NTP is applicable to Meridian 1 and Meridian SL-1 switches equipped with Generic X11 (Release 24) software. The Meridian 1 uses a prompt-response system to establish and alter system configuration. The Meridian 1 also uses a command

entry system which allows data administrators to: • view and print status of switch information Meridian 1 Software Input/Output Guide - Avaya Page 1 of 1050 X11 Administration 6 General This Northern Telecom Publication (NTP) is a reference guide to be consulted when adding, modifying or deleting a feature or service. This NTP is applicable to Meridian 1 and Meridian

SL-1 switches equipped with Generic X11 (Release 24) software. Meridian 1 Software Input/Output Guide - Avaya Communicating with the Meridian 1 To communicate with the system, the following input/output devices at either on-site (local) or remote locations are required: • TTY or VDT terminal as an input/output device • RS-232-C compatible printer as an output only

device •
