According to palmist Shastra, human hand is a horoscope which never perishes and Lord Brahma is its creator. The horoscope made by the creator Lord Brahma Contains Solution of every problems in which there is no possibility of any mathematical error. Even the lines on the palm provide prediction like planets & nakshatra and provide guidelines for the future. Just as two people can not have same destiny, same views and same course of life, in the same way palm lines can't be same for two persons. The great palmist from Paris Disbarsolalas has declared that, if anyone in the world gets me two people with same palm lines and I will make my life's will and wealth on his/her name. Everyone in the world has different lines. This is a definite and a universal fact. Every person has got his or her own destiny&character. Even the twins have some dissimilarities between them. A palmist works like a doctor. A doctor treats the patient and cures his diseases. A palmist treats the mind of the patient which is more complicated than physical cure. Each body part of every human being created by that supreme God has its own special significance and purpose. God has created palm lines to know the life events. That is the reason, finger prints never change but palm lines keep changing at various stages of our life. According to Shastras the first thing one should see in the morning after getting up from the bed is his/her own palm lines. Palmistry is a science, an art as well as a divine knowledge which helps one to understand the path of life. The knowledge of palmistry has been prevalent in Indian society & its boundary since ages. Samudara Rishi was the first one who takes the credit of creating this astrological science in chronological order. So Jyotish Shastra is called Samudrik Shashtra also. The book 'Learn Palmistry' contains history of palmistry, principle to see palm, type and characteristics of hands, type of fingers and nails, different lines of the palm, life line bracelet line, sun line.....,palm lines and nine planets, mudrikas, description of moles, secret of death is hidden in palm lines, palm lines and mental peace, a common description of a womans real palm lines, hand print of Pakistani Prime Minister, hand print of film artist Manoj Kumar... and much more.

Our body consists of five elements i.e. Akash, Vayu, Jal, Agni and Prathvi tatvas. The each finger represents the respective elements present in the body. The imbalance in the tatvas (elements) leads to the various ailments or the diseases in the body. The Mudra Vigyan is an ancient Indian

Science that is being practiced for centuries.

Mr. Ass Comes to Town Motilal Banarsidass

Who is not in distress in the present era' Some are anguished mentally some physically some by children some by spouse. There is no harmony in the family as before. Everybody wants to cook one's meal separately. The tradition of the joint family has already been shattered. One who is in trouble primarily wants freedom from it be it only a minor wound. His first priority remains to get relief from the pain whatsoever it may cost. The author of Lal Kitab had understood this principle much earlier and created trials or remedies imbibing good conduct righteousness and fundamental code of social and universal conduct along with the interweave of astrology so that the person might secure relief from the pain as well as remain connected with the societal customs. Most of the people in India are very well acquainted with the name of 'Lal Kitab' Originally this book was written by Shri. Girdhari Lal Sharma in Urdu language. Subsequently it was translated into Hindi language. Some adulteration is quite natural in the translated version of the original text. Primarily our rishi-maharshis godmen astrologers fortune-tellers like Narad Parashar Kalidas Varahmihir Jaimini Bhrihu etc. and the contemporary saints had prescribed yajna hawan worship chanting God's name rituals and donations to mitigate the bad effect of planets. Later on acknowledging the paucity of money and time Shri Girdhari Lal Sharma the author of the original Lal Kitab proposed remedies that were simple and required least expense of money. These easy remedies became very popular in India. Keeping in mind a code of conduct dharma practical aspects good conduct and the basic principles of life and the need for proper discipline in society the author had suggested the remedies which were accepted by the common men by heart. For example respect of elders service to parents offering grass to cow offering bread to dog feeding monkeys with gram and jaggery etc. are such remedies that can easily be done by everybody. The principality of twelve signs and nine planets of Indian astrology has also been accepted by Lal Kitab. The mere difference is that whereas in the prevalent astrology the ascendant is determined by the time of birth Lal Kitab always keeps it between Aries and Pisces.
