In this ground-breaking vision document, first published in 1998, Dr A.P.J. Abdul Kalam and Y.S. Rajan offer a blueprint for India to be counted among the world's top five economic powers by the year 2020. They cite growth rates and development trends to show that the goal is not unrealistic. Past

successes—the green revolution and satellite-based communication linking remote regions of the country, for instance—bear them out. The same sense of purpose can make us a prosperous, strong nation in a matter of years, assert Kalam and Rajan. This is a book that every citizen who hopes for a better India must read.

Mirza Asadullah Khan (1797–1869), popularly, Ghalib, is the most influential poet of the Urdu language. He is noted for the ghazals he wrote during his lifetime, which have since been interpreted and sung by different people in myriad ways. Ghalib's popularity has today extended beyond the Indian subcontinent to the Hindustani diaspora around the world. In this book, Gopi Chand Narang studies Ghalib's poetics by tracing the archetypical roots of his creative consciousness and enigmatic thought in Buddhist dialectical philosophy, particularly in the concept of shunyata. He underscores the importance of the Mughal era's Sabke Hindi poetry, especially through Bedil, whom Ghalib considered his mentor. The author also engages with Ghalib criticism that has flourished since his death and analyses the important works of the poet, including pieces from early Nuskhas and Divan-e Ghalib, strengthening this central argument. Much has been written about Ghalib's life and his poetry. A marked departure from this dominant trend, Narang's book looks at Ghalib from different angles and places him in the galaxy of the great Eastern poets, stretching far beyond the boundaries of India and the Urdu language.

Iblees ki Majlis-e-Shoora is a conversation between Iblees (the devil) and the five members of his advisory council. It is one of the final works of Allama Iqbal. The work consists of 64 amazingly dramatized, well composed couplets. Here, Iblees presides over the clandestine session and leads the conversation. He boasts how successfully he has mislead Mankind throughout history by introducing ideas and doctrines such as Imperialism, Capitalism, Fascism etc., which have ultimately landed the human society in ruins. His advisers point towards a few emerging trends such as Western democracy and Marxism that they saw as potential threats to the evil regime of Iblees. Summarily dismissing all these apprehensions of his advisers, Iblees concludes, that the revolutionary spirit of Islam is the greatest threat to his evil empire and hence the most crucial task ahead was to stop the waves of Muslim resurgence. He instructs them to keep the followers of Islam totally preoccupied with vain spiritual rituals, complex philosophical debates and narrow theological intricacies. Allama Iqbal, an advocate of universal human fraternity, envisaged the revival of the original Islamic civilization, globally. His works, exposed the limitations of the socio-political and economic concepts introduced by the West.

This book contains 25 essays about English words, and how they are defined, valued, and discussed. The book is divided into four sections. The first section, "Language Lore," examines some of the myths and misconceptions that affect attitudes toward language--and towards English in particular. The second section, "Language Usage," examines some specific questions of meaning and usage. Section 3, "Language Trends," examines some controversial trends in English vocabulary, and some developments too new to have received comment before. The fourth section, "Language Politics," treats several aspects of linguistic politics, from special attempts to deal with the ethnic, religious, or sex-specific elements of vocabulary to the broader issues of language both as a reflection of the public consciousness and the U.S. Constitution and as a refuge for the most private forms of expression.
