A autoconfiança pode ser corretamente compreendida como a espinha dorsal do método de sucesso de Hill. Mas, apesar de ser crucial para a prosperidade e a felicidade, essa característica é significativamente pouco desenvolvida na maioria dos indivíduos. A maior parte dos seres humanos no mundo de hoje se move pela vida sem rumo e sem ânimo, olhando para o chão em vez de para o alto e à frente, para as riquezas financeiras, espirituais e emocionais que eles poderiam reivindicar. Eles permitem que opiniões externas ditem como devem se vestir e enxergar o mundo. Acabou o tempo da dúvida, da insegurança sobre si mesmo e da autocrítica. Sua confiança em si mesmo e a sua capacidade de alcançar seu desejo principal fazem a diferença entre o sucesso e o fracasso. Dispostas na balança estão a sua segurança emocional e a financeira. Hoje — neste exato minuto — você começa uma jornada de descoberta, reconhecimento e compartilhamento de seus pontos fortes para que possa recuperar a energia e a motivação necessárias para alcançar os

seus objetivos. Este livro prepara você com as estratégias recomendadas por Hill para controlar os seus pensamentos a fim de estimular a sua autoconfiança. The Magic Ladder to Success Max Editorial

#1 New York Times, Wall Street Journal, and USA Today Bestseller! Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate

wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

The Essential Art of War Sharon Lechter

Em um mundo saturado por mensagens de "positividade", surge a necessidade de uma análise crítica e honesta sobre o poder do pensamento positivo. Este ebook se propõe a desmascarar a falácia do "pensamento positivo", questionando a crença simplista de que basta ter uma atitude mental positiva para alcançar o sucesso e a felicidade, ignorando os desafios, as dificuldades e os contratempos da vida. Questionando a Simplicidade do Pensamento Positivo O livro "Mais Esperto Que o Diabo", de Napoleon Hill, propõe que a persistência e a positividade são as chaves para o sucesso. No entanto, essa visão simplista falha em reconhecer a complexa realidade da vida.

Afirmar que basta pensar positivo para alcançar qualquer objetivo é negar a influência de fatores externos, como o contexto socioeconômico, as desigualdades sociais e as circunstâncias individuais. A Positividade como Máscara para Problemas Reais A indústria da felicidade, com seus livros, cursos e workshops, muitas vezes promove a positividade como uma solução mágica para todos os problemas. Essa abordagem pode ser perigosa, pois mascara problemas reais e culpabiliza as vítimas por seus fracassos. Ao invés de incentivar a busca por soluções reais para as dificuldades, a positividade exacerbada pode levar à autodepreciação e à negação da realidade. Emoções Negativas: Aprendendo com Elas É importante reconhecer que as emoções negativas são uma parte natural da vida. Sentir tristeza, raiva, frustração e medo é normal e saudável. Negar essas emoções ou

tentar reprimi-las pode ser prejudicial à saúde mental. A chave está em aprender a lidar com elas de forma construtiva, utilizando-as como oportunidades de crescimento e aprendizado. Uma Visão Realista e Equilibrada da Positividade A positividade não deve ser vista como uma solução mágica para todos os problemas, mas sim como uma ferramenta que pode auxiliar na superação de desafios. É importante ter uma visão realista e equilibrada, reconhecendo que o sucesso depende de uma combinação de fatores, como trabalho duro, resiliência, inteligência e adaptabilidade. Ao invés de perseguir uma felicidade ilusória, é importante buscar uma vida autêntica e significativa. Isso significa reconhecer a complexidade da vida, lidar com as emoções negativas de forma construtiva e aprender com os erros. A positividade, quando utilizada de forma consciente e equilibrada, pode ser uma ferramenta valiosa nessa jornada. Saiba Muito Mais...

Who is this book for: 1. For those who want to undertake in the literary market as a writer; 2. Who wants to undertake as a copywriter; 3. Who wants to undertake as a Ghostwriter; 4. Anyone who wants to make money by writing books and e-books; 5. People Who Want To Make Money Writing; 6. Who wants to make money with audiobook. Book War Manifesto War!!! We profit from the first product, we don't depend on publishers. We navigate all writing markets, be it physical books, audiobooks, copywriting, Ghostwriting, e-books and PLR. We break limiting beliefs, we believe in testing, because the author's originals have their value. We don't limit ourselves to writing for our language, we write for the world. Not only that, but we are not victims, we

are war fighters! At that moment there is a war going on in your mind, on one side there is a giant who thinks he is a pygmy, on the other side there are pygmies who think they are giants. They pull the rope hoping you'll give in, you hold it awake not sure if you're going to pull it or not. You're a sleeping giant though, that's over! How are you going to perform at the desired level if you can't operate at the belief level consistent with the desired outcome? I once heard someone say: "Man is a Ferrari who lives his whole life like a VW". I think there's nothing wrong with being anything in this world, as long as it's a conscious choice. If you make a choice, you must have thoughts and behaviors consistent with your self-imposed belief. The problem, in my view, is how the belief was constructed? Was it built unconsciously or consciously? Perhaps, the program is out of date, yet it continues to operate as an updated program. You update the program on your computer,

the "Application" on your cell phone, but you don't update your perception of the world. It's time to update the program, that update starts with a change of belief. This will help you to behave in a manner consistent with that belief. Take a deep breath, feel it close, press the button, pull the rope now!

With the clarity of a physicist and the compassion of a gifted healer with fifteen years of professional experience observing 5,000 clients and students, Barbara Ann Brennan presents the first in-depth study of the human energy field for people who seek happiness, health and their full potential. Our physical bodies exist within a larger "body," a human energy field or aura, which is the vehicle through which we create our experience of reality, including health and illness. It is through this energy field that we

have the power to heal ourselves. This energy body -- only recently verified by scientists, but long known to healers and mystics -- is the starting point of all illness. Here, our most powerful and profound human interactions take place, the precursor and healer of all physiological and emotional disturbances. Hands of Light is your guide to a new wholeness. It offers:

- A new paradigm for the human, in health, relationship, and disease
- An understanding of how the human energy field looks, functions, is disturbed, healed, and interacts with friends and lovers.
- Training in the ability to see and interpret auras
- Medically verified case studies of healing people from all walks of life with a variety of illnesses.
- Guidelines for healing the self and others.
- The author's personal and intriguing life adventure which gives us a model for growth, courage and possibilities for expanded consciousness
