“Don Easterling is a
great coach, but he is
also an outstanding

speaker for any
occasion - if you
haven't heard him you
should - he is terrific!" -
Jim Valvano “Don
Easterling is not only
one of the greatest
swim coaches ever, he
is one of the finest
storytellers and writers
I have ever known. He

is a national treasure, a man of superb wit, spirit and charm. He is motivator par excellence, my mentor and dearest friend who has enriched my life and that of so many others. These stories are a must read for all who treasure the values and lessons of life that we all cherish.” - Mark Bernardino, Head Swim Coach University of Virginia “As his athlete, fellow coach and friend, I have been clearly inspired by Coach Easterling’s passion for story telling and his gift of finding the words to motivate us all.” - Beth Harrell, Head Swimming Coach North Florida University “I remember vividly receiving my first Christmas Story in 1990. It came none too soon. Christmas

training of my freshman year in college was tough and a heart warming, inspirational and entertaining story was certainly welcomed. Your Christmas stories have delighted for decades. In the busy world we live in: They remind us that reflection inspires & heals; They teach us to find joy in the little things; They truly remind us how to get in the Christmas spirit. The art of story telling is one of many arts that you have mastered. Nothing gets us in the spirit like your stories. They are timeless and will be enjoyed by many for generations to come.”- David Fox, Goldman Sachs, Olympic Gold Medalist “As Coach Don tells his story you follow along with your

own story because he has taken you back to a time forgotten until the echoes come flooding back. When the story is read and I have a couple of laughs and wipe away the tears, I carefully fold the story back up and place it safely back in its' envelope and I take a moment to say, "Thanks Coach"."

- Doug Russell, 2-time Olympic Gold Medalist

Simon & Schuster
 The most famous skateboarder ever

shares the business secrets to his success! He's the man who put skateboarding on the map. He's the first to land a 900 (two and a half full rotations). He's also among the richest pitchmen in any sport. And, in a sport that's especially youth-oriented, Tony Hawk, a 40-something father of four, still connects with his audience by staying true to who he is. Moving easily between the ramp and the boardroom, Tony currently runs one of the most acclaimed action sports companies, a clothing line, and video game series bearing his name that has sold over \$1 billion worldwide, making it the biggest selling action sports game franchise in game history. He has secured

endorsement deals with major brands such as McDonalds, Intel, T-Mobile and Kohl's; started the Boom Boom HuckJam action sports tour; and achieved worldwide acclaim from the ESPN X Games. Filled with Tony's typical modesty and humor, *How Did I Get Here?* tells the amazing story behind Tony Hawk's unprecedented success from skateboarder to CEO, and the secrets behind his lasting appeal. You'll find out how authenticity has served him well in all his achievements. You'll also understand how his story has shaped many of his fundamental values, including his huge desire to win and his strong sense of realism. Get the inside story of Tony Hawk

beyond the skateboard as he answers the question: *How Did I Get Here?*

And so you've reached that time in life when you're starting to "pick investments over adventure, / And clean over scenic, and comfortable over intense"; when, even though in your heart of hearts you're much younger, the rest of you is (how did it happen?) forty. Judith Viorst, the wise and witty lady of *It's Hard to Be Hip Over 30 and Other Tragedies of Married Life*, is here to guide you through these forty-ish years with poems that reflect the highs, the lows, and the everything-in-betweens of midlife.

Viorst playfully considers the prospects of sagging kneecaps, awkward college reunions, and fantasies of love in the afternoon; being baffled by one's Buddhist bisexual vegetarian Maoist offspring; cholesterol counts, adult-education courses and other atrocities of midlife—which somehow aren't as painful when you can laugh at them. Filled with warmth, humor, and insight, *How Did I Get to Be 40 & Other Atrocities* is Judith Viorst at her best.

This hilarious and candid collection of personal essays about teaching follows in the footsteps of such classics as *Teach Like Your Hair's on Fire*, *The Courage to Teach*, and *Up the Down Staircase*. "Send this book to your favorite teacher.

They'll know you're sucking up. They'll thank you anyway" (People). Shannon Reed did not want to be a teacher, but now, after twenty years of working with children from preschool to college, there's nothing she'd rather be. "With an irresistible combination of compassion, humor, and engaged storytelling" (Shelf Awareness), her essays illuminate the highs and lows of a job located at the

intersection of youth and wisdom. Bringing you into the trenches of this most important and stressful career, she rolls her eyes at ineffectual administrators, weeps with her students when they experience personal tragedies, complains with her colleagues about their ridiculously short lunchbreaks, and presents the parent-teacher conference from the other side of the tiny table. From dealing with bullies and working with special needs students to explaining the unwritten rules of the teacher's lounge this "starkly honest, at times irreverent" (Library Journal) look at teaching is full of as much humor and heart as the job it celebrates.

