The objectives of *The Thinking Crisis* are: to examine the reasons for the decline in the quality of student writing by what is taught—and learned—in high school; to demonstrate the consequences of this decline by examining current student writing in college; to compare this writing with student writing of twenty years ago; to suggest ways in which this "disconnection" between what a teacher teaches and what a student needs to learn can be ameliorated. We believe that this book is unique in its approach to problems that we see in student writing today in that it neither advocates nor rejects the present pedagogy in the schools; but it argues that this pedagogy be properly implemented. While many of the ideas advanced today for improving writing are sound, they are often misinterpreted and poorly taught. We also argue that the lowering of the level of student reading by the general abandonment of classic texts in the curriculum has contributed to the decline in thinking, reading and writing.

Combining elements of economic reasoning and political science has proven to be very useful for understanding the broad variation in economic development around the world. In a sense research in this field goes back to the Scottish Enlightenment and Adam Smith's original plan in his *Theory of Moral Sentiments* and *Wealth of Nations*. *Leadership or Chaos* by Norman Schofield and Maria Gallego is intended as an advanced, self-contained text in political economy dealing with social choice. The theory and empirical analysis are used to examine democratic institutions and elections in the developed world, and the success or failure of moves to democratization in the less developed world. The book closes with a consideration of current quandaries with regard to political and economic stability and climate change and a

discussion of the moral foundations of our society.

'Masterly' - Robert Harris, author of *Imperium* 'Essential reading for anyone interested in Ancient Rome' Independent ***** Caesar Augustus schemed and fought his way to absolute power. He became Rome's first emperor and ruled for forty-four years before dying peacefully in his bed. The system he created would endure for centuries. Yet, despite his exceptional success, he is a difficult man to pin down, and far less well-known than his great-uncle, Julius Caesar. His story is not always edifying: he murdered his opponents, exiled his daughter when she failed to conform and freely made and broke alliances as he climbed ever higher. However, the peace and stability he fostered were real, and under his rule the empire prospered. Adrian Goldsworthy examines the ancient sources to understand the man and his times.

Julius Caesar's life and example have fascinated and motivated generations of people for nearly 2,000 years. This book explores the people, places, events, and institutions that helped define arguably the most famous individual in the history of Rome. Far from being "ancient history," Roman history and culture from the time of Julius Caesar and the Roman Empire have surprising parallels with the political strife and societal issues in 21st-century life. Interest and awareness have also been bolstered by recent successful Hollywood films as well as television series that depict Roman history. *All Things Julius Caesar: An Encyclopedia of Caesar's World and Legacy* provides a unique reference on topics and themes related to the life and times of Julius Caesar. It offers historically accurate information about what he did—and did not—do, and examines his impact on later eras via images and idealized depictions of him popularized in literature and other media up to the present. The approximately 200 entries in this two-volume set are organized alphabetically according to topic or theme—for example, individuals such as Marc Antony, places such as the province of Gaul, events such as Roman elections or battles in the Civil War, and institutions such as Roman classes,

slavery, patrons, and clients. The entries cover all the territories of the Roman Empire during Caesar's time, from Britain to Egypt. The set includes primary documents such as excerpts from ancient letters, essays, and biographies and supplements the text with images and maps. The bibliography provides print and electronic resources suitable for high school and college student research as well as further reading for general audiences.

In Search of the Romans is a lively and informative introduction to ancient Rome. Making extensive use of ancient sources and copiously illustrated with photographs, drawings, maps and plans, now for the first time in colour, its opening two chapters guide the reader through the events of Roman history, from the foundation of the city to the fall of the empire. Subsequent chapters introduce the most important aspects of the Roman world: the army and the provinces, religion, society, and entertainment; the final two chapters focus on Pompeii and Herculaneum, the two cities destroyed by Vesuvius. New to this edition are sections on the Augustan principate, on the Roman army, on life in the provinces and on engineering innovations, while the existing text is revised throughout. The narrative includes descriptions of many individuals from the Roman world, drawn from a variety of social settings. Activity boxes and further reading lists throughout each chapter aid students' understanding of the subject. Review questions challenge students to read further and reflect on some of the most important social, political and cultural issues of ancient Rome, as well as to compare them with those of their own society. The new edition is supported by a website that includes images, maps and timelines, further reading and related links.

