### **LEON CRISTOPHER**

*Resilience* Policy Press

Amid the policy gridlock that characterizes most environmental debates, a new conservation movement has emerged. Known as “collaborative conservation,” it emphasizes local participation, sustainability, and inclusion of the disempowered, and focuses on voluntary compliance and consent rather than legal and regulatory enforcement. Encompassing a wide range of local partnerships and initiatives, it is changing the face of resource management throughout the western United States. *Across the Great Divide* presents a thoughtful exploration of this new movement, bringing together writing, reporting, and analysis of collaborative conservation from those directly involved in developing and implementing the approach. Contributors examine: the failure of traditional policy approaches recent economic and demographic changes that serve as a backdrop for the emergence of the movement the merits of, and drawbacks to, collaborative

decision-making the challenges involved with integrating diverse voices and bringing all sectors of society into the movement In addition, the book offers in-depth stories of eight noteworthy collaborative initiatives -- including the Quincy Library Group, Montana's Clark Fork River, the Applegate Partnership, and the Malpai Borderlands -- that explore how different groups have organized and acted to implement their goals. Among the contributors are Ed Marston, George Cameron Coggins, David Getches, Andy Stahl, Maria Varela, Luther Propst, Shirley Solomon, William Riebsame, Cassandra Moseley, Lynn Jungwirth, and others. *Across the Great Divide* is an important work for anyone involved with collaborative conservation or the larger environmental movement, and for all those who care about the future of resource management in the West.

**The Imposter's Inheritance** Crown Currency

NATIONAL BESTSELLER, updated with a new afterword “This is the definitive account of what has gone wrong in our two-party system, and how our democracy has to adapt to survive it. I can't say it in strong enough terms: Read. This. Book.” —RACHEL MADDOW The award-winning producer of *The Rachel Maddow Show* exposes the Republican Party as a gang of impostors, meticulously

documenting how they have abandoned their duty to govern and are gravely endangering America For decades, American voters innocently assumed the two major political parties were equally mature and responsible governing entities, ideological differences aside. That belief is due for an overhaul: in recent years, the Republican Party has undergone an astonishing metamorphosis, one so baffling and complete that few have fully reckoned with the reality and its consequences. Republicans, simply put, have quit governing. As MSNBC's Steve Benen charts in his groundbreaking new book, the contemporary GOP has become a "post-policy party." Republicans are effectively impostors, presenting themselves as officials who are ready to take seriously the substance of problem solving, but whose sole focus is the pursuit and maintenance of power. Astonishingly, they are winning—at the cost of pushing the political system to the breaking point. Despite having billed itself as the "party of ideas," the Republican Party has walked away from the hard but necessary work of policymaking. It is disdainful of expertise and hostile toward evidence and arithmetic. It is tethered to few, if any, meaningful policy preferences. It does not know, and does not care, about how competing proposals should be crafted, scrutinized, or implemented.

This policy nihilism dominated the party's posture throughout Barack Obama's presidency, which in turn opened the door to Donald Trump -- who would cement the GOP's post-policy status in ways that were difficult to even imagine a few years earlier. The implications of this approach to governance are all-encompassing. Voters routinely elect Republicans such as Mitch McConnell and Ted Cruz to powerful offices, expecting GOP policymakers to have the technocratic wherewithal to identify problems, weigh alternative solutions, forge coalitions, accept compromises, and apply some level of governmental competence, if not expertise. The party has consistently proven those hopes misguided. The result is an untenable political model that's undermining the American policymaking process and failing to serve the public's interests. The vital challenge facing the civil polity is coming to terms with the party's collapse as a governing entity and considering what the party can do to find its policymaking footing anew. The Impostors serves as a devastating indictment of the GOP's breakdown, identifying the culprits, the crisis, and its effects, while challenging Republicans with an imperative question: Are they ready to change direction? As Benen writes, "A great deal is riding on their answer."

Thirteen-year-old Jonah has always known that he was adopted, and he's never thought it was any big deal. Then he and a new friend, Chip, who's also adopted, begin receiving mysterious letters. The first one says, "You are one of the missing." The second one says, "Beware! They're coming back to get you." Jonah, Chip, and Jonah's sister, Katherine, are plunged into a mystery that involves the FBI, a vast smuggling operation, an airplane that appeared out of nowhere -- and people who seem to appear and disappear at will. The kids discover they are caught in a battle between two opposing forces that want very different things for Jonah and Chip's lives. Do Jonah and Chip have any choice in the matter? And what should they choose when both alternatives are horrifying? With *Found*, Margaret Peterson Haddix begins a new series that promises to be every bit as suspenseful as her *Shadow Children* series -- which has sold more than 41/2 million copies -- and proves her, once again, to be a master of the page-turner.