Equal Share tells a fascinating story-the history of a group of dynamic tapestry workers who changed the economic life of their community. The authors examine a key community-based cooperative in Botswana that was launched in the early 1970s, and is hailed as a model for development and social change. With little formal education, virtually no job experience, still working their own agricultural lands, and many as single mothers, the co-op workers have maintained their

business for over twenty-five years. *Equal Shares* is written in different voices, and tells the story of the defining moments in the lives of the Oodi Weavers. As the workers weave their village stories into the tapestries, the book weaves a story that depicts their evolving collective experience. It's a model of community action. Inspiring reading for all those fighting to take control of their economic lives.

First published to enormous acclaim in 1973, this book became a classic that revolutionized the way children are taught to read and write poetry. The celebrated poet

Kenneth Koch conveys the imaginative splendor of great poetry--by Blake, Donne, Stevens, Lorca, and others--and then shows how it maybe taught so as to help children write poetry of their own. For this edition, the author has written a new introduction and a special afterword for teachers.

 We live in a world where reality is being presented to us as fantasy, and fantasy and as a reality. This world is not what we have been told to be, and everything that we know of is fake fictional stories written by Artificial Intelligence computers on sets of algorithm instructions that tells it what to write. What we know of

our world was not written by humans for the most part of it, but by machines, they only needed to put in a plot or parameters and the AI computers were writing up the stories guided by algorithms. In this book of 23 Chapters there are so many revealed secrets of the true nature of the world we live in and creation as a whole, scattered throughout all 90 pages of this book and because of that it should be read thoroughly. Starting from Chapter 1, this book explains the true origin of humanity and creation as a whole, who we really are, where did we come from, and how did we get here! Chapter 2 explains the true story of the Trojan War, and the real reason why

humanity is in perpetual wars ever since the Great re-set about 200 years ago, and the takeover of our 4 continents by Satanic forces. Chapter 3 explains what the Dome is made of that we live Under, and when it was put in place. Chapter 4 explains the primary purpose of the Dome as a Macro cosmos, and its importance for the creation of humanity as Micro cosmos, as above – so below. Chapter 5 explains the true purpose of the Portal at North Pole known as Ruper Nigra, or Mount Mery, which I call Mother-mirror Portal. Chapter 6 explains how exactly water was made in the Underworld by the Portal machine I call Mother Portal. Chapter

7 explains how the Dome was made by the Father Portal machine which is placed under the ground in the centre of the world. Just a remainder here that the centre of the world is not at the North Pole, but somewhere else. Chapter 8 explains what exactly is Torus field dynamics that creates the Dome we live under, and how it works. Chapter 9 explains exactly what an Atom is, its true origin and function. Chapter 10 explains the origin of the Cross, how it came into existence, and its true purpose for human-kind creation. Chapter 11 explains the meaning of the Cross in the middle text of Rosetta Stone. Chapter 12 explains the real meaning of the Cross

in the Bible referred to as 'The Twin Flame'. Chapter 13 explains the true meaning of the words 'Equator', 'North' - 'South', 'East' - 'West', and 'Horizon'. Chapter 14 explains exactly why Atmospheric Energy increases by 100 Volts going upwards into the sky. Chapter 15 explains the Intelligent design of Creation. Chapter 16 explains exactly how Stars were Born. Chapter 17 explains exactly who God is. Chapter 18 explains what the element of Fire is. Chapter 19 explains what the element of Air is. Chapter 20 explains what the element of Water is. Chapter 21 explains what the element of Earth is. Chapter 22 explains the true meaning of Saint Bartholomew.

Chapter 23 explains all about hexagonal growth formation in nature as mathematical construct.

this Mess?, based on

his powerful

journalism, assesses

the state we are now in: the devastation of the natural world, the crisis of inequality, the corporate takeover of nature, our obsessions with growth and profit and the decline of the political debate over what to do. While his diagnosis of the problems in front of us is clear-sighted and reasonable, he also develops solutions to challenge the politics of fear. How do we stand up to the powerful when they seem to have all the weapons? What can we do to prepare our children for an uncertain future? Controversial, clear but always rigorously argued, *How Did We Get into this Mess?* makes a persuasive case for change in our everyday lives, our politics and economics,

the ways we treat each other and the natural world.
