### ROCCO WELCH

*West Germany, Cold War Europe and the Algerian War* OUP Oxford  
 Offering insights into the origins, successes, and threats to revolutionary constitutionalism, Bruce Ackerman takes us to India, South Africa, Italy, France, Poland, Burma, Israel, Iran, and the U.S. and provides a blow-by-blow account of the tribulations that confronted popular movements in their insurgent campaigns for constitutional democracy.  
*The Standard Pronouncing Dictionary of the French and English Languages* Oxford University Press  
 An Australian Book Review Best Book of the Year One of France's most famous historians compares two exemplars of political and military leadership to make the unfashionable case that individuals, for better and worse, matter in history. Historians have taught us that the past is not just a tale of heroes and wars. The anonymous millions matter and are active agents of change. But in democratizing history, we have lost track of the outsized role that individual will and charisma can play in shaping the world, especially in moments of extreme tumult. Patrice Gueniffey provides a compelling reminder in this powerful dual biography of two transformative leaders, Napoleon Bonaparte and Charles de Gaulle. Both became national figures at times of crisis and war. They were hailed as saviors and were eager to embrace the label. They were also animated by quests for personal and

national greatness, by the desire to raise France above itself and lead it on a mission to enlighten the world. Both united an embattled nation, returned it to dignity, and left a permanent political legacy—in Napoleon's case, a form of administration and a body of civil law; in de Gaulle's case, new political institutions. Gueniffey compares Napoleon's and de Gaulle's journeys to power; their methods; their ideas and writings, notably about war; and their postmortem reputations. He also contrasts their weaknesses: Napoleon's limitless ambitions and appetite for war and de Gaulle's capacity for cruelty, manifested most clearly in Algeria. They were men of genuine talent and achievement, with flaws almost as pronounced as their strengths. As many nations, not least France, struggle to find their soul in a rapidly changing world, Gueniffey shows us what a difference an extraordinary leader can make.

**L'agonie de Jésus** Editions Gallimard

Cet ouvrage est une réédition numérique d'un livre paru au XXe siècle, désormais indisponible dans son format d'origine.

*La Constitution de la IVe République à l'épreuve de la guerre* Hachette UK

Examining the clandestine and subversive activities of Algerian nationalists in West Germany and Europe, Mathilde Von Bulow sheds new light on the extent to which FLN activities and French counter-measures impacted the conflict in Algeria and the politics of the global Cold War.

**Kierkegaard and Existentialism** Soleb

The existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth

century. In Kierkegaard's writings one can find a rich array of concepts such as anxiety, despair, freedom, sin, the crowd, and sickness that all came to be standard motifs in existentialist literature. The articles feature figures from French, German, Spanish and Russian traditions of existentialism. They examine the rich and varied use of Kierkegaard by these later thinkers, and importantly, they critically analyze his purported role in this famous intellectual movement.

**Les Congrès de la IVe Internationale: L'Internationale dans la guerre, 1940-1946** Harvard University Press

The author of more than 2,000 books and pamphlets, Voltaire (François-Marie Arouet, 1694-1778) was one of the most prolific writers of the eighteenth century, and also one of the wittiest and most insightful. This unique collection of over 800 of Voltaire's wisest passages and choicest bons mots runs the gamut on topics from adultery to Zoroaster, in both English and French. Drawing from a wide range of his publications, private letters, and remarks recorded by his contemporaries, The Quotable Voltaire includes material never before gathered in a single volume. English translations appear alongside the original French, and each quote is thoroughly indexed and referenced, with page numbers for both the first known publication edition of each entry and the most recent edition of Voltaire's works. The book also features over 400 quotes about Voltaire, including commentary by eighteenth-century luminaries like Samuel Johnson, Catherine the Great, Casanova, and John Adams, as well as an eclectic assortment of modern-day personages ranging from Winston Churchill and Jorge Luis Borges to Mae West and Mike Tyson. Lavishly illustrated with nearly three dozen images of Voltaire-related art, this collection opens with a scholarly essay that recounts the great man's life and reflects on his outsized influence on Western culture. Whether you are a Voltaire scholar or a neophyte, The Quotable Voltaire is the perfect introduction to a brilliant mind.

Comment et de quoi nos ancêtres mourraient-ils ? Comment préparaient-ils cette ultime échéance et quels usages, quelles pratiques entouraient le décès ? Une équipe pluridisciplinaire d'historiens s'est attachée à cerner l'évolution des attitudes collectives et individuelles devant la mort dans cette région, de l'Antiquité tardive au XIXe siècle. « Copyright Electre »

*In the Shadow of the General* Springer

'Stimulating, erudite and above all entertaining...For any reader tired of the seemingly endless round of Churchill-worship' Robert Harris A radical biography for a new generation In A.J.P. Taylor's words, Churchill was 'the saviour of his country' when he became prime minister in 1940. Yet he was also a deeply flawed character. Giving due credit to Churchill's achievements but making no secret of his failures, Geoffrey Wheatcroft takes a radically different approach to other biographies. Going far beyond a reappraisal of a life and a career, he reveals the complex shadow Churchill has cast over post-war British history and contemporary politics. Telling the story of Churchill's extraordinary life and the equally fascinating one of his legacy, Churchill's Shadow focuses on how we as a nation have been living in the grip of his self-written myth ever since his death. 'This is the indispensable biography of Churchill for the post-Brexit 2020s' David Kynaston, author of On the Cusp: Days of '62 'Wheatcroft is a skilled prosecutor with a rapier pen...this could be the best single-volume indictment of Churchill yet written' New York Times 'A clear-eyed, incisive and superbly balanced account of Churchill, the man and the myth' Robert Gildea, author of Empires of the Mind