[Impostors 1](#) Simon and Schuster

A brief yet essential introduction to the New Testament that chronicles the real people-- and historical and literary movements--that created it.

[A Delicate Deception](#) Simon and Schuster

During his lifetime, he was better known as personal assistant of actor Henry Irving and business manager of the Lyceum Theatre in London, which Irving owned.

[Among the Free](#) Simon and Schuster

Alexandrea has just moved to Harlem and her mother is pushing her into ballet and she has stage fright.

[The Imposter Syndrome](#) Simon and Schuster

So my only protection is a kindergarten teacher and a ninety-eight-pound female minister....And they don't even believe I'm in danger. As Bethany approaches her thirteenth birthday, her parents begin acting more oddly than usual: Her mother cries constantly, and her father barely lets Bethany out of his sight. Then one morning he hustles the entire family into the car, drives across several state lines -- and leaves Bethany with an aunt she never knew existed. Bethany has no idea what's going on. She's worried that her mom and dad are running from some kind of trouble, but she can't find out because they won't tell her where they are going. Bethany's only clue is a few words she overheard her father tell her aunt Myrlie: "She doesn't know anything about

Elizabeth." But Aunt Myrlie won't tell Bethany who Elizabeth is, and she won't explain why people in her small town react to Bethany as if they've seen a ghost. The mystery intensifies when Bethany gets a package from her father containing four different birth certificates from four states, with four different last names -- and thousands of dollars in cash. And when a strange man shows up asking questions, Bethany realizes she's not the only one who's desperate to unravel the secrets of her past. In this exhilarating thriller, Margaret Peterson Haddix crafts a taut story so full of twists and turns, readers will be gripped until the startling conclusion.

[The Imposter as Social Theory](#) Delacorte Press

USA Today Bestseller A sordid scandal rocks the Glass household and threatens to ruin Matt's family unless he can suppress it. But after word gets out, and a rare magical coronet is stolen, he and India find themselves scrambling to recover the heirloom and suppress the gossip before reputations are ruined. To make matters worse, someone is sending threatening letters to the magicians of London, stirring up trouble between the artless and magicians. Tensions are rising, but India and Matt choose not to investigate - until the author of the letters is assaulted. As if they don't have enough on their plate, Willie is jailed. The reason for her arrest is...complicated.

[Across the Great Divide](#) Esplanade Books

After a week of hearing ghostly noises, a man is visited in his home by the spirit of his mother, dead for three decades. She reproaches him for his dissolute life and begs him to have Masses said in her name. Then she lays her hand on his sleeve, leaving an indelible burn mark, and departs... A Lutheran minister, no believer in Purgatory, is the puzzled recipient of repeated visitations from "demons" who come to him seeking prayer, consolation, and refuge in his little German church. But pity for the poor spirits overcomes the man's skepticism, and he marvels at what kind of departed souls could belong to Christ and yet suffer still... *Hungry Souls* recounts these stories and many others trustworthy, Church-verified accounts of earthly visitations from the dead in Purgatory. Accompanying these accounts are images from the "Museum of Purgatory" in Rome, which contains relics of encounters with the Holy Souls, including numerous evidences of hand prints burned into clothing and books; burn marks that cannot be explained by natural means or duplicated by artificial ones. Riveting!

[Under Their Skin](#) Simon and Schuster

Danger continues to loom over Luke now that he's out of hiding in the second book in bestselling author Margaret Peterson Haddix's *Shadow Children* series. Luke Garner is an illegal third child. All his life has been spent in hiding. Now, for the first time, Luke is living among others. He has assumed a deceased boy's identity and is attending Hendricks School for Boys, a windowless building with cruel classmates and oblivious teachers. Luke knows he has to blend in, but he lives in constant fear that his behavior will betray him. Then one day Luke discovers a door to the outside. He knows that beyond the walls of Hendricks lie the secrets he is desperate to uncover. What he doesn't know is whom he can trust -- and where the answers to his questions may lead him...

