*The Secret of Priest's Grotto* Harper Collins

What's more dangerous than scaling Mount Everest? For mountaineer Pete Athans, the answer lies in the ancient kingdom of Mustang, a remote part of the Asian nation of Nepal. Long-abandoned caves built high into steep cliffs contain amazing treasures—and pose incredible dangers. Reaching these "sky caves" safely takes guts, smarts, and luck. And then there's the question of what to do with a two-thousand-year-old human skull. . . From 2007 to 2012, Pete explored Mustang's sky caves with a team that included scientists, mountain climbers, and even two children. They found mummies, murals, manuscripts, and other priceless artifacts. Follow Pete on his dangerous trips to the sky caves and discover the secrets the caves revealed.

**Jonathan Park and the Secret of the Hidden Cave** Macmillan

A detailed examination of the controversial expeditions to the Tayos Cave complex in Ecuador and the treasures glimpsed in its depths • Reconstructs the expeditions from the 1960s and '70s, including the Mormon Church's search for lost tablets, Stanley Hall's quest with Neil Armstrong, and sightings of a metal library, books of gold, copper plates, and a quartz sarcophagus • Includes photos from the author's own dangerous expeditions to the Tayos Caves • Explores connections to Atlantis, Ancient Astronauts, and the Hollow Earth theory and the possibility of tunnel networks that extend from the Rocky Mountains to Patagonia The Cuevas de los Tayos is a cavern complex in the Amazon rain forest of Ecuador. Named for the tayos, the oil birds that reside within them, these caves have countless enigmas connected with them, from the discovery of inexplicable architectural details, to claims of curses and treasures, to dangerous encounters with the indigenous people, the Shuar, for whom the caves are sacred. Sharing his more than 30 years of research into the Tayos Caves as well as his own explorations, Alex Chionetti examines the legends and mysteries associated with this site and the explorers who have ventured within. He details the discovery of the Tayos Cave complex by Hungarian explorer Janos Juan Moricz in the 1960s, including Moricz's claims of finding a metal library with books of gold. Exploring the oral tradition of the Shuar, he explains how this region was the possible origin of Incan culture and the legend of El Dorado. The author shares his own dangerous explorations within the Tayos Caves, and, drawing on

unpublished interviews with speleologist Julio Goyén Aguado, he reconstructs the expeditions of the 1960s and '70s, revealing the Mormon Church's search for lost tablets, a British army incursion, and sightings of paintings, gold statues and skeletons, copper plates, and a quartz sarcophagus--treasures akin to the Crespi treasure. The author also shares details from Stanley Hall's suspicious expedition in 1976, which included astronaut Neil Armstrong. Investigating the lost civilizations behind the Tayos treasures, Chionetti explores the possible connections to Atlantis, aliens, Ancient Astronauts, and the Hollow Earth theory; the caves' links with hermetic societies; and claims of tunnel networks that extend thousands of miles through both American continents, from the Rocky Mountains to Patagonia. Sharing a real-life adventure story wilder than an Indiana Jones plot, the author shows that Earth's ancient past has many secrets waiting to be uncovered.

*The Famous Five and the Secret of the Caves* Star Bright Books

Twelve lost boys, their coach, and the heroes who rescued them. When the 12 young members of the Wild Boars soccer club walked into a Thai cave with their coach, they expected to be out by nightfall. A birthday cake waited in the fridge for one boy, another boy had a tutoring class. They had rope and torches but no food. Then a sudden monsoonal downpour flooded their route out. They were trapped - imprisoned in a cave said to be haunted by a mythical broken-hearted princess. So began the greatest search-and-rescue mission in living memory. People from across Thailand, and soon from across the world, joined hands to find the boys and get them out. ABC foreign correspondent Liam Cochrane was on the ground as the dramatic events unfolded. Using his local knowledge, and working with a team of Thai researchers, he puts us at the centre of the story, witnessing the boys' agonising wait, the divers' battle against muddy torrents, the race to pump out flooded caves, the secret drilling plans. With unrivalled access, he reveals fresh details about the boys' time inside the cave and gives an exclusive account of the rescue from lead diver John Volanthen. Amidst the hope, there are tensions, tragedy and powerful players guiding the rescue. But most of all, this is the inspirational story of an amazing group of boys and what can be achieved when the world unites.

*The Cave* David Fickling Books

"Great Caves of the World is an introduction to some of the most magnificent cave systems in the world. Geologist and caving expert Tony Waltham provides an introduction to the

subject before exploring the characteristics of each of the 28 selecte caves. He describes how each one was formed, its environment and location, and how it contributes to our understanding of the underground."

"This illustrated book takes readers on a journey to a surprising array of environments, from huge underground rivers and long lava formations to secret temples and ancient archaeological sites. Dwell in forests of sparkling ice columns deep inside the Pinega Caves, Russia; be dazzled by the mineral deposits in Lechugilla Cave, USA, and discover the classic Yorkshire pothole at Gaping Gill, England."--BOOK JACKET.

[In the Ice Caves of Krog \(The Secrets of Droon #20\)](#) Cold Whispers

'Wry, sharp-eyed and uncompromising,

The Caiplie Caves is the most ambitious collection yet from an essential poet.' The Telegraph 'Karen Solie should be read wherever English is spoken'. - Michael Hofmann, LRB The Canadian Karen Solie is rapidly establishing a reputation as one of the most important poets at work today. Her fifth book of poetry, *The Caiplie Caves*, is a profound and timely consideration of the nature of crisis: at its heart is the figure of St Ethernan, a seventh-century Irish missionary to Scotland who retreated to the caves of the Fife coast in order to decide whether to establish a priory on May Island or pursue a life of solitude. His decision would have been informed by realities of war, misinformation and power; Solie imagines this crisis also complicated by grief, confusion - and a faith placed under extreme duress. Woven through Ethernan's story are poems that orbit the caves' geographical location, and range through the recurring violences of history and myth, of personal and public record. In poems of the utmost lyric subtlety and argumentative strength, Solie addresses how we might distinguish self-delusion from belief, belief from knowledge - and how, in the frailty of our responses, we can find the courage to move forward. 'Powerful, philosophical, intelligent . . . [Solie is] especially adept at pulling great wisdom from the ordinary' — Anne Carson, Kathleen Jamie, and Carl Phillips, Griffin Poetry Prize Judges' Citation
