional projects. In this context this book will carry a benchmark for scholars and young scientists. »The Canterville Ghost« is a short story by Oscar Wilde, originally published in 1891. OSCAR WILDE, born in 1854 in Dublin, died in 1900 in Paris, was an Irish prose writer, playwright, essayist, and poet. Wilde's significance as a symbol for persecuted homosexuals around the world is immeasurable. Wilde himself was sentenced to prison and hard labour, his works were boycotted, theatrical productions were shut down, and he was publicly vilified. The Picture of Dorian Gray [1890] is his most famous work.
