This book analyses the evolution of the sustainability discourse in the European Union, exploring the conditions necessary for sustainable development to move from a conceptual model into a model for action for strategic decision makers at all levels of governance. This book questions the extent to which the discourse on sustainability has become embedded into governance structures in Europe. It focuses on the importance of the nature of the language of the political discourse on sustainability and how ideas are communicated amongst the actors and stakeholders in the policy making process, as well as assessing the conceptual, political, institutional and operational barriers apparent across the European geographic region. Drawing case studies from numerous policy areas including climate change, EU emissions trading scheme, renewable energy, nuclear energy, the European integrated energy market, transport mobility, and environmental protection, expert contributors unveil a narrowing of the discourse on sustainability that has taken place in Europe. However, a considerable discontinuity remains between the economic and environmental

objectives of sustainable development, and the authors argue that it is essential that conditions for a dynamic discourse, open to multiple participants, are developed. Sustainable Development and Governance in Europe will be of strong interest to students and scholars of comparative politics, governance, sustainable development and environmental politics and studies.

The formation of modern European states during the long 19th century was a complicated process, challenged by the integration of widely different territories and populations. The Science of State Power in the Habsburg Monarchy, 1790-1880 builds on recent research to investigate the history of statistics as an overlooked part of the sciences of the state in Habsburg legal education as well as within the broader public sphere. By exploring the practices and social spaces of statistics, author Borbála Zsuzsanna Török uncovers its central role in imagining the composite Habsburg Monarchy as a modern and unified administrative space.

Inaugurer le "chantier" du Musée de l'Europe par une réflexion sur les frontières de l'Europe, c'est l'objectif poursuivi par ce volume qui mêle grands acteurs politiques de la scène européenne et gens de plume venus de divers horizons - historiens, politologues, économistes, philosophes, écrivains, essayistes, journalistes. Ces "frontières de l'Europe" n'ont rien d'évident. Mouvantes au gré des migrations, des conquêtes et des mentalités, tributaires de l'esprit changeant du temps, lourdement chargées de toutes les passions mêlées de la politique, de la religion, des langues et des cultures, elles se trouvent toujours au cœur des débats de l'Europe d'aujourd'hui. Qui fait partie de l'Europe, qui en est exclu et pourquoi ? Qui a des chances de l'intégrer un jour et au nom de quoi ? Voici posée la douloureuse question de "l'élargissement".

Wild animals raid crops, attack livestock, and sometimes threaten people. Conflicts with wildlife are widespread, assume a variety of forms, and elicit a range of human responses. Wildlife pests are frequently demonized and resisted by local communities while routinely 'controlled' by state authorities. However, to the great concern of conservationists, the history of many people-wildlife conflicts lies in human encroachment into wildlife territory. In *Natural Enemies* the authors place the analytical focus on the human dimension of these conflicts - an area often neglected by specialists in applied ecology and wildlife management - and on their social and political contexts. Case studies of specific conflicts are drawn from Africa, Asia, Europe and America, and feature an assortment of wild animals, including chimpanzees, elephants, wild pigs, foxes, bears, wolves, pigeons and ducks. These anthropologists challenge the narrow utilitarian view of wildlife pestilence by revealing the cultural character of many of our 'natural enemies'. Their reports from the 'front-line' expose one fact - human conflict with wildlife is often an expression of conflict

between people.

Millions of British, Dutch, French, Danish, Spanish, and Portuguese nationals permanently reside in the overseas parts of their Member States. These people, like the companies registered in such territories, often find it virtually impossible to determine what law applies when legal decisions are required. Although Article 52(1) of the EU Treaty clearly states that EU law applies in the territory of all the Member States, most Member State territories lying outside of Europe provide examples of legal arrangements deviating from this rule. This book, for the first time in English, gathers these deviations into a complex system of rules that the editor calls the 'EU law of the Overseas'. Member States' territories lying far away from the European continent either do not fall within the scope of EU law entirely, or are subject to EU law with serious derogations. A huge gap thus exists between the application of EU law in Europe and in the overseas parts of the Member States, which has not been explored in the English language literature until now. This collection of essays sets out to correct this by examining the principles of Union law applicable to such territories, placing them in the general context of the development of European integration. Among the key legal issues discussed are the following: internal market outside of Europe; the protection of minority cultures; EU citizenship in the overseas countries and territories of the EU; Article 349 TFEU as a source of derogations; The implications of Part IV TFEU for the overseas acquis; participatory methods of reappraisal of the relationship between the EU and the overseas; implications for the formation of strategic alliances; voting in European elections; what matters may be referred by courts and tribunals in overseas countries and territories; application of the acquis to the parts of the Member States not controlled by the government or excluded from *ratione loci* of EU law; interplay of the Treaty provisions and secondary legislation in the overseas; customs union; wholly internal situations; free movement of capital and direct investments in companies; the euro area outside of Europe; duty of loyal cooperation in the domain of EU external action; territorial application of EU criminal law; and territorial application of human rights treaties. Twenty-two leading experts bring their well-informed perspectives to this under-researched but important subject in which, although rules abound and every opportunity to introduce clarity into the picture seems to be present, the situation is far from clear. The book will be welcomed by serious scholars of European Union law and by public international lawyers, as well as by policy-makers and legal practitioners.

