Vincent Van Duysen Works 2009-2018
 Climbingvan Alice in Wonderland (also known as Alice's Adventures in Wonderland), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual

creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing. The Simple Path to Wealth
 Lonely Planet
 This new overview of the work of world-renowned Belgian architect Vincent Van Duysen focuses on his most recent projects over

the past decade. A follow-up and companion to Vincent Van Duysen Works 1989–2009, this brand new overview presents Belgian architect Van Duysen’s most recent works over the course of the past decade. With photography by internationally renowned architectural photographer Helene Binet, it will be a welcome addition to any architecture lover or design

enthusiast’s shelf. In recent years Van Duysen has secured his reputation as one of the major tastemakers of minimalist design. The projects featured in this new book include an array of elegant residences in New York, Paris, and The Hamptons, and other private and public buildings, such as the Alexander Wang storefront in London. Van Duysen’s forays into

product and interior design are also featured, including yacht interiors and furniture and homeware design for brands including the esteemed Italian house Molteni & C. With foreword by the actor, and close friend of Van Duysen, Julianne Moore, this new collection of works also includes an insightful preface by the architect Nicola di Battista.

 "Al and Danny
 cut to a depth
 that most
 calisthenic
 practitioners
 will never
 reach. What
 you have
 before you is a
 well
 researched,

practical approach to achieving your fitness goals through bodyweight training, produced by the experts in their field." -- Jeff Cavaliere MSPT, CSCS ATHLEAN-X(tm) "In Arnold's classic book, The Education of a Bodybuilder, Arnold stresses the importance of bodyweight training. His insights are brilliant, correct and... completely ignored. Danny and Al once again remind us of the need for bodyweight training in their new book, Next Level Strength. I have been using the techniques that Danny and Al have taught me personally and I continue to make progress well after the age of sixty. This is amazing information brought to you by two of the best people I know." --Dan John, Author of The Hardstyle Kettlebell Challenge "Next Level Strength takes all the power of old school calisthenics and blasts it to a higher level! Just when I think the Kavado library of advanced calisthenics cannot possibly be improved upon, they raise the game for everyone else! Next Level Strength is brilliant...make no mistake: this is the ULTIMATE manual on using rings and parallettes as old school calisthenics tools. As I've gotten older

I've found myself utilizing the techniques in this awesome book more and more...the result has ALWAYS been the same: old aches and pains vanish, my joints heal, I gain fresh muscle, and I make breakthroughs in total-body strength. If you have seen rings and parallettes in gyms and were wondering how to use them to take your training to the next level quickly and safely, or if you are just

looking for new tools to explode your athleticism beyond your old limits, Next Level Strength belongs on your bookshelf! 10/10!" --Paul "Coach" Wade, Author of Convict Conditioning "Danny and Al Kavadlo have truly taken their already masterful bodyweight strength instruction to the next level with Next Level Strength. Rings and parallettes are great training tools, but the

genius of this book is in the exercise selection and progressions. The program is accessible to the beginner, while giving the advanced trainee all they can handle. Most importantly, the program is fun and goal oriented, and will be in regular rotation with my own training. The Kavadlos always set the bar high with the quality of their books, and I think this one will become my favorite, which

is saying a lot. Next Level Strength should be on the bookshelf of any serious student of strength. Highly recommended!" --Dr. Chris Hardy, co-author of *Strong Medicine Asian Punches* Tordotcom With hundreds of funky vehicles, awe-inspiring landscapes, and cleverly designed interiors in tiny spaces, Van Life is perfect for anyone who dreams about living on the open road.

More and more, people of all generations -- from millennials to baby boomers -- are taking a break from conventional life for the freedom, tranquility, and adventure of being on the road and living in a converted vintage truck, camper, or van. One of these van-dwellers, Foster Huntington, created the #vanlife hashtag as he chronicled his adventures of living in a van and driving it

across the country. He tapped into a community of like-minded individuals looking to explore nature at their own pace and live a debt-free lifestyle. Van Life showcases the best crowd-sourced photographs from Foster's social media accounts -- many of which have never been posted or seen before. Organized into sections like Volkswagen vans, American vans, converted

vans, school buses, and more, the selection of photos includes shots of the unique vehicles and the beautiful locations they've been parked. From stunning beaches to dramatic mountains and picturesque forests, and with fully designed interiors with kitchens and sleeping quarters, this stunning array of life-on-the-road-possibilities might just be enough to get you to pack up

your things and hit the highway. Also included are informative and topical interviews with solo travelers, couples, and families who are living this new American dream.

“As inviting, wide-ranging, and philosophical as an all-night conversation with a best friend, and as revealing and thought-provoking as

the diary of a curious adventurer.”—Sasha Sagan, author of *For Small Creatures Such as We*
You can travel the world looking for yourself, but if you don't know what you're looking for, how can you find it?
Like Streams To The Ocean is about examining the things that make us who we are and getting to know ourselves, our stories, and the decisions that shape our one and only life. Writing

with the passion and clarity that made his debut, *To Shake the Sleeping Self*, a national bestseller, Jedidiah Jenkins brings together new and old writings to explore the eight subjects that give life meaning: ego, family, home, friendship, love, work, death, the soul. Who am I? What am I made of? How much of how I act boils down to avoiding the things that make me feel small? As he examines the

experiences that shape our conscious and subconscious answers to these questions, Jenkins leads readers in a wide-ranging conversation about finding fulfillment in the people and places around us and discovering the courage to show our deepest selves to the world.