[Unmasked by the Marquess](#) Simon and Schuster

Allowing herself to be hypnotized, fifteen-year-old Kira reveals memories of another time and place that may eventually cost her and her mother their lives.

[Hungry Souls](#) Catholic Answers Press

HIDE OR FIGHT? Matthias, an illegal third child, is caught in the cross fire between rebels and the Population Police. When he unwittingly saves a Population Police officer, Matthias is brought to Population Police headquarters to train as an officer himself. There he meets Nina, another third-born who enlists his help in a plot to undermine the Population Police. But Matthias is under constant scrutiny, and he has no idea whom he can trust. What can one boy do against a wicked bureaucracy?

[Cross-linguistic Studies of Imposters and Pronominal Agreement](#) Simon and Schuster

Learn to take ownership of your success, overcome self-doubt, and banish the thought patterns that undermine your ability to feel—and act—as bright and capable as others already know you are with this award-winning book by Valerie Young. It's only because they like me. I was in the right place at the right time. I just work harder than the others. I don't deserve this. It's just a matter of time before I am found out. Someone must have made a terrible mistake. If you are a working woman, chances are this internal monologue sounds all too familiar. And you're not alone. From the high-achieving Ph.D. candidate convinced she's only been admitted to the program because of a clerical error to the senior executive who worries others will find out she's in way over her head, a shocking number of accomplished women in all career paths and at every level feel as though

they are faking it—impostors in their own lives and careers. While the impostor syndrome is not unique to women, women are more apt to agonize over tiny mistakes, see even constructive criticism as evidence of their shortcomings, and chalk up their accomplishments to luck rather than skill. They often unconsciously overcompensate with crippling perfectionism, overpreparation, maintaining a lower profile, withholding their talents and opinions, or never finishing important projects. When they do succeed, they think, Phew, I fooled 'em again. An internationally known speaker, Valerie Young has devoted her career to understanding women's most deeply held beliefs about themselves and their success. In her decades of in-the-trenches research, she has uncovered the often surprising reasons why so many accomplished women experience this crushing self-doubt. In *The Secret Thoughts of Successful Women*, Young gives these women the solution they have been seeking. Combining insightful analysis with effective advice and anecdotes, she explains what the impostor syndrome is, why fraud fears are more common in women, and how you can recognize the way it manifests in your life.

[Among the Enemy](#) e-artnow

How we can all be lifelong wonderers: restoring the sense of joy in discovery we felt as children. From an early age, children pepper adults with questions that ask why and how: Why do balloons float? How do plants grow from seeds? Why do birds have feathers? Young children have a powerful drive to learn about their world, wanting to know not just what something is but also how it got to be that way and how it works. Most adults, on the other hand, have little curiosity about whys and hows; we might unlock a door, for example, or boil an egg, with no idea of what happens to make such a thing possible. How can grown-ups recapture a child's sense of wonder at the world? In this book, Frank Keil describes the cognitive dispositions that set children on their paths of discovery and explains how we can all become lifelong wonderers. Keil describes recent research on children's minds that reveals an extraordinary set of emerging abilities that underpin their joy of discovery—their need to learn not just the facts but the underlying causal patterns at the very heart of science. This glorious sense of wonder, however, is stifled, beginning in elementary school. Later, with little interest in causal mechanisms, and motivated by intellectual blind spots, as adults we become vulnerable to misinformation and manipulation—ready to believe things that aren't true. Of course, the polymaths among us have retained their sense of wonder, and Keil explains the habits of mind and ways of wondering that allow them—and can enable us—to experience the joy of asking why and how.

[Word Travelers and the Taj Mahal Mystery](#) Zondervan

Edited by expert scholars, this volume explores the 'imposter' through empirical cases, including click farms, bikers, business leaders and fraudulent scientists, providing insights into the social relations and cultural forms from which they emerge.

[Uglies](#) Shearwater Books

Imposters are third person DPs that are used to refer to the speaker/writer or addressee, such as: (i) Your humble servant finds the time before our next encounter very long. (ii) This reporter thinks that the current developments are extraordinary. (iii) Daddy will be back before too long. (iv) The present author finds the logic of the reply faulty. This volume explores verbal and pronominal agreement with imposters from a cross-linguistic perspective. The central questions for any given language are: (a) How do singular and plural imposters agree with the verb? (b) When a pronoun has an imposter antecedent, what are the phi-features of the pronoun? The volume reveals a remarkable degree of variation in the answers to these questions, but also reveals some underlying generalizations. The contributions describe imposters in Bangla, Spanish, Albanian, Indonesian, Italian, French, Romanian, Mandarin and Icelandic.

