This book provides the main findings of a ground-breaking survey on immigrants

and the second generation in France. The data, collected from more than 20,000 persons representative of the population living in France, offer invaluable insights into the trajectories and experience of ethnic minorities. The book explains how France has been an immigrant-receiving country for over a century and how it is now a multicultural society with an unprecedented level of origin diversity. While immigrants and their descendants are targets of clichés and stereotyping, this book provides unique quantitative findings on their situation in all areas of personal and working life. Is origin in itself a factor of inequality? With its detailed reconstitutions of educational, occupational and conjugal trajectories and its exploration of access to housing and health, this book provides multiple approaches to answering this question. One of the work's major contributions is to combine objective and subjective measures of discrimination: this is the first study in France to focus on racism as experienced by those subjected to it, while opening up new methodological perspectives on the experience of prejudice by origin, religion, and skin colour.

Sir Henry "Chips" Channon's position as a Member of Parliament allowed him entree to a privileged world of socializing, politics, and historic events. The years covered in this volume, 1934-53, recall a vanished world in which every social and public figure of the day made the party, joining in endless gossip. Culled from some three million words from the original diaries, the editor's selection gives us the pivotal moments and characters of history, etched indelibly by a master observer. "How

sharp an eye? What neat malice! How, in their fashion, well written and truthful and honest they are!"--"Malcolm Muggeridge, Observer."

With the intrigue of a psychological thriller, Camus's masterpiece gives us the story of an ordinary man unwittingly drawn into a senseless murder on an Algerian beach. Behind the intrigue, Camus explores what he termed "the nakedness of man faced with the absurd" and describes the condition of reckless alienation and spiritual exhaustion that characterized so much of twentieth-century life. First published in 1946; now in translation by Matthew Ward.

From the Treaty of Versailles to the 2018 centenary and beyond, the history of the First World War has been continually written and rewritten, studied and

contested, producing a rich historiography shaped by the social and cultural circumstances of its creation. Writing the Great War provides a groundbreaking survey of this vast body of work, assembling contributions on a variety of national and regional historiographies from some of the most prominent scholars in the field. By analyzing perceptions of the war in contexts ranging from Nazi Germany to India's struggle for independence, this is an illuminating collective study of the complex interplay of memory and history.

We offer in this book a collection of chapters that reflect a broad range of issues linking globalization to education in an accessible yet theoretically grounded and detailed form. The authors analyze phenomena on the global plane, in local spaces, and in the connections between the global and the local. New developments such as the growing impact of technology on education, the emergence of new policy actors, the growing expansion and segmentation of higher education, the salience of human rights, among others, are emerging as powerful agendas shaping all levels of education. In fundamental ways, the forces of globalization challenge the previous approaches and theories of national development. Recognizing the areas of convergence, dissonance, and conflict should help us grasp with greater clarity the implications of globalization for education and knowledge in the XXI century. The contributors to this book include both well-known scholars in the field of comparative education as well as young scholars. The chapters present a balanced geographical coverage in terms of authors and the countries/regions examined. The second edition has been thoroughly updated throughout and contains seven new chapters. The expanding interest in the intersection of education and globalization has brought up several new topics, including: the salience of global education policies, notably EFA; the expansion and differentiation of higher education; the emphasis on work-related training; the increasing role of non-state actors such as the transnational corporations; and greater attention to human rights. Also in this new edition is a chapter on qualitative methodologies especially suitable to the understanding of the intersection of globalization and education.

During his long career as a diplomat,

international lawyer, statesman and investment banker, George Ball interrogated Albert Speer at the end of World War II, worked with Jean Monnet to build Europe, supervised the rescue of hostages in the Congo, advised President Kennedy during the Cuban missile crisis and, as Undersecretary of State in the Johnson and Kennedy administrations, was an early and consistent opponent of America's involvement in Vietnam. "Clarity, serenity and precision are the marks of this major contribution to an understanding of American foreign policy during the past 40 years. The book deserves to be compared with Dean Acheson's *Present at the Creation* (but less self-satisfied) and George Kennan's *Memoirs* (but less introverted). Although the author is best known to the general public for his opposition to American military involvement in Vietnam, the historian will find his discussion of European issues the most interesting part of the book." — Gaddis Smith, *Foreign Affairs* "[A] first-rate memoir of American politics and foreign policy over half a century. It is literate, lively and amusing, and in places it clarifies basic questions about the foreign policy of the United

States... *The Past Has Another Pattern* is a colorful and thought provoking tour of the recent and not-so-recent past, conducted by a skillful guide." — Daniel Yergin, *The New York Times* "[O]ne of the great, examined public lives of our time." — Kirkus "A distinguished lawyer and public servant with experience of Presidents stretching from Roosevelt to Reagan, [George Ball] has written an impressive book of memoirs." — Douglas Johnson, *London Review of Books* "A few years ago I read some 70 volumes of biography and autobiography as a Pulitzer Prize juror. George Ball's memoirs are everything that most of the art is not. While he does not neglect his achievement, he is candid on the things that went wrong. His public life has provided him with a very great deal of very great importance to tell. He writes admirably well. And much of his story is amusing. This year there will, I promise, be no other biography that will be as good." — John Kenneth Galbraith "George Ball is that rarity — a distinguished public servant who can write; and his memoir is not only indispensable for the historian but absorbing for the general reader." — Arthur Schlesinger, Jr.
