Kaja doesn't like change in her life. And why should she? Everything seems to be quite nice and settled: she is living in a cosy flat in the centre of Zurich, together with her faithful dog Zorro. She has a successful career as a computer programmer and a casual relationship with a charming work colleague. Surely, it couldn't get any better. - But then her whole life comes crashing down: her lover turns out to be a cheat, her professional reputation is in tatters and to cap it all, she starts seeing a shiny blue creature called Lance who does his very best to get on her nerves. Has it all been too much for her recently? Is she hallucinating? Or is she the only girl in the world with a personal dragon at her service? Virginia Fox's debut novel tells the story of a

young woman, her journey from just living to finding a purpose in life, all told in a light-hearted, humorous style. You will laugh and cry with her and you will be genuinely happy for her in the end. - Only it won't be the end. It will be the beginning of new adventures, because this is only part one of the author's trilogy. A book for dragon friends and animal lovers, looking for a little bit of magic in their life.

Based on a true tale, My Sister Sara begins in December 1948. The Leroux family stands on Cape Town's docks to welcome their newest member, a blonde, blue-eyed war orphan that patriotic Pa has "ordered" from Germany. The God-fearing clan falls

in love with the bright four-year-old. Even stern Pa, an architect of Apartheid, is softened by the orphan's presence until a document arrives revealing a terrible secret. Everything changes. The truth must never come out. Pa swears the family to secrecy. Sara is fed and clothed but never shown affection again. And never told the reason why. Told through the eyes of her adoptive brother Jo, Sara's past underscores her present against the heinous backdrop of Apartheid in the 1950's and 60's. She must call on Anne Frank-like courage to resist her enemies, even those with the Leroux name, if she is to have any hope of finding her place in the world.

Between Lake Constance and Lake Neusiedler, in the middle of the Bregenz Forest and the Vienna Woods, this guide conveys the magnificent, enthralling, and beautiful scenery of Austria. Lofty peaks, deep-cut valleys, crystal-clear lakes, and lush mountain pastures grace this collection of images, along with the lazy meanderings of the Danube, gently rolling hills, terraces of vines, and the Pannonian Plain. Relating the country's grand history, medieval strongholds, baroque palaces, churches, and monasteries are depicted as well as Jugendstil edifices and fantastical contemporary architecture, bearing witness to the cultural diversity of this Alpine republic. The Salzburg Festspiele, the Vienna Boys' Choir, and the waltz plus a vast collection of major works of art are reviewed, forming only a small part of Austria's rich artistic heritage. The charm and comfort of the imperial and royal age of the Habsburgs is captured, having been preserved in many a wine tavern, pub, and

coffee house. Idyllic mountain village traditions are illustrated in local costume parades and the celebration of joyous festivals. This travel companion also features the age-old dynasty of the Habsburgs, the musical city of Vienna, the baroque monasteries of the Danube, the mountains of the Hohe Tauern, the culinary delights of Austria, and the country's many achievements in contemporary architecture.

New York Times Bestselling and Goncourt Prize-Winning Author of *The Anomaly* Any man—or woman—who wants to hear nothing—or no more—about love should put this book down. Anna and Louise could be sisters, but they don't know each other. They are both married with children, and for the most part, they are happy. On almost the same day, Anna, a psychiatrist, crosses paths with Yves, a writer, while Louise, a lawyer, meets Anna's analyst, Thomas. Love at first sight is still possible for those into their forties and long-married. But when you have already mapped out a life path, a passionate affair can come at a high price. For our four characters, their lives are unexpectedly turned upside down by the deliciously inconvenient arrival of love. For Anna,

meeting Yves has brought a flurry of excitement to her life and made her question her values, her reliable husband, and her responsibilities to her children. For Louise, a successful career woman in a stable and comfortable marriage, her routine is uprooted by the youthful passion she feels for Thomas. Thought-provoking, sophisticated, and, above all, amusing, *Enough About Love* captures the euphoria of desire through tender and unflinching portraits of husbands, wives, and lovers. *ADAC Reiseführer Wien* John Wiley & Sons This book focuses on natural gas and synthetic methane as contemporary and future energy sources. Following a historical overview, physical and chemical properties, occurrence, extraction, transportation and storage of natural gas are discussed. Sustainable production of natural gas and methane as well as production and storage of synthetic methane are scrutinized next. A substantial part of the book addresses construction of vehicles for natural and synthetic methane as well as large engines for industrial and maritime use. The last chapters present some perspectives on further uses of renewable

liquid fuels as well as natural gas for industrial engines and gas power plants.

 The internet and other new technologies have changed the tourism industry in an unprecedented way, and keeping pace has become challenging. Online information is now one of the primary influences on consumer decisions in nearly all major markets. For example, 41 per cent of tourists arriving in Spain in 2007 had booked through the internet, and in the

United States the number of trips bought online exceeded those purchased offline. Such changes are impacting and influencing the way destinations and companies manage and market themselves.