[Famous Imposters \(Pretenders & Hoaxes including Queen Elizabeth and many more revealed by Bram Stoker\)](#) Simon and Schuster

In the third installment of Haddix's series about a futuristic society in which families are forbidden to have more than two children, Nina, a secondary character in *Among the Impostors*, is falsely accused of treason and imprisoned by the Population Police. Her interrogator gives her an ultimatum: either she can get three other child prisoners, illegal third-borns like Nina, to reveal who harbored them and where they got their fake identification cards, or she will be executed. Nina sees a chance to escape the prison and, taking the prisoners with her, quickly discovers their street smarts. But when their food supply runs out, Nina seeks the boy she knew as Lee.

[Wonder](#) MIT Press

In this fourth installment of a series about a society that allows only two children per family, Luke Garner is finally adjusting to his new life at Hendricks School as Lee Grant. While the Grants belong

to the highest class of society called the Barons, Luke avoids snobbish affectations and befriends his classmates, who are also illegal thirds. When the real Lee Grant's younger brother arrives at the school, along with his fierce body guard, Luke worries that Smits will expose him to the government. However, Smits has come to enlist Luke's help in discovering how his older brother really died, suspecting that he was murdered. The intrigue and danger grow more acute when both boys are called "home" and Luke discovers that the Grants have plans for him that could turn out to be fatal.

**Dare to Lead** Simon and Schuster

Pastor and author J. D. Greear reveals that the secret to a robust, passionate faith isn't getting all the right answers about God, but seeing God as the awesome, glorious, and infinite presence that He is. We like God small. We prefer a God who is safe, domesticated, who thinks like we think, likes what we like, and whom we can manage, predict, and control. A small God is convenient. Practical. Manageable. For us, thinking of God as so infinitely greater and wiser than we are and who would cause us to tremble in his presence is a leftover relic from an oppressive, archaic view of religion.

But what if this small version of God we've created is holding us back from the greatest experience of our lives--from genuine, confident, world-transforming faith? In *Not God Enough*, J.D. reveals how to discover a God who: is big enough to handle your questions, doubts, and fears is not silent is worthy of worship wants to take you from boring to bold in your faith has a purpose and mission for you on earth is pursuing you right now The truth: God is big. Bigger than big. Bigger than all the words we use to say big. Only a God of infinite power, wisdom, and majesty can answer our deepest questions and meet our deepest longings. God is not just a slightly better, slightly smarter version of you. God is infinite and glorious, and an encounter with Him won't just change the way you think about your faith. It'll change your entire life.

**Not God Enough** Simon and Schuster

Develop the skills necessary for precepting RN and APRN students and new orientees! The *Nurse Preceptor Toolkit* is written by and for RN and APRN clinicians and faculty members from a variety of levels, specialties, and settings. Using real-life examples and practical tips, this comprehensive resource answers the questions preceptors often ask when interacting with students of all levels, as well as new orientees. Within its pages, you'll find everything you need to develop and solidify

the clinical teaching skills essential to becoming an effective preceptor. - This completely new book serves as a comprehensive resource for precepting both RN and APRN students and new orientees. - Coverage addresses questions preceptors have asked when interacting with students of all levels, as well as with new orientees. - Content is written by and for RN and APRN clinicians and faculty members from a variety of levels, specialties, and settings. - Real-life examples and practical tips guide the development and solidification of the clinical teaching skills needed to become an effective preceptor. - Coverage of essential precepting topics includes effective communication, flexibility, time management skills, providing feedback and support, an understanding of different adult learning styles, and the ability to confidently evaluate student knowledge and competencies. - Chapter objectives serve as "advance organizers" to help prepare you for the content that follows. - Exemplars model excellence in clinical precepting through contributor-authored stories of successful faculty-preceptor-learner partnerships related to the content of each chapter. - Boxes highlight tips from successful preceptors. - Appendices provide ready-to-use tools to enhance the preceptor-learner experience.
