 In late Victorian and
 Edwardian England,

says Steven Maughan,
 foreign missions had a
 broad resonance and
 significance not
 adequately explored by
 historians of English
 culture. *Mighty
 England Do Good* fills
 that lacuna by

examining the rapid growth of foreign missions in the Church of England between 1850 and 1915, culminating at the height of the missionary enterprise in Britain. Maughan's book bridges the gaps between religious, cultural, and imperial history to give a full picture of the movement's importance. Maughan explores Anglicanism as a microcosm of the larger religious culture of Britain, particularly in light of the expanding British empire. This book provides a multidimensional reassessment of the power that foreign missions had to shape belief, institutions, culture, and practice not only within the Church of England but

also in the broader culture of the time.

Mighty England Do Good Bloomsbury Publishing

The symposium celebrates the 300th anniversary of the publication of Newton's 'Principia'. Appearing in 1687 after the pioneering work of Copernicus, Galileo, and Descartes, the 'Principia' represents the culmination of the Scientific Revolution. The symposium focuses on Newton's discoveries and their impact on the modern world in the light of recent historical, methodological, as well as scientific studies. The proceedings contain papers devoted to the intellectual context of the 'Principia' (analysis of ancient mechanics

and middle-age physics) and to the problems of developing physics and its methods. The influence of post-Newtonian physics on Science will also be considered. In view of the 'revolutionary-evolutionary' controversy concerning the character of the development of science, some authors will undertake the interesting problem of whether physics will ever shake itself free from Newtonian methodology. Distinguishing features are: The Methodologically and ideologically diverse views on the 'Principia' and their influence on modern science and philosophy (from neo-Thomism to neo-Marxism, from science to art); The Reception of Newton's ideas in

Central Europe (Poland, Habsburg's Monarchy); and the Intellectual context of the 'Principia' with special emphasis on the impact of Wittelo's little known study of optics.

Being Freddie: My Story so Far Hachette UK

Andrew 'Freddie' Flintoff is one of the most exciting cricketers in the world and has improved out of all recognition during the last two years. In 2003, he was England's best player at the World Cup. Then, explosively, he lit up the second half of the summer in 2004, lifting spirits at Lord's with a bat-smashing 142. He walked off with the England man of the series award and averages to flaunt. This book marks his story

so far in his own words, taking us up to and including the summer of 2005, during which Flintoff has performed heroics with both bat and ball against Australia. Freddie will highlight the moments and matches in his career that helped him dramatically on his way forward, and reveals what it is like to play for one of the most successful England cricket teams in history.

MILLER 'Inspirational . .

. Precision, style and dedication. The Red Arrows are the ultimate in teamwork.' TIM PEAKE 'Perfectly enjoyable . . . As the Red Arrows head towards their 60th anniversary, it's clear the team's place in our hearts is secure.' DAILY MAIL 'A wild ride . . . The ultimate insider guide, relating with great enthusiasm and insight what it means to be inside the cockpit as you scream through the skies at 350 to 450 miles per hour, within what feels like touching distance of your wingman, making continual nanosecond decisions that will result in certain death if you get them wrong.' TELEGRAPH, Patrick Bishop

"Occasionally, you and

the team come within reach of perfection, up there in the rarefied air of the skies. You never know when those moments will come, but it's what you yearn for as a pilot." The Red Arrows represent the very best speed, agility and precision aerobatic flying in the Royal Air Force, and the people who wear those iconic red flight suits are rigorously selected not just for their flying skills, lightning-fast reflexes and nerves of steel, but for their mental resilience, courage and humility. Written by the Officer Commanding and former Red 1 Team Leader, Wing Commander David Montenegro, and full of never-before-shared tales from pilots past and present, this thrilling history is both

a faithful record and a fascinating account of not only what it takes, but what it means, to be a Red Arrow.

