What are families like in contemporary France?
And what begins to emerge when we consider them from the point of view of recent theoretical perspectives: (faulty)

cohesion, (fake) coherence, (carefully planned or subversive) deconstruction, loss (of love, confidence or credibility), or, even (utter) chaos and

(alarming) confusion? Which media revamp old stereotypes, generate alternative reinterpretations, and imply more ambiguous answers? ...]Uneasy contradictions and ambiguities emerge in this bilingual collection of approaches and genre studies. The family plot seems to thicken as family ties appear to loosen. Has the family' been lost from sight, or is it being reinvented in our collective imaginary? This book proposes a new series of perspectives and

questions on an old and familiar' topic, exploring the state and status of the family in contemporary literature, culture, critical and psychoanalytic theory and sociology.

In the popular imagination, the business media, and the schools of business and management that train new generations of entrepreneurs and executives, achieving extraordinary success in business is attributed to far-sighted individuals

who have taken bold risks, provided innovative leadership, and introduced new products, services, or ideas superior to those of the competition. Amid the growing skepticism about the means by which vast amounts of wealth are accumulated and its consequences, however, this belief is long overdue for reevaluation. In *From Predators to Icons*, Michel Villette, a sociologist, and Catherine Vuillermot, a business historian, examine the careers of thirty-two of today's

wealthiest global executives--including Warren Buffett, Ingvar Kamprad, Bernard Arnault, Jim Clark, and Richard Branson--in order to challenge the conventional explanations for their extreme success and come to a better understanding of modern business practices. In contrast to the familiar image of the entrepreneur as a visionary with a plan, Villette and Vuillermot instead discover a far less dramatic process of improvised adaptations gradually assembled into

a coherent course of conduct. And rather than being risk-takers, those who are most successful in business are risk-minimizers. Huge gains, these case studies reveal, are most reliably obtained in circumstances where the entrepreneur has established careful provisions for risk reduction. As for the view that innovation makes success possible, the authors find that because innovation is an expensive process that takes a long time to produce profits,

innovators first of all require capital; success makes innovation possible. The necessary resources, they show, are most often derived from what they provocatively term "predation" ruthlessly taking advantage of imperfections, weaknesses, and vulnerabilities within the market or among competitors. Finally, From Predator to Icon considers the "practical ethics" implemented during the phase in which capital is most rapidly

accumulated, as well as the social consequences of these activities. Drawing on interviews with some of their subjects and, crucially, close readings of the authorized biographies and other hagiographic accounts of these figures, which eliminates the bias of malicious interpretations, Villette and Vuillermot provide revelatory insights about the creation and maintenance of business wealth that will be profitably read by both the captains and the

critics of contemporary capitalism. *Délibérations Et Mémoires de la Société Royale Du Canada* TheBookEdition Ouvre les yeux ! C'est l'heure des leçons ! Écoute bien les Équi-Champions ! Comédie Humaine: A princess's secrets (Les secrets de la Princesse de Cadignan) 1898 Cornell University Press

Access to justice in environmental matters has been a topic for increasing legal discourse and law-making in international, European Community (EC) and national arenas. The 1998 Aarhus Convention provides new norms of

international law, inspired by the 1992 Rio Declaration. EC law on access to justice is being drafted and changes can be observed in the laws of the European Union (EU) members states. This timely book presents the state-of-the-art of access to justice in environmental matters in the European Union. It provides a thematic and comparative introduction of the topic, followed by thorough descriptions of EC law and the law of each EU member state. The chapters are written

In the halls of Versailles, the streets of Paris, and the soul of the Enlightenment itself, a vitriolic struggle was being waged over the question of ownership—of property, of position, even of personhood. Those who championed man's possession of material,

spiritual, and existential goods faced the successive assaults of radical Christian mystics, philosophical materialists, and political revolutionaries. The Virtues of Abandon traces the aims and activities of these three seemingly disparate groups, and the current of anti-individualism that permeated theology, philosophy, and politics throughout the period. Fired by the desire to abandon the self, men and women sought new ways to relate to God,

nature, and nation. They joined illicit mystic cults that engaged in rituals of physical mortification and sexual license, committed suicides in the throes of materialist fatalism, drank potions to induce consciousness-altering dreams, railed against the degrading effects of unfettered consumption, and ultimately renounced the feudal privileges that had for centuries defined their social existence. The explosive denouement was the French Revolution, during which God and king were

toppled from their thrones.

Writing in English, German, or French, more than 300 authors provide a historical description of the beginnings and of the early and subsequent development of thinking about language and languages within the relevant historical context. The gradually emerging institutions concerned with the study, organisation,

documentation, and distribution are considered as well as those dealing with the utilisation of language related knowledge. Special emphasis has been placed on related disciplines, such as rhetoric, the philosophy of language, cognitive psychology, logic and neurological science.

In *The Fatimids and the Sea* (909-1171), David Bramoullé shows how in medieval times an Ismaili dynasty of Caliphs used the sea to develop and justify its claims of control over the Muslim world.

Dans *les Fatimides et la mer* (909-1171), David Bramoullé montre comment à l'époque médiévale une dynastie musulmane de rite ismaélien utilisa la mer pour se développer et justifier ses prétentions à contrôler le monde

musulman.

However shared the Roman inheritance may be, it hardly unifies.

Which Rome is the model, the Republic or the Empire? The Rome of imperial conquest or of civil war? By whom is it ruled? By the glorious conqueror who extended universal peace, the rule of law, and infrastructure – roads and aqueducts – or by the detested tyrant

who imposed domination? Or worse, the corruptor of republican liberty and source of putrefying decadence? Rome always returns, but which Rome? France presents itself as a privileged locus for Rome's return since the beginnings of its history. The perennial recourse to ancient Rome – as model or anti-model – binds together a cohesive tradition. The logic of this gesture asserts a unity beyond modern identity politics, which depend on defining a “them” against “us,” to resist nativist

assumptions about national character, French, German, Italian, American, etc. All share the same polysemous inheritance, for good or ill. All are Roman and all resist Rome without needing to agree on what exactly is shared. The unity underlying the discourse, however, no longer depends on defining Rome as an origin. Instead, Rome's figuration persists discursively, as a translation: to be translated time and time again.
