Minnesota is known for frigid weather, thousands of lakes, and Scandinavian humor. But in this anthology of ten short stories, J. L. Larson shows a different side of the state via unique tales of conflict, adventure, and intrigue that often transport characters outside its borders. In July of 1970, at a benign looking intersection in the middle of Minnesota farmland, a fateful mishap occurs yet again! What is it about this seemingly nondescript junction that makes it such a repetitive and bloody deathtrap? Is it the terrain, the weather, the drivers—or a combination of these and maybe a few other factors? In another story, a paper company executive and his wife must cope with an empty nest and the loss of his job. He's doing fine ... until he receives a strange, late-night call about his self-centered, malicious nemesis from the old job. In tale after tale, Larson showcases eclectic characters who embark on adventures that include a disaster on a popular lake, an emotional confrontation in a university classroom, the mysterious travel exploits experienced by a young man with his uncle, and the recurring, dramatic impact on a young teen as his life moves forward following a seemingly insignificant encounter. *The Accident at Sanborn Corners and Other Minnesota Short Stories* is an entertaining compilation of situations and themes that illustrate how various characters cope with the unexpected in life.

Cars have a talismanic quality. No other manufactured object has the same disturbing allure. More emotions are involved in cars than any other product: vanity, cupidity, greed, social competitiveness, cultural modelling. But when all this perverse promise ends in catastrophe, these same talismanic qualities acquire an extra dimension. The car crash is a defining phenomenon of popular culture. *Death Drive* is both an appreciative essay about the historic place of the automobile in the modern imagination and an exploration of the circumstances surrounding multiple celebrity denouements, including Isadora Duncan, Jane Mansfield, James Dean, Jackson Pollack, Princess Grace, and Helmut Newton, among many others. En route the narrative traces one very big arc - the role of the car in extending or creating the personality of a celebrity - and concludes by confronting the imminent death of the car itself. AUTHOR: Stephen Bayley recounts delightfully grotesque tales about celebrities done in by trees, by lampposts, or by nonentities in ancient Chevys. A design masterpiece, this book combines exquisite prose with stylish presentation - the cars are described more lovingly than the people who perished in them. Like a Bugatti, *Death Drive* recalls a time when books and cars were beautiful. SELLING POINTS: * Albert Camus once remarked that there's "nothing more absurd than to die in a car accident". That was before his car hit a tree at 80mph. *Death Drive* - a compendium of stories about famous people killed stupidly in cars - oozes absurdity * A Times Book of the Year, 2016 * Big names like James Dean, Jackson Pollack, and Princess Grace are among

Now revised and updated, this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time. It details cars' inception as a mechanical curiosity and later a plaything for the wealthy; racing and the promotion of the industry; Henry Ford and the advent of mass production; market competition during the 1920s; the development of roads and accompanying highway culture; the effects of the Great Depression and World War II; the automotive Golden Age of the 1950s; oil crises and the turbulent 1970s; the decline and then resurgence of the Big Three; and how American car culture has been represented in film, music and literature. Updated notes and a select bibliography serve as valuable resources to those interested in automotive history.

Popular culture in the 1990s, especially cinema, can be considered a showcase for the accumulated hopes and fears of the twentieth century. From the promise of material goods to the profusion of despair, from devastating tragedy to exaggerated rapture, a dizzying array of images assaults the eye. Drawing on recent films from Mexico and Spain, *Bored to Distraction* navigates this visual terrain, from melodrama to horror, looking for what, if anything, might be excessive enough to rouse us from our comfortable everyday routines.

The engaging adventure novel to support social and emotional learning for our youth today The scene was chaotic on the shore of the Opa River. A young woman darted from her kayak and raced to a large boulder along the riverbank. She stopped abruptly and shifted her gaze up the river. A boy in a yellow life jacket was heading her way, adrift in the middle of a raging rapid that was flowing directly toward a large, undercut boulder. Her expression was deadly serious as she retrieved the end of the rope from her rescue bag. She would have one chance to save him, and she knew her throw had to be perfect. The water struck the boulder with such force that spray was thrust skyward, creating a dark and threatening mood on the river. As the boy neared the large boulder, he shifted his legs to try to fend off the rock. The rope arched skyward on a perfect trajectory and the yellow bag landed directly in his hands. What happened next was surreal to everyone who witnessed the events on the river that fateful day.

This book is the story of my life. Just a shy Scottish lass, I did well at school. At 21, I was diagnosed with myoclonic epilepsy, prescribed nitrazepam and had to give up teacher training. The next 40 years were marred by depression. After taking early retirement in 2012, my GP suggested I stop taking nitrazepam. This left me extremely ill and bedridden for two years. However, I am now free from epilepsy, depression and prescription drugs for the first time in my adult life. I am looking forward to the rest of my retirement. I hope others will be inspired never to give up. You just never know what might be round the corner.

