How to Be a Wildflower Laurence King Publishing

For fans of *The Little Paris Bookshop* and *The Elegance of the Hedgehog*, *The Girl Who Reads on the Métro* is the French phenomenon by Christine Féret-Fleury, ready to charm book-lovers everywhere . . . When Juliette takes the métro to her loathed office job each morning, her only escape is in books – she avidly reads on her journey and imagines what her fellow commuters' choices might say about them. Then she meets Soliman – the mysterious owner of the most enchanting bookshop Juliette has ever seen – and things will never be the same again. For Soliman believes in the power of books to change the course of a life, and he's about to change Juliette's forever . . .

"Bound offers approximately 25-30 bookbinding projects showcasing beautiful exposed bindings. Classified in chapters entitled Vintage, Nature, and Leather, projects include a mason jar book, a seashell book, and a classic-looking leather-bound photo album, to name a few. Beginners will find plenty of entry-level projects to enjoy, while more experienced book artists will learn new ways to do old binding techniques. The Basics section and each project are illustrated with gorgeous, bright beauty shots and whimsical-but-clear illustrations. Ms. Ekrem uses her way with words and her

talented hand at book arts to take readers on a little stroll into their own imagination (or their memory) with each creation"--

From style wilderness to height of cool, taxidermy has staged an extraordinary comeback. No longer confined to stately homes, stuffed animals are appearing everywhere from modern apartments to luxury department stores. High-profile artists have rejuvenated the medium and museums have dusted down their historic collections and put them back on display. Illustrated with stunning photography that explores this rich artform, past and present, this title is the most comprehensive and beautiful survey of taxidermy ever produced.

A Kirkus Best Picture Book of 2020 "A beautiful, fully realized dreamscape." —Kirkus Reviews (starred review) Little Fox frolics with butterflies, scavenges for food, and searches for new friends—despite his father's warning that danger lurks all around. Then one day he takes a tumble, bumps his head, and starts dreaming of things that reflect both the beauty he's seen and the scary things he's heard. Marije Tolman's ingenious illustrations use a fresh technique that feels like a movie and a dream, starring the cheerful, bright orange Little Fox on grainy mixed media landscapes of blue and green. And when Little Fox wakes up, he's perhaps a little wiser, but still every bit as curious and full of life.

For much of the twentieth century improvement in the situation of disadvantaged communities was a focus for urban planning and policy. Yet over the past three decades the ideological triumph of neoliberalism has caused the allocation of spatial, political, economic, and financial resources to favor economic growth at the expense of wider social benefits. Susan Fainstein's concept of the "just city" encourages planners and policymakers to embrace a different approach to urban development. Her objective is to combine progressive city planners' earlier focus on equity and material well-being with considerations of diversity and participation so as to foster a better quality of urban life within the context of a global capitalist political economy. Fainstein applies theoretical concepts about justice developed by contemporary philosophers to the concrete problems faced by urban planners and policymakers and argues that, despite structural obstacles, meaningful reform can be achieved at the local level. In the first half of *The Just City*, Fainstein draws on the work of John Rawls, Martha Nussbaum, Iris Marion Young, Nancy Fraser, and others to develop an approach to justice relevant to twenty-first-century cities, one that incorporates three central concepts: diversity, democracy, and equity. In the book's second half, Fainstein tests her ideas through case studies of New York, London, and Amsterdam by evaluating their postwar programs for housing and development in relation to the three norms. She concludes by identifying a set of specific criteria for urban planners and policymakers to consider when developing programs to assure greater justice in both the process of their formulation and their effects.

A fast-paced and exciting read for middle grade fantasy, mystery, and animal buffs. Something strange is happening at the Clarksville City Zoo. Late at night, monkeys are scaling the walls and searching the neighborhood—but what are they looking for? Noah, his sister Megan, and their best friends, Richie and Ella, live next door to the zoo. Megan is the first to notice the puzzling behavior of some of the animals. One day Megan disappears, and her brother and their friends realize it's up to them to find her. Their only choice is to follow a series of clues and sneak into the zoo. But once inside, they discover there's much more to the Clarksville City Zoo than they could ever have guessed... The author originally had the idea for *The Secret Zoo* when he was nine and wondered what would happen if zoo exhibits had secret doors that allowed kids to go inside—and the animals to come outside. He brings that sense of adventure and excitement to this story, making it a favorite for home and classroom reading along with such middle grade fantasy favorites as *The One and Only Ivan*.

How did the table fork acquire a fourth tine? What advantage does the Phillips-head screw have over its single-grooved predecessor? Why does the paper clip look the way it does? What makes Scotch tape Scotch? In this delightful book Henry, Petroski takes a microscopic look at artifacts that most of us count on but rarely contemplate, including such icons of the everyday as pins, Post-its, and fast-food "clamshell" containers. At the same time, he offers a convincing new theory of technological innovation as a response to the perceived failures of existing products—suggesting that irritation, and not necessity, is the mother of invention.

Anleitung Zur Kupferstichkunde Vintage

There was a time, as recently as the 1980s, when storefronts, murals, banners, barn signs, billboards, and even street signs were all hand-lettered with brush and paint. But, like many skilled trades, the sign industry has been overrun by the techno-fueled promise of quicker and cheaper. The resulting proliferation of computer-designed, die-cut vinyl lettering and inkjet printers has ushered a creeping sameness into our visual landscape. Fortunately, there is a growing trend to seek out traditional sign painters and a renaissance in the trade. In 2010 filmmakers Faythe Levine, coauthor of *Handmade Nation*, and Sam Macon began documenting these dedicated practitioners, their time-honored methods, and their appreciation for quality and craftsmanship. *Sign Painters*, the first anecdotal history of the craft, features stories and photographs of more than two dozen sign painters working in cities throughout the United States. With a foreword by legendary artist (and former sign painter) Ed Ruscha, this vibrant book profiles sign painters young and old, from the new vanguard working solo to collaborative shops such as San Francisco's *New Bohemia Signs* and New York's *Colossal Media* s *Sky High Murals*.

Lauded for its contribution to the theory and conceptualization of the field of women's history and for its sensitivity to the differences of class, ethnicity, race, and culture among women, *The Majority Finds Its Past* became a classic volume in women's history following its publication in 1979. This edition includes a foreword by Linda K. Kerber, introducing a new generation of readers to Gerda Lerner's considerable body of work and highlighting the importance of the essays in this collection to the development of the field that Lerner helped establish.
