Routledge

Every year since 1933 many of the world's leading intellectuals have met on Lake Maggiore to discuss the latest developments in philosophy, history, art and science and, in particular, to explore the mystical and symbolic in religion. The Eranos Meetings - named after the Greek word for a banquet where the guests bring the food - constitute one of the most important gatherings of scholars in the twentieth century. The book presents a set of portraits of some of the century's most influential thinkers, all participants at Eranos: Carl Jung, Erich Neumann, Mircea Eliade, Martin Buber, Walter Otto, Paul Tillich, Gershom Scholem, Herbert Read, Joseph Campbell, Erwin Schrodinger, Karl Kereyni, D.T.

Suzuki, and Adolph Portmann. The volume presents a critical appraisal of the views of these men, how the exchange of ideas encouraged by Eranos influenced each, and examines the attraction of these esotericists towards authoritarian politics.

First published in 1996. Now updated with a new information-packed 40-page Supplement covering the years 1990-1995, this

unique Encyclopedia highlights the World of King Arthur from its origins in Dark Age Britain to the present day, when Arthurian novels, films, and music continue to appear around the world at an astonishing rate. The Supplement, which provides five full years of coverage not available anywhere else, enhances the usefulness of more than 1,300 entries on all aspects of the Arthurian legend-in literature, history, folklore, archaeology, art, and music. Written by an international team of over 130 authorities, no other work approaches this A-Z guide to the legends of King Arthur and his knights of the Round Table for breadth and depth of coverage. This is the ultimate source for reliable information on topics as diverse as the Grail, Tristan and Isolde, Lancelot and Guenevere, Arthurian operas, the historicity of Arthur, and more.

Whilst accounting for the present-day popularity and relevance of Alan Watts' contributions to psychology, religion, arts, and humanities, this interdisciplinary collection grapples with the ongoing criticisms which surround Watts' life and work. Offering rich examination of as yet underexplored aspects of Watts' influence in 1960s counterculture, this volume offers unique application of Watts' thinking to contemporary issues and critically engages with controversies surrounding the commodification of Watts' ideas, his alleged misreading of Biblical texts, and his apparent distortion of Asian religions and spirituality. Featuring a broad range of international contributors and bringing Watts' ideas squarely into the contemporary context, the text provides a comprehensive, yet nuanced exploration of Watts' thinking on psychotherapy, Buddhism, language, music, and sexuality. This text will benefit researchers, doctoral students, and academics in the fields of psychotherapy, phenomenology, and the philosophy of psychology more broadly. Those interested in Jungian psychotherapy, spirituality, and the self and social identity will also enjoy this volume.

Pierre Wack was head of scenario planning at Royal Dutch / Shell Oil in London for just over ten years. He died in 1997. He was a pioneer of what we know today as scenario planning – an alternative and complement to strategic planning. Scenarios explore a variety of possible futures for examining decisions in organizational planning. Pierre was a unique man with interests in Indian and Japanese cultures and traditions. He travelled extensively and led a unique life that involved long periods of visiting gurus in India and extended sabbaticals in Japan. His experiences with Eastern thought no doubt shaped his ability to evolve the scenario method at Shell, and as a result he was able to lead a team that foresaw the oil crises of the 1970's and 80's. This new volume will cover the basic context of his life timeline and attach it to the development of his thinking about scenario planning over the course of his career. After his death, Wack's materials, papers and documents were collected by Napier Collins and have recently been made available at the University of Oxford where the Pierre Wack Memorial Library has been established. These documents contain a variety of clues and stories that reveal more about who Pierre Wack was, how he thought and will provide details about scenario planning that have never been seen or published. They also reveal a curious man and include a timeline written by his wife, Eve, which details their relationship over the course of 40 years. Written for management and business historians and researchers, this book will uncover unseen contributions by a scenario planning pioneer shaped by significant events in his personal life that helped him to see the world differently.

Contentment is a super power. If you can learn the skills of contentment, your life will be better in so many ways: You'll enjoy your life more. Your relationship will be stronger. You'll be better at meeting people. You'll be healthier, and good at forming healthy habits. You'll like and trust yourself more. You'll be jealous less. You'll be less angry and more at peace. You'll be happier with your body. You'll be happier no matter what you're doing or who you're with. Those are a lot of benefits, from one small bundle of skills. Putting some time in learning the skills of contentment is worth the effect and will pay off for the rest of your life.