Praise for the Red Arrows: 'A lifetime's ambition . . . I still can't believe I've been in a fighter jet. It was fantastic - just to feel the G-force was spectacular.' LEWIS HAMILTON 'So tight, crisp and professional' CHRIS HADFIELD 'I can never quite believe that anyone can fly and aircraft with such precision' PROF. BRIAN COX 'The skill level they have is just off the scale. The Red Arrows is an amazing display of quality' DAVID COULTHARD

The Twentieth Century Hachette UK
 Virtue as Identity offers a study of how virtue is

learned and identity acquired through the selection and internalization of values. A large part of this process is externally imposed through culture. Another, perhaps more important part of the process is the result of individual and collective sensibilities. The book emphasizes the role of emotions and emotional sensibility in our choice of values. The book reaffirms traditional morality as the foundation of our individual and collective identities. The author argues that emotions as well as rational decisions guide the value choices we make and the ideals of character that we presuppose on a political level as much as they do in our

private lives. Thus the societies we live in are a reflection of our identities, or the identities of the majority. This opens up radical questions about the identities of the dissenting minorities, the proper concept of a moral or value-community, and the real reach and value of tolerance in modern democracy.

Fast bowler, six-hitter, popular hero, one of the lads, king of the jungle - Andrew Flintoff is all of those things. *Second Innings*, is his searingly honest yet uplifting autobiography, Flintoff reveals unseen, surprising sides to his career and personality. The restless need to push and challenge

himself that led him to take up professional boxing. The complex and troubled relationship with discipline, alcohol and authority during his exhilarating cricket career. The search for an authentic voice as a player, free from the blandness and conformity of modern professionalism. Is Flintoff the last of his kind, in any sport? Through all his highs and lows, triumphs and reversals, this book reveals a central tension. There is 'Fred' - performer, extrovert, centre of attention. Then there is 'Andrew' - reflective, withdrawn and uncertain. Two people contained in one extraordinary life. And sometimes, inevitably, keeping the two in balance proves too much. We are

taken backstage, seeing the mischief and adventure that has defined Andrew Flintoff's story. Above all, we observe the enduring power of fun, friendship and loyalty - the pillars of Flintoff's career. At ease with his faults as well as his gifts, Andrew Flintoff has sought one thing, even more than success: to be himself. If you enjoyed *Do You Know What?*, you'll enjoy this memoir of Freddie's sporting career.

Rowman & Littlefield Newfoundland is well known for the strong traditions and folklore of its English-speaking inhabitants. Until recently, however, few outside this province realized that there is also a small but vigorous Francophone

population, situated mainly on the west coast of the island in and around the Port au Port Peninsula. The culture and folklore, and particularly their storytelling traditions, are the focus of the work by noted folklorist and memorial university professor Gerald Thomas.

Thomas has conducted extensive and exhaustive research on the Port au Port Peninsula for more than twenty years, focusing on, though not limited to, the music and story telling in Franco Newfoundland communities, through the study of the repertoire, context and lives on three people: Mrs. Blanche Ozone, Mrs. Angela Kerfont, and Emile Benoit. The Thirteen Principal Upanishads

AuthorHouse

This engrossing book explores family experiences of dying, death, grieving, and mourning in the years between 1830 and 1920. So many Victorian letters, diaries, and death memorials reveal a deep preoccupation with death which is both fascinating and enlightening. Pat Jalland has examined the correspondence, diaries, and death memorials of fifty-five families to show us deathbed scenes of the

time, good and bad deaths, the roles of medicine and religion, children's deaths, funerals and cremations, widowhood, and mourning rituals.

Published in partnership with the National Archives, D-Day Documents is a commemorative collection of previously unpublished documents marking the 70th anniversary of the Normandy landings. This unprecedented book contains not only 21st Army Group intelligence reports on 'Omaha' Beach, RAF Photographic Reconnaissance prints and the ship's log of HMS Warspite but various other important official

documents covering different aspects of Operations Neptune and Overlord. Crucially, this single volume brings together for the first time the war diary entries of all Anglo-Canadian 'spear-head' units and regiments who landed in France on 6 June 1944. A unique publication, which celebrates one of the most momentous days in modern military history, D-Day Documents will fascinate anyone with an interest in the Second World War, as well as offering an invaluable primary source for military historians.