Europas Sicherheitspolitik im globalen Rahmen und im politischen Kontext: die Ergebnisse eines Symposiums der Österreichischen Offiziersgesellschaft in Innsbruck im September 1995. Die Beiträge behandeln die geopolitische und geostrategische Situation in Europa unter Berücksichtigung der Rolle Rußlands und der Rolle der NATO sowie der Perspektiven der Dynamik der russischen Hegemonialtendenzen und der Entwicklung des Mittelmeerraums als Faktoren im Gesamtbild der europäischen Sicherheit. Weitere Beiträge sind Fragen der künftigen europäischen Sicherheitskonfiguration gewidmet. Europe's safety politics, in a global and political context: the results of a symposium, held by the Austrian society of officers at Innsbruck in September 1995. The contributions deal with the geopolitical and geostrategic situation in Europe taking into account the role played by Russia and the NATO; furthermore an outlook on the dynamics of the Russian tendencies of hegemony and the development of the Mediterranean area, a view on the factors of the European safety as a whole. Further contributions are dedicated questions regarding the future of the European safety configuration.

Die Autorinnen und Autoren dieses Bandes haben eine Reihe von Reden von Spitzenpolitikern zur europäischen Integration aus einer großen Zeitspanne (1946-2020) analysiert, wobei sie jede Rede in ihren zeitgeschichtlichen Kontext gestellt und in den biographischen Hintergrund des Redners eingeordnet haben. Die vergleichende Analyse zeigt, dass es notwendig ist, wieder zu entdecken, dass das Ideal des europäischen Einigungswerks genauso spannend sein kann wie andere nationale geschichtliche Kontroversen. Angesichts eines grassierenden Euroskeptizismus kann eine historische Einordnung und Kontextualisierung der Rolle der Kommunikation der europäischen Integration ein nützliches Instrumentarium sein, um die Bedeutung der europäischen Einigung und ihrer Werte zu erklären und zu verstehen. A recent development in the immigration policies of several European states is to make the admission of foreign nationals dependent upon criteria relating to their integration. As the practice of 'integration testing abroad' becomes more widespread, this book endeavours to clarify the legal implications which have hitherto remained poorly understood and studied. The book begins by looking at the situation in the Netherlands, which was the first EU Member State to introduce pre-entry integration requirements. It explores the historical and political origins of the Dutch Act on Integration Abroad and explains how, in this national context, integration has become a criterion for the selection of immigrants. It then examines how integration requirements must be evaluated from the point of view of European and international law, including human rights treaties, EU migration directives and association agreements and the law on non-discrimination. The book identifies the legal standards set by these instruments with regard to integration testing abroad and draws conclusions as to the lawfulness of the Dutch approach.

This book contains articles on historic cities of the Islamic world, ranging from West Africa to Malaysia, which over the centuries have been centres of culture and learning and of economic and commercial life, and which have contributed much to the consolidation of Islam as a faith and as a social and political institution. The articles have been taken from the second edition of the Encyclopaedia of Islam, completed in 2004, but in many cases expanded and rewritten. All have been updated to include fresh historical information, with note of contemporary social developments and population statistics. The book thus delineates the urban background of Islam as it has evolved up to the present day, highlighting the role of such great cities as Cairo, Istanbul, Baghdad and Delhi in Islamic history, and also brings them together in a rich panorama illustrating one of mankind's greatest achievements, the living organism of the city.

Motor, Lokomotive, Tandem: Metaphern, die die Rolle der deutsch-französischen Beziehungen für den Prozess der europäischen Integration bezeichnen sollen, gibt es zahlreiche. Dennoch ist die Schrittmacherfunktion, die man Deutschland und Frankreich zuschreibt, nie systematisch auf empirischer Grundlage untersucht worden. Mit Willy Brandt und Georges Pompidou nimmt Claudia Hiepel zwei politische Akteure in den Blick, die im Kontext einer Umbruchphase in der Geschichte der Europäischen Gemeinschaft in den Jahren um 1970 agierten. In bilateralen Verhandlungen fanden die Protagonisten - trotz unterschiedlicher Prägungen und Konzeptionen - Auswege aus der Krise der Europäischen Gemeinschaft. Es gelang Ihnen, eine institutionelle Weiterentwicklung anzustoßen, deren Wirkung bis in die Gegenwart hinein reicht. Die Arbeit von Claudia Hiepel wurde mit dem Emile und Aline Mayrisch-Preis und dem Willy-Brandt-Preis 2011 zur Förderung von Nachwuchswissenschaftlerinnen und -wissenschaftlern der Bundeskanzler-Willy-Brandt-Stiftung (Berlin) ausgezeichnet.