At seventeen, Lech Blaine walked away unharmed from a car crash that killed three of his friends and left two in comas. On a May night in 2009, seven boys in Toowoomba, Queensland, piled into a car. They never arrived at their destination. The driver made a routine error, leading to a head-on collision. In the aftermath, rumours about speed and drink driving erupted. There was intense scrutiny from media and police. Lech used alcohol to numb his grief and social media to show stoicism, while secretly spiralling towards depression and disgrace. This is a riveting account of family, friendship, grief and love after tragedy. In a country where class and sport dominate, and car crashes compete with floods and pandemics for headlines, our connection with others is what propels us on. Heartbreaking and darkly hilarious, *Car Crash* is a story for our times. 'Scarifying and unforgettable, *Car Crash* is a story of carnage and life-long consequences – not just from a single, sudden catastrophe but from the long, slow cataclysm of masculine confusion. A brave and unsettling account.' —Tim Winton 'A heart-soaring act of literary bravery where the ongoing cost of experience is exposed in every note-perfect sentence. This is a profound reflection on the deafening soul noise heard by a beautiful group of young friends fated to live the rest of their lives with the silence of the dead. Some books just have to be written. And some books just have to be read.' —Trent Dalton 'I began this book with my guts in my mouth. Then, as I read on, I winced with recognition, I laughed a lot and my heart gradually broke open. It's odd to talk about "talent" when a book covers such sensitive, sad subject matter, but the truth is that Blaine has it. There are strong sentences, clarity of intent and tone, wicked one-liners and a mastery of metaphor. This book is for everyone – it truly captures something of "modern Australia" in a tenderly told story of one young man's tumultuous coming-of-age.' —Bri Lee 'Car Crash is a clear-eyed, bruising and tender account of how the moments that thrust you into adulthood can take place in seconds. Lech Blaine's journalism has long made me suspect he's one of the best writers of his generation. *Car Crash* confirms it, without a doubt.' —Ben Law

In this book, Osborne demonstrates why and how photography as photography has survived and flourished since the rise of digital processes, when many anticipated its dissolution into a generalised system of audio-visual representations or its collapse under the relentless overload of digital imagery. He examines how photography embodies, contributes to, and even in effect critiques how the contemporary social world is now imagined, how it is made present and how the concept and the experience of the Present itself is produced. Osborne bases his discussions primarily in cultural studies and visual cultural studies. Through an analysis of different kinds of photographic work in distinct contexts, he demonstrates how aspects of photography that once appeared to make it vulnerable to redundancy turn out to be the basis of its survival and have been utilised by much important photographic work of the last three decades.

It was an irrational decision. Despite having just moved into a beautiful new house, the Williams family gave in to an odd, overwhelming desire to purchase and move into a Victorian home they had come upon by chance. They were curious, of course, as to why the house had in the past had such a high vacancy rate. But that curiosity didn't last long, because shortly after moving in, strange things began to happen. At first the family tried telling themselves there were logical explanations for the strange things they all were witnessing. But before long they came to accept the fact that they were

sharing their home with ghosts. Haunted is the Williams family's story from the point of view of the mother, Dorah. Through her chilling reminiscences, we witness the all-too-real goings-on in the house. Upon writing *Haunted*, Dorah thought her situation was unique. What she didn't realize was how many others would relate to how it feels to be haunted, too. After being flooded by emails from people with similar experiences, Dorah began to realize this wasn't uncommon at all. So *Haunted Too* came to be. Not only will it entertain the reader, as good ghost stories always have, but it will also help the reader to better understand this phenomenon, with the inclusion of shared experiences, opinions, and advice of professionals in this field.

Today the question of iconography has taken on a new and more general urgency. As a dominant cultural practice, iconography embraces the politics as well as the poetics of visual representation within their specific historical and cultural conditions. In its contemporary significance the question of iconography moreover reaches beyond disciplinary boundaries of conventional definitions and interpretations of the relation between words and images in a demand to critically compare and contrast their different iconographies as cultural practices of power. In their distinct arguments and from different perspectives, the essays collected in this volume are all similarly concerned with the iconographical power and poetics of the image, including a broad range of visual representations: prints and illustrations, painting, sculpture and concept art, documentary and art photography, film comedy and digital imagery. In all these instances, the image is looked at not as an exclusive and isolated phenomenon but, rather emphatically, as a visual and contextual event; as both the source and target of the collision and the collusion of word and image; as instances and symptoms of contemporary iconographic practice alike.
