For decades, Screen World has been the film professional's, as well as the film buff's, favorite and indispensable annual screen resource, full of all the necessary statistics and facts. Now Screen World editor Barry Monush has compiled another comprehensive work for every film lover's library. In the first of two volumes, this book chronicles the careers of every significant film actor, from the earliest silent screen stars - Chaplin, Pickford, Fairbanks - to the mid-1960s, when the old studio and star systems came crashing down. Each listing includes: a brief biography, photos

from the famed Screen World archives, with many rare shots; vital statistics; a comprehensive filmography; and an informed, entertaining assessment of each actor's contributions - good or bad! In addition to every major player, Monush includes the legions of unjustly neglected troupers of yesteryear. The result is a rarity: an invaluable reference tool that's as much fun to read as a scandal sheet. It pulsates with all the scandal, glamour, oddity and glory that was the lifeblood of its subjects. Contains over 1 000 photos!

In this third edition of their best-selling classic, authors Lee Bolman and Terrence Deal explain the powerful tool of "reframing." The authors have distilled the organizational literature into a comprehensive approach for looking at situations from more than one angle. Their four frames view organizations as factories, families, jungles, and theaters or temples: The Structural Frame: how to organize and structure groups and teams to get results The Human Resource Frame: how to tailor organizations to satisfy human needs, improve human resource management, and build positive interpersonal and group dynamics The Political Frame: how to cope with power and conflict, build coalitions, hone political skills, and deal with internal and external politics The Symbolic Frame: how to shape a culture that gives purpose and meaning to work, stage organizational drama for internal and external audiences, and build team spirit through ritual, ceremony, and story

All I want is to be normal, go to high school, and have a boyfriend or two. That's all. My life would be much better if I was human again. I didn't ask for any of this! Now I'm just half a monster. They tell me I have to improve my temperament, use my mind voice, find the taken scientists. Not my jam, people! They constantly rag at me that what happened was a gift. There was design in my death. "Just make the best of it," they say. "Be the gift to the world that your parents envisioned," they say. "Make a difference! Save the world!" they say. Too extra! Bet my murdered parents never in their wildest dreams anticipated that I'd be driving one of their AI synthetic bod suits! Twice! Ironic, right? Their brilliant cutting-edge technology trapped me forever. I have cool superpowers, yes, but I don't want them. I want to go to prom!

By the middle 1800s, toys were appearing in forms that drew upon--and that inspired--advances in areas such as optics, biology, geography, transportation, and automation. In these decades, too, a new type of wonder tale was being brought to

maturity by a Poe-inspired Jules Verne. The modern wonder tale's highly-charged vision expressed the hopes and the fears, and the delights and the traumas, engendered by "new worlds idealism"--that Western pursuit of both mechanical and geographical conquest. Exploring realms belonging to childhood, literature, science, and history, this innovative study weaves together the histories of wonder tales and children's toys, focusing specifically on their modern aspects and how they reflect and express the social attitudes of that time period beginning around 1859 and ending around 1957.