**Le grand dictionnaire Hachette-Oxford** Walter de Gruyter GmbH & Co KG

Through a close reading of seven literary memoirs of the Nazi Occupation of France, Refiguring Les Années Noires: Literary Representations of the Nazi Occupation shows how the memory of the period has been shaped by political and social factors. An interdisciplinary study incorporating trauma theory, history, and folklore studies, this book examines representations of the Occupation by a diverse group of writers ranging from a female Resistance fighter to one of the first French Roma novelists. The methodological diversity of the volume brings to the fore each author's unique perspective and demonstrates that their works are at once historically and artistically significant. Above all, this book gives voice to groups whose experiences in occupied France have largely been forgotten.

*Napoleon and de Gaulle* FeniXX

A book that lists French language words and gives their equivalent in English, and English language words with their equivalent in French.

**Decolonization and the French of Algeria** Rutgers University Press

In 1962, almost one million people were evacuated from Algeria. France called these citizens Repatriates to hide their French Algerian origins and to integrate them into society. This book is about Repatriation and how it became central to France's postcolonial understanding of decolonization, the Algerian past, and French identity.

**Les Congrès de la IVe Internationale: Naissance de la IVe Internationale, 1930-1940** Cambridge University Press

Charles De Gaulle's leadership of the French while in exile during World War II cemented his place in history. In contemporary France, he is the stuff of legend, consistently acclaimed as the nation's pre-eminent historical figure. But paradoxes abound. For one thing, his personal popularity sits oddly with his social origins and professional background. Neither the Army nor the Catholic Church is particularly well-regarded in France today, as they are seen to represent antiquated traditions and values. So why, then, do the French nonetheless identify with, celebrate, and even revere this austere and devout Catholic, who remained closely wedded to military values throughout his life? In *The Shadow of the General* resolves this mystery and explains how de Gaulle has come to occupy such a privileged position in the French imagination. Sudhir Hazareesingh's story of how an individual life was transformed into national myth also tells a great deal about the French collective self in the twenty-first century: its fractured memory, its aspirations to greatness, and its manifold anxieties. Indeed, alongside the tale of de Gaulle's legacy, the author unfolds a much broader narrative: the story of modern France.

**Le plan du IVe livre de l'"Énéide,"** Rowman & Littlefield

When we think of France we often evoke images of fine food and wine, the elegant boulevards of Paris, the chic beaches of St Tropez. Yet, as the largest country in Europe, it is a place of huge diversity. The idea of 'Frenchness' emerged from over 2000 years of history and it is a riveting story from Roman conquest to the present day. Cecil Jenkins tells the story of the formation of this nation through its people, great events and culture. Through this narrative he charts why the French began to see themselves as so different from the rest of Europe and why, today, they face the same problems of identity as many other nations.

**La France contemporaine** FeniXX

L'histoire politique et syndicale du Sénégal entre 1939 et 1960 est particulièrement riche. Elle est liée étroitement à celle de l'Afrique noire française et bien des événements qui se sont déroulés à Dakar, capitale fédérale de l'AOF, ont eu des conséquences sur la vie politique sénégalaise. Les principaux hommes politiques sénégalais de l'époque comme Lamine Guèye, Léopold Sedar Senghor, Mamadou Dia ont été des acteurs de la vie politique française en qualité de ministres, de députés, de sénateurs. Ils sont intervenus au cours des débats parlementaires pour défendre les intérêts de leurs concitoyens et de tous les Africains des Fédérations. On comprendrait mal que soient laissés dans l'ombre les grands moments qui ont marqué les étapes de la décolonisation française sous la Quatrième République et les débuts de la Cinquième, ce qui explique qu'à travers l'évolution des rapports politiques du Sénégal avec la Métropole, on évoque en même temps une page de l'histoire de France et de l'Afrique au cours du XXe siècle. Les Sénégalais malgré un désir sincère de se rassembler ont éprouvé de nombreuses difficultés pour surmonter leurs divisions. Aussi, l'ouvrage se présente comme une chronique de la vie politique et syndicale d'un peuple qui lutte pour son indépendance. Celle-ci apparaît fréquemment comme un écheveau de situations fluctuantes qu'il a fallu analyser et expliquer. Sujets de l'Empire colonial français en 1939, citoyens au sein de l'Union française en 1946, les Sénégalais liés à la France depuis plus de trois siècles ont participé avec passion aux combats qui leur ont permis d'accéder à l'état d'indépendance en 1960. Comment y sont-ils parvenus ? Quelles luttes ont-ils menées en dépit de leurs divisions ? Plus de quarante années après cette période intense de leur histoire, il était temps, semble-t-il, grâce aux archives désormais disponibles, de jeter un regard sur ce passé, sans esprit partisan, et en toute amitié avec le peuple sénégalais.

**Histoire légendaire des Francs et des Burgondes aux IIIe et IVe siècles** FeniXX

Traçant un tableau de la guerre d'Algérie, comprenant les épisodes de l'enlèvement de Ben Bella ou le bombardement de Sakiet, l'auteur expose le rôle essentiel des Etats-Unis dans cette guerre et l'évolution des relations franco-américaines durant cette période. Une postface compare les crises algérienne et irakienne.