Is Classics still important and relevant to a Jesuit education? The answer is a resounding "Yes." Classics remains an essential component of Jesuit education. This series of essays argues and proves that Classics and Jesuit education are indivisibly intertwined. Moreover, any Jesuit school that embraces liberal arts

must have Classics at the core of its curriculum.

The first truly comprehensive look at all aspects of the Villa dei Papiri at Herculaneum, from its original Roman context to the most recent archaeological investigations. The Villa dei Papiri at Herculaneum, the model for the Getty Villa in Malibu, is one of the world's earliest systematically investigated archaeological sites. Buried by the eruption of Mount Vesuvius in 79 CE, the Villa dei Papiri was discovered in 1750 and excavated under the auspices of the Neapolitan court. Never fully unearthed, the site yielded spectacular colored marble floors and mosaics, frescoed walls, the largest known ancient collection of bronze and marble statuary, intricately carved ivories, and antiquity's only surviving library, with over a thousand charred papyrus scrolls. For more than two and a half centuries, the Villa dei Papiri and its contents have served as a wellspring of knowledge for archaeological science, art history, classics, papyrology, and philosophy. Buried by Vesuvius: The Villa dei Papiri at Herculaneum offers a sweeping yet in-depth view of all aspects of the site. Presenting the latest research, the essays in this authoritative and richly illustrated volume reveal the story of the Villa dei Papiri's ancient inhabitants and modern explorers, providing readers with a multidimensional understanding of this fascinating site.

For forty years, Harvey Mansfield has been worth reading. Whether plumbing the depths of Machiavelli's Discourses or explaining what was at stake in Bill Clinton's impeachment, Mansfield's work in political philosophy and political science has set the standard. In *Educating the Prince*, twenty-one of his students, themselves distinguished scholars, try to live up to that

standard. Their essays offer penetrating analyses of Machiavellianism, liberalism, and America., all of them informed by Mansfield's own work. The volume also includes a bibliography of Mansfield's writings.

What ambitions lay behind Roman provincial governance? How did these change over time and in response to local conditions? To what extent did local agents facilitate and contribute to the creation of imperial administrative institutions? The answers to these questions shape our understanding of how the Roman empire established and maintained hegemony within its provinces. This issue of imperial hegemony is particularly acute for the period during which the political apparatus of the Roman Republic was itself in crisis and flux--precisely the period during which many provinces first came under Roman control. Imperial Power, Provincial Government, and the Emergence of Roman Asia, 133 BCE-14 CE uses a case study of the province of Asia to focus closely on the formation and evolution of the Roman empire's administrative institutions. Comparatively well-excavated, Asia's rich epigraphy lends itself to this detailed study, while the region's long history of autonomous civic diplomacy and engagement with a range of Roman actors provide vital evidence for assessing the ways in which Roman empire and hegemony affected conditions on the ground in the province. Asia's unique history, moving from allied kingdom to regularly assigned provincia to a reconquered and reorganized territory, offers an insight into the complex workings of institutional formation. From an investigation of the institutions which emerged in the province over a long first century (133 BCE-14 CE), Bradley Jordan considers the discursive power of official utterances of the Roman state, and the strategies employed by local actors to negotiate a favourable relationship with the empire.

Julius Caesar combines in one volume two of Rex Warner's most acclaimed historical novels: The Young Caesar and Imperial Caesar. The latter won the 1960 James Tait Black Memorial Prize for Fiction. Together these two novels create one of the most compelling and substantial portraits in modern fiction of Caesar's remarkable life and times. 'A very brilliant analysis of the emotional disciplines, the political subtlety and the moral realism required to secure absolute power. It is a remarkable historical reconstruction.' Angus Wilson, Observer 'As a feat of sustained historical imagination Rex Warner's autobiography of Julius Caesar is an astonishing achievement . . . A very wonderful book which grows in the memory.' C. V. Wedgwood 'This splendid book ranks with Graves's I, Claudius and with Marguerite Yourcenar's Memoirs of Hadrian as a near-masterpiece of the re-creation of the ancient world. It will banish forever the boredom that often still lingers round one's memories of having to translate Caesar.' Elizabeth Jennings, The Listener
