Terrified of speaking in front of a group?  
 Or simply looking to polish your skills? No  
 matter where you are on the spectrum,  
 this guide will give you the confidence and  
 the tools you need to get results. Learn  
 how to win over tough crowds, organize a  
 coherent narrative, create powerful  
 messages and visuals, connect with and  
 engage your audience, show people why

From the head of TED and based on  
 expertise drawn from the best TED Talks,  
 an entertaining and practical guide to  
 speaking, pitching and telling stories, filled  
 with valuable insight for salespeople,  
 leaders, teachers and writers Amid today's  
 proliferating instant-communication  
 channels, one form has emerged as the  
 most effective way to communicate—a  
 brief, polished, live-audience video talk.  
 Since taking over TED in the early 2000s,  
 Chris Anderson has tapped the world's  
 most brilliant minds to share their  
 expertise on myriad subjects. Anderson  
 discovered early on that the keys to  
 getting an audience to sit up and pay  
 attention are to condense a presentation  
 into 18 minutes or less and to heighten its

impact with a powerful narrative: in other  
 words, to tell a terrific story. TED Talks is  
 chock full of personal presentation  
 suggestions from such TED notables as Sir  
 Ken Robinson, Mary Roach, Amy Cuddy,  
 Bill Gates, Elizabeth Gilbert, Dan Gilbert,  
 Matt Ridley and dozens more—everything  
 from how to focus your speech's content  
 to what you should wear onstage. This is a  
 lively, fun read with great practical value,  
 from the man who knows what goes into a  
 great speech. In TED Talks, Anderson pulls  
 back the TED curtain for anyone who  
 wants to learn from the world's best on  
 how to prepare a top-notch presentation.

The traditional system of education  
 requires students to hold their questions  
 and compliantly stick to the scheduled  
 curriculum. But our job as educators is to

provide new and better opportunities for our students. It's time to recognize that compliance doesn't foster innovation, encourage critical thinking, or inspire creativity--and those are the skills our students need to succeed.

*Speakers' Club* Pearson Education

Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

The ability to give an effective verbal presentation is an important skill that you can teach your students. To be able to give strong, organized oral presentations increases a person's chances of being regarded as knowledgeable, capable, and in command. This complete, developmental program prepares young people to become confident public speakers. It introduces techniques for writing and delivering interesting, animated speeches. General topics include making introductions, quick-pick speeches, writing a speech, and speaking techniques. Fashioned after Toastmasters, the program includes complete lesson plans, worksheets and information sheets, and evaluation forms. The culminating activity is a program that allows each participant to make an oral presentation. In each lesson, practical ideas introduce and reinforce the need for preparation and attention to detail. The series of lessons

begins with fun, low-anxiety activities and ends with a presentation for parents. Once students become skillful and confident in public speaking, you will find many opportunities for them to use these skills. There are opportunities for oral presentations in all areas of the curriculum. Some activities that would reinforce public speaking skills are oral book reports, reader's theater, discussion groups, oral reports in content areas, poster talks, interviews, demonstrations or explanations of how to do something, brainstorming, debates, plays, teaching a lesson, dramatic or expressive reading, or role-playing. FOREWORD BY GUY KAWASAKI

Presentation designer and internationally acclaimed communications expert Garr Reynolds, creator of the most popular Web site on presentation design and delivery on the Net — presentationzen.com — shares his experience in a provocative mix of illumination, inspiration, education, and guidance that will change the way you think about making presentations with PowerPoint or Keynote. *Presentation Zen* challenges the conventional wisdom of making "slide presentations" in today's world and encourages you to think differently and more creatively about the preparation, design, and delivery of your presentations. Garr shares lessons and perspectives that draw upon practical advice from the fields of communication and business. Combining solid principles of design with the tenets of Zen simplicity, this book will help you along the path to simpler, more effective presentations.

Your choices, charm, and chutzpah can revitalize your community. In her first book, Bogorad reminds us that we are all social beings, who need to socially interact to thrive as individuals and to sustain strong communities. She shares with us the theory that social isolation leads to victimization and weakens our communities. And she warns us that social cannibalism may consume us if we continue to ignore our need and our obligation to socially interact with each other. If you are a person whose community has been weakened by incivility, victimization, and/or addiction, the ideas within her book may help you strengthen your community. Or if you are a person, who has minimal contact with other people, her ideas may provide you

with a reason to increase the quantity and quality of your interactions. Or if you are a person, who lives in a community without incivility, victimization, and addiction, the contents of her book may help you understand those of us whose social environment is not as perfect as yours. But no matter who you are, reading her book will cause you to wonder about the importance of civility and the costs of incivility. Remember: We all need a village. And ponder: What we do not say does hurt us, and our polite interaction with others strengthens us and our community. according to Bogorad.

*A Guide to Stoicism* Prabhat Prakashan

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

*Rise Above* Routledge

The #1 New York Times bestseller. Over 20 million copies sold! Translated into 60+ languages! *Tiny Changes, Remarkable Results* No matter your goals, *Atomic Habits* offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. *Atomic Habits* will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

*Make Good Art* Penguin

In May 2012, bestselling author Neil

Gaiman delivered the commencement address at Philadelphia's University of the Arts, in which he shared his thoughts about creativity, bravery, and strength. He encouraged the fledgling painters, musicians, writers, and dreamers to break rules and think outside the box. Most of all, he encouraged them to make good art. The book *Make Good Art*, designed by renowned graphic artist Chip Kidd, contains the full text of Gaiman's inspiring speech.
