This volume is the result of a colloquium on socio-political dimensions of language policy and language planning held at the 1997 American Association of Applied Linguistics (AAAL) Conference. The focus is on language planning and policy in the USA, but the issues raised will be applicable to other parts of the world as well. Three broad issues are addressed: general aspects, case studies dealing with certain languages or ethnic groups, and language planning in practice. The first, general, part, provides a historical analysis of language planning and language policy in the US, and proceeds to deal with maintenance and loss of indigenous languages, and the constraints imposed by current policies and how these constraints can be effectively dealt with. The second part contains a number of case studies. It discusses aspects of planning policies pertaining to pidgin languages, gestural languages used by the deaf (ASL) and constraints in foreign language education; this part also raises issues relating to ethnic groups, concentrating on the position of Mexicans and Puerto Ricans in the US. In the third part some practical issues are raised by looking into the role of language and culture in teaching reading, foreign language policy in higher education, Hawaiian language renaissance, and gender neutralization in American English. The book is a tribute to Charlene Junko Sato, a sociolinguist and a language activist. She died in 1996 and will be remembered for

her work not only in linguistics, but also for her dedication in advancing Hawaiian Pidgin, influencing language policy through various publications and court-room appearances.

Imagine the typical American farmer. Many people visualize sun-roughened skin, faded overalls, and calloused hands—hands that are usually white. While there's no doubt the growing trend of organic farming and homesteading is changing how the farmer is portrayed in mainstream media, farmers of color are still largely left out of the picture. The Color of Food seeks to rectify this. By recognizing the critical issues that lie at the intersection of race and food, this stunning collection of portraits and stories challenges the status quo of agrarian identity. Author, photographer, and biracial farmer Natasha Bowens's quest to explore her own roots in the soil leads her to unearth a larger story, weaving together the seemingly forgotten history of agriculture for people of color, the issues they face today, and the culture and resilience they bring to food and farming. The Color of Food teaches us that the food and farm movement is about more than buying local and protecting our soil. It is about preserving culture and community, digging deeply into the places we've overlooked, and honoring those who have come before us. Blending storytelling, photography, oral history, and unique insight, these pages remind us that true food sovereignty means a place at the table for everyone. Natasha Bowens is an author, farmer, and creator of the multimedia project The Color of Food. Her advocacy focuses on food sovereignty and social issues.

"I'm someone who will push you beyond all reasonable limits. Someone who will ask you not to just fulfill your potential but to exceed it. Someone who will expect more from you than you may believe you are capable of. So if you aren't ready to go to work, shut this book." --Pat Summitt Pat Summitt, head coach of the University of Tennessee Lady Vols, was a phenomenon in women's basketball. Her ferociously competitive teams won the NCAA championship in 1996 and 1997 and made her the winningest coach in NCAA Division 1 women's history. Summitt wrote the first motivational book by a high-achieving female coach. In Reach for the Summit, she presented her formula for success, which she called the "Definite Dozen System." In each of the book's twelve chapters, Summitt talked about one of the system's principles--such as responsibility, discipline, and loyalty--and showed how to apply it to your own situation. Pat Summitt used her own remarkable story as a vehicle for explaining how anyone can transform herself through ambition. Through many amusing anecdotes and a few very painful memories, she revealed her mistakes and triumphs as a beginning basketball player, as an Olympic athlete, as a Division 1 coach, and as a mother. Although Summitt was not born to the easy life--she was born into a hard-working farm family in a remote corner of Tennessee--she became one of the most successful and highest-paid coaches in the country. She candidly talked about how she turned her losses into wins and then showed how you can do the same. Wonderfully entertaining and brilliantly instructive, Reach for the Summit discloses the winning secret to building a principled system and making it to the top at whatever you do. Pat Summitt's story will motivate you to achieve in sports, business, and the most important game of all--life.

This book analyses the risky behavior of farmers in the Mekong Delta, Vietnam, in their shift from rice to shrimp farming, as well as the role of social capital in these farmers' economic activities. Emphasizing the rationality of the market does not fully explain the nature of farmers' economic behavior. Therefore, this book explores farmers' risk mitigation and dispersion, so as to provide a systematic outlook on the issue. It finds that ""food

security"" and ""subsistence margin"" influence farmers' behavior to some extent. In the context of current social relations, farmers do not complete.

Pilgrims, their life in England, their sojourn in Holland, and their experiences in A merica. The stories were mimeographed, simply illustrated, and used as reading lessons. It soon became evident that the children were living in these stories from day to day, feeling a personal interest in the different characters, and a personal acquaintance with them. An increased interest in reading and a consequent increase in ability to read well were the most immediate results of this work. A desire to know more of a story than these lessons gave, was another valuable result. For this desire on the part of the children to see a story in its natural setting, and to know what came before and what followed after, showed that they had reached the period which is a happy time for laying a strong foundation upon which to build later work; a time in which the awakened interest in people and events should be used to establish a firm basis for future reading and study in both biography and history.

Changing My Path is a riveting memoir about sexual abuse the author suffered at a very young age and into her teenage years at the hands of a family member. Throughout the memoir, Raegyn describes in several counseling sessions and her journal how she often felt there was no safe place for her to hide because the abuser was always near. During elementary school days and adolescent years, Raegyn struggled to concentrate in school and grasp material that seemed to come easier to her classmates. It wasn't until years later, after relocating to a new state, that she understood she was suffering from the effects of sexual abuse. As an adult now on her healing journey, Raegyn recognized the unresolved anger toward her abuser for placing his pain on her for so many years. In this memoir, Raegyn narrates the journey to healing of sexual abuse and the many effects sexual abuse survivors are forced to deal with and how she had to make a decision to no longer be a victim, but live in victory every day instead.

"A truly poignant read that shines a light on the humanity in neurodivergence, the heart of parenting, and the soul of psychotherapy."—Adam Grant, #1 New York Times bestselling author of *Think Again* A profoundly thought-provoking, funny, and hopeful memoir about adapting when life doesn't go to plan, redefining family, and creating your own path. One afternoon, Emma Nadler gets a call from her daughter's doctor that changes her life

forever. Faced with the realities of raising a child with a rare genetic condition, Nadler must confront her preconceptions of motherhood and her perfectionistic beliefs. With a generous wit and a wide-open mind, Nadler—who also happens to be a psychotherapist—offers a rare window into the unconventional ways she and her family adapt to their improbable path. Every relationship in her life—with herself, her husband, children, friends, and even clients—is reimagined as she navigates the heartbreak and hilarity of her daily life. As she and her husband join the 53 million caregivers in the United States, Nadler wrestles to belong in a society that devalues both caregivers and people with disabilities. She challenges the scripts that mothers should be martyrs, or that self-sacrifice is a necessary component of love. Nadler illustrates the complexity, grief, and joy of living an unexpected life, all with the wisdom of a therapist, the heart of a loving parent, and the ingenuity of a queer woman who refuses to be shackled by cultural expectations. *The Unlikely Village of Eden* is an insightful and wholehearted look at the long-ignored realities so many families live with daily. Nadler is a trusted guide who confronts both hope and despair as she gives readers the gift of what it looks like to redefine love, success, family, and community.