Pour quelles raisons intimes s'engage-t-on dans une vocation telle que la médecine ? La quête d'une guérison intérieure n'y est-elle pas inhérente ? Dans ce témoignage le docteur Lanos dépeint dans une aventure pétillante ses années de formation médicale, jusqu'à ses premiers pas de médecin généraliste et acupuncteur. En se confiant sans détour sur sa propre histoire, il dresse un tableau tout à la fois élogieux et critique de la médecine moderne. Mais au-delà des anecdotes et de l'humour, la dynamique de ce récit ne cesse d'être nourrie par une quête de réponses intérieures. C'est en honorant la beauté du vécu de chaque patient que l'auteur explore en miroir ses propres peurs, ses interrogations sur la mort et la souffrance et sur le sens du soin. Par une écriture sensible mélangeant récit et réflexions, on plonge dans les péripéties vibrantes du médecin et découvre avec lui l'importance centrale de « l'être » dans la relation soignante, dont les sagesses universelles témoignent depuis toujours. À PROPOS DE L'AUTEUR Gireg LANOS est médecin acupuncteur, diplômé du doctorat de médecine générale depuis 2018. Particulièrement sensible à l'approche holistique de la maladie, il a exercé durant sept années en qualité de médecin traitant remplaçant, en milieu rural comme urbain. Après avoir travaillé bénévolement avec Médecins du Monde durant dix-huit mois, il s'est formé à la médecine chinoise à la faculté de médecine de Nantes. Depuis, il ne cesse dans sa pratique d'explorer les liens entre approche contemporaine du soin et démarche traditionnelle.

Mélanges de littérature grecque contenant un grand nombre de textes inédits par E. Miller

S'il n'existe pas toujours des moyens de guérison, il en existe pour adoucir la peine. Roald est atteint de la maladie de Parkinson, mais cette nouvelle réalité est si inflexible dans son acceptation qu'il va devoir se dépasser et entreprendre un chemin d'ordre plus spirituel pour ne pas sombrer dans la souffrance, la haine ou la révolte. Mial, membre de la fédération zen, l'initiera au bouddhisme et à la méditation et c'est sur ses conseils qu'il se lancera dans l'écriture d'un roman... Dans cet ouvrage Marc Loret nous fait entrer dans la vie intime et quotidienne d'un homme touché par la maladie : ses doutes, ses peurs, ses constats, ses échecs, ses réussites, ses moments de désespoir, mais aussi de joie et de bonheur... Autant de choses que nous partageons avec cet attachant protagoniste. C'est avec beaucoup d'ingéniosité et d'humour que l'auteur traite d'un thème grave et sérieux qui affecte un grand nombre d'entre nous et qui est pourtant si étranger aux autres... Un roman plein de philosophie, une fiction encourageante et pleine d'espoir pour les personnes atteintes de la maladie de Parkinson. EXTRAIT  
Gongggg ! Gongggg ! Gongggg ! Je sursautai dans mon lit douillet pour la troisième fois, émergeant aux antipodes de la réalité. Bien que ce son étrange me fut familier, sa teneur en grave était si pleine, si ronde, si envoûtante que des profondeurs de mon éveil, j'éprouvai la sensation, que mon corps, à chaque vibration résonnait en harmonie, en accordance avec l'univers. Après une courte pause d'un silence honorifique, régénérateur, très vite, le mécanisme répétitif de la machine reprit, déclenchant cette fois, une alarme Pavlovienne. Dans les affres du brouillard onirique, je m'efforçai à tâtons de mobiliser mes récepteurs sensitifs mollement endormis. J'ouvris pour l'occasion, un œil, puis deux, une oreille en alerte, l'autre, écrasée sur l'oreiller... objectif premier, identifier, localiser le trouble-fête. Même dans l'état éthéré où je me trouvais, je savais que seuls, le réveil et la porte d'entrée pouvaient revêtir cette identité sonore. A PROPOS DE L'AUTEUR Marc Loret est lui-même atteint de la maladie de Parkinson, et c'est pour partager ce à quoi ressemble son quotidien, mais surtout montrer qu'il ne faut pas s'en tenir au diagnostic médical seul et continuer à « vivre au présent ».
