The Oxford Handbook of Innovation

OUP Oxford

Oxford International Primary Geography is a complete six year primary geography course that provides an engaging introduction to the subject. Using real life examples from around the globe, the course covers key aspects of both human and physical geography, from the basics of mapping to more complex topics such as the pros and cons of ecotourism and how to meet the resource needs of the world's growing population. Additional Workbooks provide students with the opportunity for further study in the classroom or at home, including suggested research topics and

cross-curricular projects. For the teacher, the Teacher's Guide provides step-by-step guidance for each lesson, as well as background knowledge and geographical information for specialist and non-specialist teachers alike.

The study of law and politics is one of the foundation stones of the discipline of political science, and it has been one of the most productive areas of cross-fertilization between the various subfields of political science and between political science and other cognate disciplines. This Handbook provides a comprehensive survey of the field of law and politics in all its diversity, ranging from such traditional subjects as theories of jurisprudence, constitutionalism, judicial politics and law-and-society to such re-emerging subjects as comparative judicial politics, international law, and democratization. The Oxford Handbook of Law and Politics gathers together leading scholars in the field to assess key literatures shaping the discipline today and to help set the direction of research in the decade ahead.

Mentoring Geography Teachers in the Secondary School supports both new and experienced mentors in developing their knowledge and skills in mentoring in geography education. Within the book, chapter authors critically consider how mentoring has been conceptualised and represented in policy and academic debate, as well as examining how mentoring in geography education has been experienced and perceived in

practice. Chapters in the book explore a range of perspectives, experiences and aspects of mentoring geography teachers, including:

- Critical engagement with educational policy and practice
- Perspectives from beginning geography teachers
- Mentoring as a professional development opportunity
- The value of engaging with the geography education community in teacher education
- How mentoring meetings and conversations can support beginning geography teachers in their growth and development

This book is a vital source of support and inspiration

for all those involved in developing the next generation of geography teachers. The themes of justice, agency and voice - raised and engaged with implicitly and explicitly throughout this edited collection - are of critical importance to mentors, beginning teachers and geography education more broadly in developing and enacting a progressive vision of mentoring.
