**MAY 2001** Causey Enterprises, LLC  
 In 1982, at the age of just twenty-three, Elspeth Beard left behind her family and friends in London and set off on a 35,000-mile solo adventure around the world on her motorbike. This is the story of a unique and life-changing adventure. *WALNECK'S CLASSIC CYCLE TRADER*, **APRIL 2000** Amberley Publishing Limited  
 Although in production for only three years, the R90S was the most significant post-war production BMW motorcycle.

This comprehensive book tells the story of this important bike and how it evolved noting all significant changes from year to year. Beautifully laid out with big full-color pictures, the book could stand alone as a coffee table book. But it's much more than that. Falloon writes with enough detail to make restoring these great bikes much easier, and also includes a chapter on how to live with an R90S, using them as reliable daily commuters, making popular upgrades, and what to look for if you are in the market for one. With outstanding looks and high-quality equipment, the R90S has justifiably garnered a devoted following of motorcycle enthusiasts who will want to own this definitive book.

 BMW began its life in aero-engineering--as anyone who's ever ridden one of its motorcycles might guess. These are bikes as close to airborne as any get. And what's more, fifty percent of all the motorcycles BMW has manufactured are still flying down the world's roads. These are the best, and in this book, the best of the best get their due, with brilliant, full-color photographs of BMW's classic models and detailed descriptions of their

features, all located within the context of a concise history of this legendary marque. From the first of BMW's bikes, the R32, through the models that catapulted the company out of the ruins of World War II, to the latest bikes with the revamped opposed-twin-cylinder "boxer" engines that brought BMW its first fame--these are the bikes that made history, and, better yet, gave the most demanding riders a taste for flight.

The ultimate reference for Triumph lovers and fans of British motorcycles, *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* collects all of the motorcycles from this iconic brand in a single illustrated volume. In this revised and updated edition, you'll find the all-new Bonneville lineup introduced for the 2016 model year as well as other Triumphs through 2019. Originally formed as a bicycle company in 1885, Triumph produced its first motorcycle in 1902, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time.

Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* also features

important non-production models and factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan should be without!

Author: Mick Walker. Italy has a reputation for style in all things, not least in motorcycles. The first pure-bred Italian motorcycles made their appearance at the beginning of the 20th century and included Bianchi, Borgo, Prinetti & Stucchi and Ferrera. By the 1920s these companies had been joined or replaced by a number of newer concerns. Then came the period of the pentarchia, comprising Benelli, Bianchi, Garelli, Gilera and Guzzi, who fought tooth and nail for a share of the market. The golden age of Italian motorcycling lasted until 1957 when the three largest and most successful teams, FB Mondial, Gilera and Guzzi announced their retirement from the sport. This improved the chances of marques such as MV Agusta, Bianchi, Benelli, Morini and Ducati who continued to fly the red, white and green flag of Italy with considerable success. Italy not only produced a host of world-beating machinery, but also a number of top riders including Carlo Ubbiali, Umberto Masetti, Tarquinio Provini, Libero Liberati and most notably Giacomo Agostini. Contents: Aermacchi, Aprilia, Benelli, Bianchi, Bimota, Cagiva, Ducati, Garelli, Gilera, Laverda, FB Mondial, Morbidelli, Moto Guzzi, Moto Morini, MV Agusta, Parilla, Paton & Rumi. A total of 256 fully illustrated pages.

Author: Mick Walker. To Kaaden must go the title of the world's greatest ever 2-

stroke engineer. Of course, before MZ came DKW, and really this book is the story of both these two great marques from Zschopau in Southern Saxony. The book also covers Simson and the new era with the Skorpion.

The BMW Boxer Twins 1970-1996 Bible Redline Books

The air-cooled boxer BMW twins were among the most significant motorcycles of the 1970s through the 1980s, providing an unparalleled combination of comfort, reliability, and performance. From the /5 series, a complete series of sport and touring motorcycles evolved that earned a huge following and which was never emulated by other manufacturers.

WALNECK'S CLASSIC CYCLE TRADER, OCTOBER 1991 Amberley Publishing Limited

The most famous of all British racing motorcycles, with an ancestry dating back to the very dawn of the internal combustion engine, the 'cammy' Norton is inseparable from the era of British domination in motorcycle racing. It is linked with the legendary heroes of the sport, Jimmie Guthrie, Harold Daniell, Geoff Duke, John Surtees, Mike Hailwood and the age when Britain had the world's finest motorcycle industry. This revised edition of the definitive history contains additional material and traces the design, development, the leading riders and tuners. It presents a superb collection of photographs, many previously unpublished. The Manx Norton covers not only the Manx itself, but also features boardroom battles, Norton's early history, record breaking, sidecars, Formula 3 cars, scrambling (motocross); the Domiracer; racing at Daytona and today's classic scene.

Finally! The world's most incredible motorcycles are given the artful representation they deserve. The motorcycle should have disappeared with the advent of the inexpensive automobile, since Henry Ford's Model T usurped the motorcycle's position as a primary form of utilitarian transportation, but a funny thing happened on the way to extinction - the motorcycle not only survived but thrived. Enough people were enamored of the thrill and beauty of the two-wheeled mechanical beast to ensure it would continue to exist indefinitely. And exist they have! Many of the motorcycles manufactured over the past century truly fit the description of "classic," and many consider these machines works of art. Written by noted motorcycle author Patrick Hahn, *Classic Motorcycles* presents the history of motorcycling as told through the most significant, iconic, classic motorcycles of all time, with both period photography and modern portrait photography. All the best domestic and international makes are represented here, from BMWs, Indians, and Triumphs to Vincents, Ducatis, and Harley-Davidsons - the most classic models. You'll drool over the 1933 Matchless Silver Hawk. Each motorcycle was shot in a studio setting using photographer Tom Loeser's light-painting technique. Period ads and relevant historic photos and documents are spread throughout the book to supplement the portraits of the bikes, really evoking a sense of time and place. Prepare to be in awe of the undeniably classic motorcycles in this collection. It's the only motorcycle history you'll need. *The BSA Gold Star* Causey Enterprises, LLC

WALNECK'S CLASSIC CYCLE TRADER,

While the history of European competition motorcycles has been largely dominated by Italian, British, and German marques, other builders around the continent have also played significant roles from the turn of the century to present. Arranged by nation, this book examines more than two dozen important marques, including Bultaco, CZ, Elf, Husqvarna, KTM, Ossa, Peugeot, and many others. A wealth of rare photography, including a special color section, includes candid shots of the top personalities and the bikes both at rest and at speed.