"We came to Britain in search of better opportunities or to get some of the wealth which had been misappropriated from the Caribbean, but what in reality did we find?" *Speak Out* brings together the writings of Brixton Black Women's Group for the first time, in a landmark collection. Established in response to the lack of interest in women's issues experienced in male-

dominated Black organisations, the Brixton Black Women's Group's aim was to create a distinct space where women of African and Asian descent could meet to focus on political, social and cultural issues as they affected black women. BBWG published its own newsletter, Speak Out, which kept alive the debate about the relevance of feminism to black politics and provided a black

women's perspective on immigration, housing, health and culture. Wherever the Road Leads Hachette UK Sex in the woods is not as simple as it sounds. Sure, you know the basics (after all, if you don't, you probably shouldn't try it in the wilderness), but what about all the little details that should be considered before embarking on an alfresco rendezvous that can make the difference

between love under the moon and stars and love on the cold, hard ground? For example, what sex essentials should be part of your first-aid kit? What kind of camping equipment provides particular comfort for two? What are the effects of the elements on condoms, spermicides, and other contraceptives? How do you find that perfect spot for your love den? And how about foreplay,

personal hygiene, and protection from pesky plants or adverse weather conditions while you're exposed? How to Have Sex in the Woods answers these and other questions for the millions of hikers, backpackers, and campers who know that there's more than one way to commune with nature and that a campfire is good for more than just roasting marshmallows . How to Have Sex in the

Woods is full of useful, factual information, covering all the practical how-tos that every amateur camper should know but may have been afraid to ask. It is a must for anyone looking forward to his or her next outing a deux. **Next Level Strength** The Floating Press Best Climbs Joshua Tree National Park gives climbers a selection of more than 280 of the very best routes at one of the country's most

popular climbing destinations. Full color photographs along with a contemporary design make this book as visually appealing as it is useful. The Philosophy of Disenchantment Library of Alexandria Winner of the Hugo Award! In A Psalm for the Wild-Built, bestselling Becky Chambers's delightful new Monk and Robot series, gives us hope for the future. It's been centuries since the

robots of Panga gained self-awareness and laid down their tools; centuries since they wandered, en masse, into the wilderness, never to be seen again; centuries since they faded into myth and urban legend. One day, the life of a tea monk is upended by the arrival of a robot, there to honor the old promise of checking in. The robot cannot go back until the question of

"what do people need?" is answered. But the answer to that question depends on who you ask, and how. They're going to need to ask it a lot. Becky Chambers's new series asks: in a world where people have what they want, does having more matter? Springer Science & Business Media Forget hurrying. Forget putting your foot down and racing through sweeping bends. Forget the understeer (whatever that is). Forget the blur of a life lived too fast. This is a look at taking life slowly. It's about taking the time to enjoy journeys and places for their own sake. It's about stopping and putting the kettle on. Stopping to take a picture.

Stopping to enjoy stopping. How are you going to do it? In a camper van or a motorhome, of course. In this book we define the best driving routes around Scotland for camper vans and motorhomes. We show you the coolest places to stay, what to see, what to do and explain why it's special. We meander around the highlands, lowlands and islands of Scotland on the most breathtaking

roads, chugging up mountain passes and pootling along the coast. We show you stuff that's fun, often free. We include the best drives for different kinds of drivers; for surfers, wildlife watchers, climbers and walkers. We include the steepest, the bendiest, those with the most interesting bridges or views or obstacles, ferries and tidal causeways. And you don't even have to

own a camper van or motorhome - we'll tell you the many places you can rent one to take you on the journey. All of this is interspersed with beautiful photos, handy maps and quirky travel writing from the king of camper vans and motorhomes, Martin Dorey. So if all you want to do is flick through it on a cold day and plan your next outing, you'll be transported (albeit slowly) to pastures, beaches,

mountains
and highways
that make you
want to turn
the key and
go, go, go!
We'll take you

slow way. The
way it should
be seen.

Times
bestseller: the

harrowing tale of British explorer Ernest Shackleton's 1914 attempt to reach the South Pole. In August 1914, polar explorer Ernest Shackleton boarded the *Endurance* and set sail for Antarctica, where he planned to cross the last uncharted continent on foot. In January 1915, after battling its way through a thousand miles of pack ice and only a day's sail short of its destination,

the *Endurance* became locked in an island of ice. Thus began the legendary ordeal of Shackleton and his crew of twenty-seven men. When their ship was finally crushed between two ice floes, they attempted a near-impossible journey over 850 miles of the South Atlantic's heaviest seas to the closest outpost of civilization. With an introduction by Nathaniel Philbrick, *Endurance* is

the definitive account of Ernest Shackleton's fateful trip. Alfred Lansing brilliantly narrates the gripping and miraculous voyage that has defined heroism for the modern age. *A Psalm for the Wild-Built* Hachette UK Get behind the wheel, turn the key, and feel the breeze.
